STATUTABLE CONGREGATIONS.—One upon the last day of each Term; two on the 10th day of October; one on the 3d, and one on the 4th of November; two on the day after the second Tripos; two on the 11th of June.

The Divinity, Law, and Physic Schools are open during the whole of every Term, and the keeping of all Acts, except the former which are confined to every other Thursday, is entirely at the discretion of the respective Professors.

All Festivals, Saints' days, and Sundays, are surplice days, and the evenings preceding are surplice evenings; but on January 29, May 29, and November 5, surplices are worn in the morning only.

On Litany days the Doctors and Noblemen wear their robes, and the Proctors their congregation ruffs.

Commem. of Benefactors is at Pet. Clare, Pemb. Caius, Queen's, Cath. Jesus, Christ, and St. John's, the day after the end of each term, on which occasion there is a feast in the several college halls.

UNIVERSITY OF CAMBRIDGE.

Introduction.

THE UNIVERSITY of CAMBRIDGE is a society of students in all and every of the liberal arts and sciences, incorporated (13th Eliz.) by the name of *The Chancellor, Masters, and Scholars of the University of Cambridge*. The frame of this little commonwealth standeth upon the union of seventeen colleges, or societies, devoted to the study of learning and knowledge, and for the better service of the Church and State. All these *colleges or halls have been founded since the beginning of the reign of King Edward I. † and are maintained by the endowments of their several founders and benefactors. Each college is a body corporate, and bound by its own statutes; but is likewise controlled by the paramount laws of the University. The present University statutes were given by Queen Elizabeth, and, with former privileges, were sanctioned by Parliament. They are the foundation upon which all new laws are framed.

Each of the seventeen departments or colleges in this literary republic, furnishes members both for the executive and legislative branch of its government. The place of assembly is the Senate-House.

All persons who are ‡Masters of Arts, or Doctors in one or other of the three faculties, viz. Divinity, Civil Law, or Physic, having their names upon the college boards, holding any University Office, or being resident in the town of Cambridge, have votes in this assembly. The number of those who have a title to

* Colleges and Halls are here synonymous, though not so at Oxford. Thus Clare Hall is called "Collegium sive Domus, sive Aula de Clare."

† The first authentic charter is said to be dated 45 Henry III. and to be found among the records in the Tower.

‡ Those Bachelors in Divinity who are Members of the Senate, deduce their privilege from having previously taken the degree of M.A.

the appellation of Members of the Senate, is at present upwards of eighteen hundred. Those who erase their names from their respective college boards, lose the privilege of being Members of the Senate, unless they *re-enter* their names, and reside the greater part of three several terms.

The Senate is divided into two classes or houses; and, according to this arrangement, they are denominated Regents, or Non-Regents, with a view to some particular offices allotted to the junior division by the statutes of the University.

Masters of Arts of less than five years' standing, and Doctors of less than two, compose the Regent or Upper House, or, as it is otherwise called, the White-Hood House, from its members wearing their hoods lined with white silk. All the rest constitute the Non-Regent or Lower House, otherwise called the Black-Hood House, its members wearing black silk hoods. But Doctors of more than two years' standing, and the Public Orator of the University, may vote in either house, according to their pleasure.

Besides the two houses, there is a council called the *Caput*, chosen annually upon the 12th of October, by which every University Grace must be approved, before it can be introduced to the Senate.

The *CAPUT* consists of the Vice-Chancellor, a Doctor in each of the faculties, Divinity, Civil Law, and Physic, and two Masters of Arts, who are representatives of the Regent and Non-Regent Houses. The Vice-Chancellor is a Member of the *Caput* by virtue of his office. The election of the other members of this council is effected in the following manner:—The Vice-Chancellor and the two proctors severally nominate five persons properly qualified for the trust, and out of the fifteen, the Heads of colleges, Doctors, and Scrutators, choose five. In general, the Vice-Chancellor's list is honoured with the appointment: and in case any one thus appointed should afterwards be chosen Vice-Chancellor, or should die, the vacancy is not filled up by election, but the senior in that faculty present in the congregation supplies his place.

A few days before the beginning of each Term, the Vice-Chancellor publishes a list of the days on which

Congregations will be held for transacting University business; these fixed days occur about once a fortnight, but in case of emergency the Vice-Chancellor calls a meeting of the Senate for the despatch of extraordinary affairs. This is done by means of a printed notice, specifying the business, hung up in the halls of the several colleges three days previous to the time of assembly. Any number of members of the Senate, being not less than twenty-five, including the proper officers, (or their legal deputies,) who, by virtue of their oaths, are obliged to be present, constitute a Congregation, and may proceed to business. There are also Statutable Congregations, or days of assembling enjoined by the statutes, for the ordinary routine of University affairs, such as conferring degrees, electing officers, &c. for which no notice is required. Previous to every Congregation the University bell rings for the space of one hour. Every member has a right to present any proposition or grace to the consideration of the Senate; but previously to its being voted by the two houses, it is to be read and approved by the Council or Caput, each member of which has a *negative* voice. After a grace has passed the Caput, it is read in the Non-Regent House by one of the two Scrutators; and also in the Regent House by the Senior Proctor; and the congregation is adjourned by the Vice-Chancellor. It is read in like manner at the second congregation; and if a *non-placet* is put in by a member of the Non-Regent House, it is there voted; and in case the number of *non-placets* is equal to, or exceeds that of the *placets*, the grace is thrown out, and can proceed no further; but if the *placets* be greater than the *non-placets*, it is carried up into the Regent House, and there undergoes the same process, and if it passes through both Houses, it is considered a regular act of the Senate; and if the subject be of a public nature, it becomes a statute.

We have selected as a specimen the following grace, which passed Feb. 28, 1806:—

“ *Cum tempora quibus hactenus haberi solita est matriculatio, usu comperta sint incommoda, et propter hanc atque alias causas ipsa matriculatio ab alumnis cæperit prætermitti.*

"Placeat vobis, ut in posterum, pro die insequente cuiusque termini finem, dies instituaturs ad matriculationem peragendam, qui vel proxime vel uno interjecto, sequatur mediam termini cuiusque partem; atque, ut iis qui post decimum Octobris diem, anno Domini millesimo octingentesimo quinto, intra Academiam per tres terminos commemorati, non matriculati fuerint, nullus omnino computetur terminus, nisi ab illo die, in quo matriculationem rite perfecerint."

No degree is ever conferred without a grace for that purpose, which undergoes the same scrutiny and process as above related; those for Bachelors of Arts, Honorary Degrees, and Masters of Arts of King's college, excepted, which only require reading at one congregation. After it is passed, the Vice-Chancellor is at liberty to confer the degree. A grace in this instance is termed a Supplicat. It is signed by the Prælector of the respective college to which the person belongs, and the subscriber is made responsible for the assertion it contains. The penalty for subscribing a false Supplicat, is "*ipso facto*," two years deprivation of the privilege of voting in the Senate, or holding any public office in the University. *Lib. Stat.* p. 234.

Form of a Supplicat for the degree of M. A.

Coll., 5to Aprilis, 18—

"Supplicat reverentiis vestris A.B. ut novem termini completi post finalem ejus determinationem, in quibus ordinarias lectiones audiverit, (licet non omnino secundum formam statuti) una cum omnibus oppositionibus, responsionibus, disputationibus, declamationibus, cæterisque exercitiis per statuta regia requisitis, sufficiant ei ad incipiendum in artibus."

"C. D. Prælector."

NOTE.—For every other degree there is a proper form.

The University confers no degree whatever, unless a person has previously subscribed a declaration that he is *bona fide* a member of the Church of England as by law established.*

The executive branch of the University is committed to the following officers :—

* This refers only to B. A. M. B. B. C. L. but for other degrees it is necessary, that persons should subscribe to the 56th Canon of the Church of England inserted in the Registry's Book.

A CHANCELLOR, who is the head of the whole university, and presides over all cases relative to that body. In him is placed the sole authority within the precincts, except in matters of mayhem and felony. He seals the diplomas and letters of degrees, provisions, &c. given by the University. He is to preserve and defend its rights and privileges, to convoke assemblies, and to do justice among the members under his jurisdiction. He is generally one of the first nobility.

A HIGH STEWARD, who has a special power to take the trial of scholars impeached of felony within the * limits of the University, and to hold and keep a leet according to the established charter and custom. He is allowed a deputy.

A VICE-CHANCELLOR, who is annually elected on the 4th of November, by the Senate. His office, in the absence of the Chancellor, embraces the execution of the Chancellor's powers, and the government of the University, according to her statutes. He must, by an order made in 1587, be the Head of some college; and during his continuance in office he acts as a magistrate for the University and County.

A COMMISSARY, who is an officer under the Chancellor. He holds a court of record for all privileged persons and scholars under the degree of M.A. In this court, all causes are tried and determined by the civil and statute law, and by the custom of the University.

A PUBLIC ORATOR, who is the voice of the Senate upon all public occasions, writes, reads, and records the letters to and from the body of the Senate, and presents to all honorary degrees with an appropriate speech. This is esteemed one of the most honourable offices in the gift of the University.

The ASSESSOR is an officer specially appointed by grace of the Senate, to assist the Vice-Chancellor in his court, *in causis forensibus et domesticis*.

TWO PROCTORS, who are peace officers, elected annually. It is their especial duty to attend to the discipline and behaviour of all persons in *statu pupillari*, to search houses of *ill* fame, and take in custody

* The jurisdiction of the University is a mile every way round, reckoning from any part of the suburbs.

women of *loose* and *abandoned* character, and even those *de malo suspectæ*. Another part of their duty is to be present at all congregations of the Senate, to stand in scrutiny with the Chancellor or Vice-Chancellor, to take the open suffrages of the house, both by word and writing, to read them, and to pronounce the assent or dissent accordingly; to read the graces in the Regent House, to take secretly the assent or dissent, and openly to pronounce the same. They must be Masters of Arts of two years standing at least, and, of whatever standing in the University, are Regents, by virtue of their office. They determine the seniority of all Masters of Arts at the time of their taking that degree.

TWO LIBRARIANS, to whom the regulation and management of the University Library is confided.

A REGISTRARY, who is obliged, either by himself or deputy properly authorized, to attend all congregations, to give directions, if it be required, for the due form of such graces as are to be propounded, to receive them when passed in both houses, and to register them in the university records. To register also the seniority of such as proceed yearly in any of the arts and faculties, according to the schedules delivered unto him by the Proctors.

TWO TAXORS, who must be Masters of Arts, and are Regents by virtue of their office. They are appointed to regulate the markets, examine the assize of bread, the lawfulness of weights and measures, and to call all the abuses and defects thereof into the Commissary's court.

TWO SCRUTATORS, who are Non-Regents, and whose duty it is to attend all congregations, to read the graces in the Lower House, to gather the votes secretly, or to take them openly in scrutiny, and publicly to pronounce the assent or dissent of that house.

TWO MODERATORS, nominated by the Proctors, and appointed by a grace of the Senate. They act as the Proctors' substitutes in the Philosophical Schools, superintending alternately the exercises and disputations in philosophy, and the examinations for the degree of Bachelor of Arts. They are also generally appointed Deputies in the absence of the Proctors.

TWO PRO-PROCTORS, who are appointed in conse-

quence of the increasing magnitude of the University, to assist the Proctors in that part of their duty which relates to the discipline and behaviour of those persons who are in *statu pupillari*, and the preservation of public morals; but in the other parts of the Proctors' office they have not any concern or control.

Three ESQUIRE BEDELLS, whose office is to attend the Vice-Chancellor, whom they precede with their silver maces upon all public occasions and solemnities. To attend the Doctors present in the Regent House, by bringing them to open scrutiny, there to deliver their suffrages either by word or writing, according to the order of the statute; to receive from the Vice-Chancellor and the rest of the Caput, the graces delivered unto them, and to deliver them first to the Scrutators in the Lower House, and from thence, if they be granted, to carry them to the Proctors in the Upper House; to attend the Professors and Respondents in the three faculties from their colleges to the Schools, and during the continuance of the several acts; to collect fines and penalties from all members of the University; and to summon to the Chancellor's Court all members of the Senate.

The UNIVERSITY PRINTER, the LIBRARY KEEPER, the UNDER LIBRARY KEEPER, and the SCHOOL KEEPER, are elected by the body at large.

The YEOMAN BEDELL is appointed by letters patent under the hand and seal of the Chancellor.

The UNIVERSITY MARSHAL is appointed by letters patent under the hand and seal of the Vice-Chancellor.

There are two Courts of Law in this University, *viz.* the *Consistory Court of the Chancellor*, and the *Consistory Court of the Commissary*.

CONSISTORY COURT OF THE CHANCELLOR.

In this court, the Chancellor, and in his absence the Vice-Chancellor, with the assistance of some of the Heads of colleges, and one Doctor or more of the Civil Law, administers justice desired by any member of the University, or by any requiring the same to be put in execution against any of that body, in matters and causes belonging to this court.

All pleas and actions personal, as of debts, accounts, contracts, &c. or of any other injury (begun or grown within the limits of the University) whereunto a privileged person is a party, and not concerning mayhem and felony, are solely to be here heard and decided.

The manner of the proceeding is according to the course of the civil law, *viz.* by citation, libel, &c.

In matters of delict (arising from the buying of victual or victualling, or from the trial of victual), the Chancellor, in his proceeding and judgement, receiveth direction from the law given to the University, by charter, or from the customs of the University, and from the statutes of the land where the charters and customs are wanting. In this proceeding he is authorized by a charter, confirmed by Act of Parliament.

From the judgment of this court there lies an appeal unto the Senate, who commit the examination thereof to certain delegates, (either Doctors or Masters of Arts), being three at the least, and not more than five, with a power either to reverse or ratify the appeal.

CONSISTORY COURT OF THE COMMISSARY.

In this court, the Commissary doth, by authority given him by deputation under the seal of the Chancellor of the University, sit, as well in the University, as at Midsummer and Stourbridge fairs, there to take knowledge, and to proceed in all causes *ad instantiam et promotionem partis ut supra*, the parties, or one of them, being privileged: saving, that within the University all causes and suits whereunto the Proctors or Taxors, or any of them, or a Master of Arts, or any other of superior degree, is a party, are reserved solely and wholly to the jurisdiction of the Chancellor or Vice-Chancellor.

The manner of proceeding in this is the same as in the other court, where the Chancellor himself or Vice-Chancellor presideth: being for the service thereof attended by a Registry, and the Yeomen Bedell, and having procurators and advocates there to plead, as in the other court required.

The party grieved is by the statute allowed his appeal unto the Chancellor's court, and so from thence

to the Delegates, if the cause and the grief of the party render such an application necessary.

The TWO MEMBERS; whom the University sends to the Imperial Parliament of the United Kingdom of Great Britain and Ireland, are chosen by the collective body of the Senate.

The UNIVERSITY COUNSEL are appointed by grace of the Senate, and are consulted upon various occasions.

The SOLICITOR is appointed by the Vice-Chancellor.

The SYNDICS are members of the Senate, chosen to transact all special affairs relating to the University, such as the framing of laws, regulating fees, inspecting the library, buildings, printing, &c.

The PROFESSORS have stipends allowed from various sources; some from the University chest, others from Government, or from estates left for that purpose. The annual income of the University chest is about 16,000*l.* including about 3000*l.* of floating capital. This arises from stock in the funds, manors, lands, houses, fees for degrees, government annuity (for surrender of the privilege of printing almanacks), profits of the printing-office, &c.

The annual expenditure is about 12,000*l.* disbursed to the various officers, professors, the library and schools, the University press, taxes, charitable donations, &c. &c. The whole is managed by the Vice-Chancellor of the year, and the accounts are examined by three auditors, appointed annually by the Senate.

The STATUTES of the University were printed in 1785—a copy of which may be found in the Public Library, the Library of every college, and in the Senate-House; the Vice-Chancellor and the two Proctors for the time being have also each one. The book of Statutes is divided into the following heads:—*Statuta Antiqua in ordinem redacta*:—*Statuta Antiqua in ordinem non redacta*—*Statuta Regis Henrici octavi*—*Statuta Regis Edwardi sexti*—*Statuta Reginæ Elizabethæ anno primo regni sui edita*—*Decreta edita auctoritate Gul. Cecilii, 1562*—*Statuta Reginæ Elizabethæ anno duodecimo regni sui edita*—*Literæ Regiæ ad Academiam datæ*—*Interpretationes Statutorum*—*Senatusconsultæ, sive gratiæ*—*Decreta præfactorum*—*Confirmatio compositionis inter Universita-*

tem et Collegium Regale---Juramenta--Formula--Tabula feodorum--Appendix Statutorum, continens Statuta Reginaldi Pole, 1557, &c. The statutes of the 12th of Elizabeth, and the *Senatusconsulta*, are those which are chiefly regarded at this time. Many of the old statutes, decrees, interpretations, &c. are looked upon as obsolete, or unnecessary, in the present state of the University.

The TERMS of this University are three, and are fixed by invariable rules. October or Michaelmas Term begins on the 10th of October, and ends on the 16th of December. Lent or January Term begins on the 13th of January, and ends on the Friday before Palm Sunday. Easter or Midsummer Term begins on the Wednesday se'nnight after Easter-day, and ends on the Friday after Commencement-day. Commencement-day is always the first Tuesday in July.

When any member of the Senate dies within the University during term, on application to the Vice-Chancellor, the University bell rings an hour; from which period *non-term*, as to public lectures and disputations, commences for three days.

If any member of the Senate change his college, twenty-four hours *only* are allowed for that purpose; if he exceed that time, he must again keep three terms, before he can be re-instated as a member, or qualified to vote.

The seventeen Colleges which constitute this University were founded by different individuals: all the founders in the first place enjoin the cultivation of *religion*, and next to that, polite literature and the sciences; all which combined are to set forth the glory of God in his works of Creation and Redemption. The statutes of most of the colleges require the Fellows to be born in England---in particular counties, districts, &c. A few colleges are perfectly open to all competitors for Fellowships, and it is particularly worthy of notice, that with regard to all, there is this law and determination:---“WHOSOEVER HATH ONE ENGLISH PARENT, ALTHOUGH HE BE BORN IN ANOTHER COUNTRY, SHALL BE ESTEEMED AS IF BORN IN THAT COUNTY TO WHICH HIS ENGLISH PARENT BELONGED. BUT IF BOTH PARENTS WERE ENGLISH, HE SHALL BE RECKONED OF

THAT COUNTY TO WHICH HIS FATHER BELONGED.”—
Stat. Acad. p. 268.

The several orders in the different colleges are as follow :—

1. A HEAD of a college or house, who is generally a Doctor in Divinity; excepting of Trinity-Hall, Caius College, and Downing College, where they may be Doctors in Civil Law or Physic. The Head of King's is styled Provost; of Queen's, President.

2. FELLOWS, who generally are Doctors in Divinity, Civil Law, or Physic; Bachelors in Divinity; Masters or Bachelors of Arts; some few Bachelors in Civil Law or Physic, as at Trinity-Hall and Caius College.

3. NOBLEMEN GRADUATES, DOCTORS in the several faculties, BACHELORS in DIVINITY (who have been Masters of Arts), and MASTERS of ARTS, who are not on the foundation, but whose names are kept on the boards for the purpose of being members of the Senate. The expence of keeping the name upon the boards varies a little in some colleges—in general it is about 4*l.* per annum.

4. GRADUATES, who are neither members of the Senate nor in *statu pupillari*, are Bachelors in Divinity, denominated four-and-Twenty-men or Ten-year-Men. They are allowed by the 9th statute of Queen Elizabeth, which permits persons, who are admitted at any college when 21 years of age and upwards, to take the degree of Bachelor in Divinity after their names have remained on the boards *ten* years. During the two last years they must reside in the University the greater part of three several terms, and perform the exercises which are required by the statutes.

5. BACHELORS in CIVIL LAW and PHYSIC, who sometimes keep their names upon the boards till they become Doctors. This is a needless expence, unless they propose to derive some advantage from becoming members of the Senate.

6. BACHELORS of ARTS, who are in *statu pupillari*, and pay for tuition whether resident or not, and generally keep their names on the boards, either to shew their desire to offer themselves candidates for Fellowships, or to become members of the Senate. If they erase their names, they save the expence of tuition and

college *detrimenta*; and nevertheless may take the degree of M.A. at the usual period, by putting their names on the college boards a few days previous to their incepting. Some of these are styled Bachelor Commoners, from the privilege of their being allowed to dine, &c. with the Fellows.

7. FELLOW COMMONERS, who are generally the younger sons of the nobility, or young men of fortune, and have the privilege of dining at the Fellows' table, from whence the appellation possibly originated.

8. PENSIONERS and SCHOLARS pay for their respective commons, rooms, &c. but the latter are on the foundation, and from the enjoyment of scholarships, read the graces in hall, lessons in chapel, &c.

9. SIZARS are generally men of inferior fortune. They usually have their commons free, and receive various emoluments.

UNIVERSITY OFFICERS, &c.

CHANCELLORS *.

The office of Chancellor is *biennial*, or tenable for such a length of time beyond two years as the *tacit consent of the University* may choose to allow. The election of a Chancellor must be within fourteen days after the vacancy. The Vice-Chancellor, Proctors, and a junior D.D. D.C.L. or M.D. stand in scrutiny, and first write their votes. All members of the Senate then bring their votes written in the same form, and the Senior Proctor pronounces the election.

REPRESENTATIVES IN PARLIAMENT.

James I. by his Charter, in the first year of his reign, granted power to the Chancellors, Masters, and Scholars of the two Universities, to elect and return two persons in each, to represent them in Parliament. Whenever there is a vacancy in the representation, the Sheriff sends the precept to the Vice-Chancellor, and the election, of which the Vice-Chancellor gives four days notice at least, is to be within eight days from the receipt of it. At the time of election, the two Proctors, and the junior D.D. present, stand in scrutiny with the Vice-Chancellor, who is the returning officer. The members of the Senate then give their votes in writing, and a majority of such determines the election.

PROCTORS.

Two colleges are every year to nominate persons for Proctors, in the order prescribed in a cycle of 51 years; in which time, King's, Trinity, and St. John's colleges have each of them eleven turns; Peterhouse, Christ's, Queen's, and Pembroke, seven each; Clare Hall, six; Corpus Christi, Jesus, Caius, Magdalene, Emmanuel, and Sidney, five each; Catharine Hall, four; and Trinity Hall, one. Each of the two colleges nominates one person. The person nominated may be a Regent or Non-Regent Master of Arts. If he be a Regent, he must be in the third year of his Regency at least.

He must be presented in the presence of the Registrar to the Vice-Chancellor, by the Head of his college, or by some one in his name, before the 1st day of August.

If any one who has been presented should die, or refuse the office, or be found incapacitated, before the 10th of October following, the Heads of colleges appoint two persons to be offered to the Senate, one of whom is to be elected. The same thing is observed in case any college neglects in due time to present.

If the office becomes vacant before the expiration of the year, Trinity Hall presents a Proctor for the remainder.

The Proctors are elected on the 10th of October, by the *Regents* only.

TAXORS.

According to the decree by which the cycle of Proctors now in use was established, the several colleges are to present persons to be Taxors the year immediately after they have presented to the Proctorship. They may be either Regent or Non-Regent Masters of Arts: but by their office they are Regents during the year. They are to be presented to the Vice-Chancellor by the Masters of their colleges, or by others in their stead, before the 1st of September immediately preceding their election. Presentation, &c. the same as the Proctors; and in case of a vacancy, the like rule is observed. The election of Taxors takes place on the 10th of October.

SCRUTATORS.

These officers, who are required by the statutes to be Non-Regents, are elected according to the order prescribed for the cycle of Proctors; the colleges out of which the Proctors are elected nominating the Scrutators for the year subsequent to that of presenting the Taxors. The Scrutators are elected by the *Non-Regents* only, on the 10th of October.

PROFESSORSHIPS.

LADY MARGARET'S PROFESSOR OF DIVINITY.

An election to this Professorship, founded 1502, by Lady Margaret, mother to Henry VII. is to be every *two* years. The Professor is to be chosen on the last day of Midsummer Term, and his two years are to commence from the next following feast of the Nativity of the Virgin Mary, (Sept. 8.) When the Lectureship becomes vacant, the same person may be re-elected, but this ceremony is generally dispensed with, and the Professor continues in his office as before. When, however, an election does occur, the electors are, the Chancellor, or Vice-Chancellor, Doctors, Inceptors, and Bachelors in Divinity, who have been Regents of Arts. Lady Margaret's stipend was 20 marks per annum. Augmented by James I. with the rectorial tithes of Terrington, Norfolk.

* Afterwards Sir James Burrough, Knt. Master of Caius College and Architect of the Senate-house.

† In consequence of Mr. Beverley's long services, he was allowed a deputy in 1821, and John Smith, B.A. Joh. was appointed; and on his resignation in 1824, George Leapingwell, B.A. Corpus. ‡ Formerly Master of St. John's, and author of "The Reasonableness of Christianity."

Bishop Marsh's Lectures.

The present Professor soon after his election commenced a course of Theological Lectures, which have from time to time been delivered before the University in Great St. Mary's Church. Thirty-four lectures have been already given, and published at intervals in seven parts, under the general title of "A course of Lectures, containing a description and systematic arrangement of the several branches of Divinity, accompanied with an account both of the principal authors, and of the progress which has been made at different periods, in Theological learning."

They embrace almost every topic of Biblical criticism and interpretation, arranged under the following heads. Part 1. *The Criticism of the Bible.*—Part 2. *The same continued.*—Part 3. *The Interpretation of the Bible.*—Part 4. *The Interpretation of Prophecy.*—Part 5. *The Authenticity of the New Testament.*—Part 6. *The Credibility of the New Testament.*—Part 7. *The Authority of the Old Testament.*

REGIUS PROFESSOR OF DIVINITY.

The electors are, the Vice-Chancellor, the Master and the two senior Fellows of Trinity, the Provost of King's and the Masters of St John's and Christ colleges. If any of the electors of the aforesaid colleges be Vice-Chancellor, the President of Queen's is to supply his place. The candidates must be B.D. or D.D. and the day of examination is the eighth after the vacancy. This Professorship, founded by Henry VIII. 1540, and endowed with the stipend of £40. per annum, has since been augmented by James I. with the rectory of Somersham, Hunts.

Bishop Kaye's Lectures.

In Lent Term, 1821, the present Regius Professor delivered a course of lectures on the writings of the Fathers, the principal object of which was to direct the attention of the theological student to the account given by the Fathers of the doctrines and opinions of the ages in which they lived, with a particular view to the illustration of the Articles of the Church of England. The Professor took the writings of the Fathers in the order in which Lardner has placed them, and concluded with Irenæus. The Professor resumed his lectures in Michaelmas Term, 1822, and concluded with the writings of Clemens Alexandrinus. He has since delivered a course on the writings of Tertullian.

REGIUS PROFESSOR OF CIVIL LAW.

Dr. Geldart's Lectures.

The King's Professor of Civil Law delivers his course of lectures at Trinity Hall, in three successive Terms, beginning at the middle of the Michaelmas Term, and ending at the division of the Midsummer Term. The lectures are read in the combination-room, and the usual hour is from ten to eleven in the morning. The terms of attendance are five guineas for the first course, afterwards *gratis*. By a *senatus-consultum* in 1768, it was enacted, that no person should be admitted to the degree of B.C.L. without producing to the Caput a certificate of his having attended the lectures in Civil Law for three terms. The † plan of these lectures may

be seen in a work, of which the fourth edition was printed at Cambridge in 1795, entitled, *An Analysis of the Roman Civil Law*, in which a comparison is occasionally made between the Roman Laws and those of England, by Samuel Hallifax, late Lord Bishop of St. Asaph, and formerly the King's Professor of Civil Law in this University.

Dr. Geldart upon his appointment instituted an examination in the subjects of his lectures, and all persons who have been candidates for the degree of B.C.L. have been examined previously to the performing of the public exercise in the schools.

The following is the order of the Classes from October 1815, to July 1825.

REGIUS PROFESSOR OF PHYSIC.

This office may be held by the Professor during his natural life. Founded by Henry VIII. 1540. Salary £40. per annum. The appointment by the King.

1700 Chris. Greene, M.D. Caius. | 1793 I. Pennington, M.D. Joh.
1741 R. Plumtre, M.D. Qu. | 1817 J. Haviland, M.D. Joh.

Dr. Haviland's Lectures.

The present Professor has instituted a course of lectures on Pathology, and on the Practice of Physic; the object of which is to prepare and instruct those, who are about to enter on the study of Physic, in the principles of the science: and more particularly to direct their studies to the attainment of a knowledge of the phenomena of disease, and of the means of preventing and controlling it.

The course commences about the division of the Lent term, and continues during the remainder of that and the first half of the Easter term.

The Terms of Attendance are the same as for the Lectures of the Regius Professor of Civil Law.

By a *senatus-consultum* of 1820, it was enacted that no person should be admitted to the degree of M.B. without having first produced to the Caput a certificate, in the hand-writing of the Professor, of a constant attendance on these lectures for two terms.

Dr. Haviland has also established an examination of the candidates for the degree of Bachelor in Physic. Besides the subjects of his lectures, this examination embraces the sciences of Anatomy, Physiology, and Pharmacy.

REGIUS PROFESSOR OF HEBREW.

A candidate must be M.A. B.D. or D.D. The electors are the same as to Divinity. Preference is given (*cæteris paribus*) to Fellows of Trinity College. Founded by Henry VIII. 1540. Salary £10. per annum.

ASTRONOMY AND EXPERIMENTAL PHILOSOPHY.

The candidates may be bachelors, married men, Englishmen (*Nostrates*), or Foreigners. The election is not to be before the thirtieth nor protracted beyond the sixtieth day after the schedule is affixed. The electors are, the Vice-Chancellor, the Masters of Trinity, Christ's and Caius colleges, and the Lucasian Professor. If any of the Masters be Vice-Chancellor, the Master of St. John's acts in his stead. Founded by Dr. Plume, Archdeacon of Rochester, 1704. Salary £250. per annum.

Professor Woodhouse's Lectures.

The object of these lectures is, to use the words of a former illustrious Professor, "the teaching philosophy by courses of experiments." Accordingly, by experiments, the principal truths, or propositions, of mechanics, hydrostatics, optics, astronomy, &c. &c. (which branches of science are the chief subjects of these lectures,) are illustrated, and, in degree, proved. Add to this, what is also in conformity with the above plan, various mechanical, pneumatical, optical, astronomical, &c. machines or instruments are exhibited, and their constructions, modes of operation, and uses explained.

These lectures are given in the first half of the Mid-

Professor Clark's Lectures.

In these lectures the different parts and organs of the human body are described and exhibited, and various specimens are shewn, illustrating their healthy structure, and the alterations produced by disease, with a view to the explanation of the principles of physiology and pathology.

These lectures are intended not only to serve as the basis of a medical education, but also to convey such information as may be interesting to the general student, and useful in the whole conduct of life. They are given between the hours of twelve and one, in the Anatomical Schools, opposite Queen's College.

The terms of attendance are, for the first course three guineas, for the second course two guineas, and afterwards *gratis*.

In addition to a small collection of anatomical preparations which had been presented by Mr. Lawrence, the University has purchased the Museum of the late Professor, Sir B. Harwood; the whole collection, consisting of several hundred preparations, is kept in a room adjoining the Lecture Room, and is appropriated to the use of the Professor of Anatomy for the time being.

MODERN HISTORY.

The Professor is appointed by the King, and holds the Professorship during pleasure. He must be either a Master of Arts, Bachelor in Civil Law, or of a superior degree. Founded by George I. 1721; salary £400. per annum.

GEOLOGY.

This Professorship was founded by Dr. Woodward, in the year 1727. None but unmarried men are eligible to the appointment. On January 32, 1731-2, the four executors of the founder's will appointed Dr. Conyers Middleton the first Professor. After their decease the election was vested in the members of the Senate; in addition to whom the following persons were allowed to give their votes by proxy, viz. the Chancellor of the University, the Archbishop of Canterbury, the Bishop of Ely, the President of the Royal Society, the President of the College of Physicians, and the members for the University. The original collection in the Cambridge Museum con-

sisted exclusively of those specimens described in Dr. Woodward's catalogues, which were printed in 1729. The English fossils, native and extraneous, were bequeathed by him to the University: and by a grace of the Senate, dated Feb. 26, 1728-9, the Vice-Chancellor was empowered to purchase of his heirs, for a sum not exceeding £1000, the foreign fossils described in the above-mentioned catalogues. This purchase was carried into immediate effect. The whole collection is well preserved, and remains nearly in the same order in which the Doctor disposed it. Two graduates of the University are annually appointed to inspect its condition, and their report is delivered on the 1st of May to the Heads of Houses, who form a board of auditors for that purpose.

Unfortunately for the University, this noble monument of the talents and unwearied labours of Dr. Woodward was placed in a room ill fitted for its reception. Nearly a century has passed away, and it is still allowed to remain in a place where a public lecture cannot be given, and where even the specimens which formed the original collection cannot be exhibited to advantage.

Among the native fossils which have had a place in this collection more than one hundred years, the mineralogist will find the Corundum, Apatite, Native Meteoric Iron, and the fossil Copal of Highgate. The extraneous fossils of the same cabinets, also prove that many discoveries of succeeding naturalists have been in like manner anticipated.

Professor Green added some valuable organic remains to the Woodwardian cabinets. But Professor Hailstone, after his appointment, formed another distinct collection; which is now composed of many rare and beautiful simple minerals, and of specimens illustrative of the physical structure both of the British isles and of some portions of the Continent. In this labour he was assisted by the munificence of various friends of the University.

To this part of the collection the present Professor has, by the active assistance of some of his friends, been enabled to make large and important additions. He has also established a course of lectures, in which

it is his endeavour—1st. To explain the structure of the earth, and the mineral characters of some of the older rocks; 2dly. To determine the order of superposition among the newer deposits, more especially in the British isles: and 3dly. To examine those theories by which naturalists have endeavoured to account for the appearance presented by the surface of the earth. Before this part of his task can be effectually performed, it will be necessary to make many large additions to the Geological cabinets. The zealous co-operations of many scientific members of the University gives the Professor confident hopes that these additions will not long be wanting. Should, however, a series of specimens be brought together from the different strata of this island, the present Museum, already crowded to excess, would be absolutely incapable of containing them. Under these circumstances, the members of the Senate are called upon no longer to delay the erection of a Museum, in which the present cabinets may be advantageously exhibited, all future additions systematically arranged, and to which the students of the University may at all times have access. Should such a building be erected, the Professor feels assured that the University would before long be indebted to its members for a collection which would at once contribute to the usefulness and splendor of our establishment.

DIVINITY.

(Mr. Norris's.)

The stewards of this institution are, the Master of Trinity, the Provost of King's and the Master or President of Caius. The candidates for the Professorship give a written notice to the three Stewards within the first fourteen days of November. The Stewards select two, and signify their names to the Heads of Houses on or before the 1st day of February next ensuing, and the election of one of the two nominated must be within the first fourteen days of the succeeding May. The electors must be a majority of ten Heads of Houses. The Professor may have been educated at either University, may be lay or clerical, but cannot be elected under his thirtieth, or re-elected after his sixtieth year. No person can continue in office longer than five years, but may be re-elected.---Founded by John Norris, Esq. 1768. Salary, £100. per annum*.

The Norrisian Professor of Divinity delivers his lectures during the Michaelmas and Lent terms, in the Lecture Room under the front of the Public Library. The Lecture Days are, Monday, Tuesday, and Thursday, and the Lecture Room opens ten minutes before twelve, and closes at ten minutes after, the Lecture concludes at one o'Clock precisely. Students are admitted gratuitously, agreeably to the Founder's directions, for two following terms in which the lectures are given. Those who require the Professor's certificate of attendance, must enter their names in a book, kept at the Lecture Room, immediately after one o'clock on some lecture day in a preceding lecture term; and no certificate will be given except twenty lectures, which are all that are required, are attended in that term for which the name is put down.

By the will of the Founder, the Professor is required to read during each course of fifty lectures, certain portions of Bishop Pearson's Exposition of the Creed. These portions of Bishop Pearson's Work, the present Professor has incorporated with his own course of lectures, a Syllabus of which is published.

* By Mr. Norris's Will, it is ordered, that the holder of this Professorship shall annually, through the hands of the senior Proctor, give to the prisoners, either in the town or county prison, books, to the amount of 18s. The New Testament, or The Great importance of a Religious Life.

NATURAL AND EXPERIMENTAL PHILOSOPHY.

This Professor is to be chosen by those Regent Masters of Arts only who have been resident here for the greater part of the year previous to the day of election (excepting only such Masters of Arts as are under one year's standing, who may vote though they have not been resident for that term); which said Regent Masters, on notice assigned by the Master, Fellows, and Scholars of Trinity college, shall assemble on a day, and choose, within one month after such notice is received, by a majority of votes given in writing under the hand of each voter, and taken by the Proctors, such a person as appears best qualified in Natural and Experimental Philosophy and Chemistry. A member of Trinity college is to be preferred (*ceteris paribus*), next a Staffordshire, Warwickshire, Derbyshire, or Cheshire man. In case of disputes about the majority of the electors, the same is to be determined by the Vice-Chancellor, the Provost of King's, the Master of Trinity, or if either of the two latter be Vice-Chancellor, the Master of St. John's. Founded by the Rev. Richard Jackson, M.A. 1783. Salary £160. per annum.

Professor Farish's Lectures.

The lectures embrace a great variety of subjects. In the original arrangement of them, the Professor conceived that the application of the principles of Natural Philosophy, Natural History, Chemistry, &c. to the arts, manufactures, and agriculture of Britain, presented a new and useful field of instruction:—After having taken an *actual survey* of almost every thing curious in the kingdom on such subjects, he contrived a mode of exhibiting the operations and processes that

are in use in nearly all of them. Having provided himself with a number of brass wheels of all forms and sizes, such that any two of them can work with each other; and also with a variety of axles, bars, screws, clamps, &c. he constructs at pleasure, with the addition of the peculiar parts, working models of almost every kind of machine. These he puts in motion by a water wheel or a steam-engine, in such a way, as to make them in general do the actual work of the real machines, on a small scale; and he explains at the same time, the chemical and philosophical principles, on which the various processes of the arts exhibited depend.

In the course of his lectures he explains the natural history of minerals, the theory and practice of mining, and of smelting metallic ores---of bringing them to nature---of converting, purifying, compounding, and separating the metals, and the numerous and various manufactures which depend upon them, as well as the arts which are more remotely connected with them, such as etching and engraving. He exhibits the method of obtaining coal and other minerals---the processes by which sulphur, alum, common salt, acids, alkalies, nitre, and other chemical substances, are obtained, and in which they are used---the mechanical process in the formation of gunpowder, as well as its theory and effects. He treats on the agriculture of the country, and shews the arts of procuring and working animal and vegetable substances; the great staple manufactures of the country, in wool, cotton, linen, silk, together with the various chemical arts of bleaching, of preparing cloth, of printing it, of using adjective and substantive colours, and mordants and intermediates in dying, and the processes by which various products are obtained from vegetable and animal substances. He explains in general the nature of machinery---the moving powers, such as water-wheels, wind-mills, and particularly the *agency* of steam, which is the *great* cause of the modern improvement and extension of manufactures. He treats likewise on subjects which relate to the carrying on, or facilitating the commerce of the country, such as inland navigation, the construction of bridges, aqueducts, locks, inclined planes, and other contrivances, by which vessels are raised or

lowered from one level to another---of ships, docks, harbours, and naval architecture. On the whole, it is the great design of these lectures to excite the attention of persons already acquainted with the principles of mathematics, philosophy, natural history, and chemistry, to the advancement of useful arts, and by drawing their minds to the consideration of the most important discoveries of ingenious men, in all parts of the kingdom, to enlarge their sphere of amusement and instruction, and to promote the improvement and progress of the arts.

These lectures are given in the Schools in the Botanic Garden. The terms of attendance are, three guineas for the first course, two guineas for the second, afterwards *gratis*.

DOWNING PROFESSOR OF THE LAWS OF ENGLAND.

The Professor is elected by the Archbishops of Canterbury and York, and the Masters of St. John's and Clare Hall. Founded by Sir George Downing, Bart. K.B., 1800. Salary £200. per annum.

The Downing Professor of the Laws of England reads every year, after the division of the Michaelmas or Lent Terms, a course of lectures, upon the constitution and laws of England.

Two gentlemen of any description, recommended by the Master or Tutors of each college, and all who have attended two courses, are admitted *gratis*.

DOMESTIC MEDICINE.

The foundation, election, and salary, the same as the preceding.

The Downing Professor of Medicine gives a course of elementary lectures on the theory and practice of Physic, every year in the Lent term, on the usual terms of public attendance.

MINERALOGY.

This Professorship was founded by the University in the year 1808, and afterwards endowed by Government with a salary of £100. per annum.

Lectures had been given by Dr. Clarke for two years prior to the establishment of the Professorship, and specimens exhibited which had been collected during his travels. His principal object was to call the attention of the University to the importance of mineralogical studies, to illustrate the natural history of the materials used by architects, sculptors, and lapidaries, both ancient and modern; the mineralogy of the sacred Scriptures, and of the ancient poets and historians; and, finally, to suggest the means of pursuing this branch of knowledge without the expence and incumbrance which have usually been its attendants.

After the death of Dr. Clarke, the Senate decreed that the Professorship should be continued, and the sum of £1500. was given for the Collection of Minerals which he had formed.

LADY MARGARET's PREACHER.

This preachership, value £10. per annum, was founded in 1503, and, according to the grant, is to be retained for only three years, but that practice is now dispensed with, and the preacher continues without a fresh election. When a vacancy does occur, an election must take place within fourteen days. The electors are the Vice-Chancellor, and the Heads of Houses. The preacher is now required by his office, to preach a Concio ad Clerum, before the University, the day preceding Easter term.

The following seventeen Algebra Lectureships were founded by Lady Sadler, and the lectures commenced in 1710. The Lecturers, who are required to be Bachelors of Arts at least, are appointed and chosen by the Heads, who are the Trustees, and by the Vice-Chancellor for the time being, from all the colleges.—The stipend of the Lecturers is £30. per annum each, Em-

manuel excepted, which is £45. Every Lecturer produces a certificate, signed by the Master of his college, testifying that the lectures have been by him regularly given, before payment of the salary, which is half-yearly, at Emmanuel Lodge. The Lectureships are tenable only for ten years, and no one can at any time be elected, unless previously examined and approved by the Mathematical Professor.

MR. HULSE'S FOUNDATIONS.

The Rev. John Hulse was educated at St. John's college, Cambridge, became Bachelor of Arts in 1728, and died in 1789, bequeathing his estates in Cheshire to this University, for the advancement and reward of religious learning. The various purposes to which he appropriated the revenue of these estates, are—first, the maintenance of two scholars at St John's college ---secondly, to recompense the exertions of the Hulsean Prizeman---thirdly, to found and support the office of Christian Advocate---and fourthly, that of the Hulsean Lecturer, or Christian Preacher. The salaries of these offices vary according to the annual rent of Mr. Hulse's estates, different proportions of which are set apart for each, the largest belonging to the Lecturer. After the death of the principal legatee, the emolument will be considerable.

The trustees and electors of Mr. Hulse's bequest are, the Vice-Chancellor for the time being, the Master of Trinity college, and the Master of St. John's college. If the Master of Trinity be Vice-Chancellor, the Greek Professor supplies his place. The Bishop of Ely is visitor, with power to determine in reason and equity, in all disputes.

CHRISTIAN ADVOCATE.

Extract from the Will, dated July 21, 1777.

The person to be elected into such office (on Christmas Day, or within seven days after, for a term not exceeding five or six years) to be a learned and ingenious person of the degree of Master of Arts, or of Bachelor or Doctor of Divinity, of the age of 30 years, and resident in the University; who is to compose yealy, whilst in office, some proper and judicious answer or answers every year, to all such new and popular, or rather cavils and objections, against the Christian or revealed religion, or against the religion of nature, as may, in the opinion of the trustees, or any two of them, seem best or most proper to deserve or require an answer, whether the same be ancient or modern objections, but chiefly such as are most modern, and especially such as have appeared in the English language of late years against Christianity, and which may not seem to have received a full and sufficient answer, if any such there shall be unto the year preceding his election; as likewise to be ready to satisfy any real scruples or objections in a private way, that may be brought from time to time by any fair and candid enquirer against the same: such writer to be called the Christian Advocate, and such his written answers to be in English, and only against notorious infidels, whether atheists or deists, not descending to any particular controversies or sects amongst Christians themselves, except some new or dangerous error, either of superstition or enthusiasm, as of popery or methodism, either in opinion or practice, shall prevail; in which case only it may be necessary for that time to write or to reason against the same; and such treatise or treatises to be every year printed, the expence whereof shall be deducted out of the temporary stipend or salary; and the remainder of the said stipend or salary, or rents and profits, shall be paid or given every year to the several authors successively as a reward for the same; but if the person chosen into the said office shall neglect or not discharge his office as he ought to do, he is to forfeit

and lose his salary for that year, which is, in such case, to be equally divided between the six senior Fellows of St. John's college.

HULSEAN LECTURER OR CHRISTIAN PREACHER.

Salary, at present, about £170. per annum.

The election to this office is to take place on Christmas Day, or within eight days after. The persons eligible are, Masters of Arts of the University of Cambridge, under forty years of age. The office is only annual, but the same individual may, under certain circumstances, be re-elected for any successive number of years, not exceeding six. The duty of the Lecturer is to preach and *print* twenty sermons in each year, ten in April, May, and the former part of June, and ten in September, October, and the former part of November. The subject of the discourses is--to shew the evidence for revealed religion, or to explain some of the most difficult texts or obscure parts of Holy Scripture,---or both. The time and place of delivery are to be in Great St. Mary's church, and either on the Friday mornings or the Sunday afternoons of each week in the above-mentioned period; and if the duties be not discharged by the person appointed, his salary is divided amongst the six Senior Fellows of St. John's college*. The Preacher is not afterwards eligible to the office of Christian Advocate.

Various circumstances prevented any appointment taking place, until the year 1820, when the first election was made.

LECTURES ON POLITICAL ECONOMY.

The lectures on this science were commenced in 1816, with the concurrence of the Vice-Chancellor, by George Pryme, Esq. M.A. late Fellow of Trinity college.

They attempt to analyse the original and efficient causes of national prosperity---to shew by what measures of the legislature, and by what conduct of individuals in private life, it is augmented or diminished---and to assist the reader of history, in explaining the phenomena of the strength or weakness, the rise or fall, of states.

They are of an elementary and popular nature, requiring no previous knowledge of the subject. They are intended to facilitate the study of a science, hitherto inaccessible without the most arduous perseverance; to simplify the order, explain the obscurities, and point out the errors of A. Smith's Inquiry into the Wealth of Nations; to combine with his discoveries what the experience of subsequent events, and the researches of subsequent authors, have taught, and to place some part of the subject in a point of view different from what any writer has done. Their plan is---1st. To trace the history of national wealth from the rudest to the richest state of society, and to examine each change as it naturally arises in the progress of opulence and civilization; 2dly. Briefly to explain the systems of the ancients, of Dr. Paley, of the French economists, and what is called the commercial system; and 3dly. To explain the principles of taxation and finance.

They are given every Monday, Tuesday, Thursday, and Saturday, at 12 o'clock, during the Lent and Easter terms, on the usual plan of attendance on public lectures.

The Bachelors are required to visit foreign countries, to take different routes, and to write during their travels two Latin letters each, descriptive of the customs, curiosities, &c. &c.; which letters, as soon as received by the Vice-Chancellor, are laid before the Senate, and afterwards deposited in the Public Library.

The income of these travellers is continued for the space of three years, the period they are obliged to be absent.

ANNUAL PRIZES.

Classical.

CHANCELLOR'S MEDALLISTS.

Two gold medals, value 15 guineas each, are given annually by the Chancellor of the University, to two commencing * Bachelors of Arts, who, having obtained Senior Optimes at least, acquit themselves the best in classical learning. The successful candidates declaim on the second Tripos Day, upon a subject appointed by the Vice-Chancellor. These prizes were established in 1751, by his Grace Thomas Holles, Duke of Newcastle, and have been continued by the succeeding Chancellors. H. R. H. the Duke of Gloucester, the present Chancellor, has given a third gold medal, to be conferred annually upon a resident undergraduate, who shall compose in English, the best ode or best poem in heroic verse. The subject is given out on the 22d of November, and the exercises are to be delivered to the Vice-Chancellor on or before the 31st of March following. Each candidate is to send his exercise privately, and without his name, and not written in his own hand, but revised and pointed by himself, with some Latin verse written upon it; and he is at the same time to send his own name in a paper folded up and sealed, with the same Latin verse on the outside. The papers containing the names of those persons who do not succeed, are destroyed unopened. The successful candidate recites his Poem in the Senate-House on Commencement-day.—The examiners appointed by his

* No one is a complete Bachelor till after the second Tripos Day.

Royal Highness to determine all these prizes are, the Vice-Chancellor, the Provost of King's, the Masters of Trinity, St. John's, Peterhouse, Clare Hall, and Christ's, the senior resident Fellow of Trinity who has gained a medal*, the Public Orator, the Greek Professor, and the Professor of Modern History.

MEMBERS' PRIZE-MEN.

The Representatives in Parliament of this University give four annual prizes of fifteen guineas each, which are adjudged by the Vice-Chancellor and Heads of col-

leges, to two senior and two middle Bachelors of Arts, who shall compose the best Dissertations in Latin prose, which are read publicly by them in the Senate-House on a day appointed near to the Commencement, and afterwards sent by them to the aforesaid Members. The subjects are delivered out in February, and each candidate is to send his exercise privately, without his name, and (if he chooses) transcribed by another person, but revised and pointed by himself, to the Vice-Chancellor, on or previous to the 31st of May, with some Latin verse written upon it; and he is at the same time to send a paper sealed up, with the same Latin verse on the outside, which paper shall inclose another paper, folded up, with the candidate's name written within. The papers containing the names of those candidates who do not succeed, are destroyed unopened. These prizes were established by the Hon. Edward Finch and the Hon. Thomas Townshend, and have been continued by the succeeding Members.

SIR WM. BROWNE'S MEDALLISTS.

Sir William Browne, Knt., M.D. directed three gold medals, value five guineas each, to be given yearly to three undergraduates on the Commencement day, when the exercises are publicly read, and copies of them sent by the successful candidates to Sir W. J. B. Folkes. The first to him who writes the best Greek Ode in imitation of Sappho; the second for the best Latin Ode in imitation of Horace; the third for the best Greek and Latin Epigrams; the former after the manner of the Anthologia, the latter after the model of Martial. The subjects (delivered out usually in January) are appointed by the Vice-Chancellor, the sole adjudicator of these prizes. The exercises must be sent in on or before the 31st of May, in the same manner as the exercises for the Members' prizes.

PORSON PRIZE.

The Rev. Charles Burney, D.D. and the Rev. John Cleaver Banks, M.A. only surviving trustees of a fund raised by the friends of the late Professor Porson, and appropriated to his use during his life time, after various dispositions of part of the said fund, did, by deed, bearing date the 27th November, 1816, transfer to the University the sum of £400. Navy 5 per cents. upon trust, that the interest arising therefrom shall be annually employed in the purchase of one or more Greek books, to be given to an undergraduate yearly, at the Commencement, as a prize for Greek Verses, by the name of the Porson University Prize.

The Verses to be a translation of a passage or passages in some play of Shakspeare, Ben Jonson, Massinger, or Beaumont and Fletcher, selected by the Vice-Chancellor or his deputy, and announced or published a reasonable time before the Commencement. The metre of the translation, if the selection be from a

tragedy, shall be *Tragicum Iambicum Trimetrum Acatalecticum*, or *Tragicum Trochaicum Tetrametrum Catalecticum*; if the selection be from a comedy, the metre of the translation shall be *Comicum Iambicum Trimeterum Acatalecticum*, or *Comicum Trochaicum Catalecticum*. The plan adopted in the case of Sir William Browne's Prizes to be followed as far as relates to ascertaining the author of the prize, without disclosure of the names of the other candidates. The exercises must be distinctly written and accentuated, and accompanied by a literal Latin prose version of the Greek. The examiners appointed are, the Vice-Chancellor or his deputy, the Provost of King's, the Masters of Trinity, St. John's, Christ's, and Caius colleges, the Greek Professor, and the Public Orator; the Vice-Chancellor, or his deputy, to have a casting vote if necessary. The prize translation is to be printed at the expence of the author, and copies to be given to the Vice-Chancellor and Heads of Houses, previous to the Commencement, at which time it is to be recited in the Senate-House. And if in any year there be no translation worthy of the prize, the book or books provided for that year shall be reserved and given to the candidate who shall be considered second best in the subsequent year, and so from time to time the book or books provided in any year, and not given in that year as a prize, shall be reserved till the examiners shall adjudge the same to be given in some subsequent year to a candidate whose translation is second best, or third best to the prize translation, but worthy to be rewarded, and then shall be disposed of accordingly; provided also that they be printed and recited as in the case of the prize translation. All the prize translations, and every such second best or third best translations, shall be transcribed in a book to be kept by the Vice-Chancellor.

THEOLOGICAL.

NORRISIAN PRIZE-MEN.

John Norris, Esq. of Witton, in Norfolk, by his will bequeathed a premium of £12. per annum, £7. 4. 0. of which is to be expended upon a gold medal, the residue in books, to the author of the best prose Essay on a sacred subject, which is to be proposed by the Norrisian Professor. The qualifications for a candidate are--1st. That he be above twenty years of age and under thirty.—2d. That he must have attended twenty of the Norrisian Lectures in the course of some one year.

The subject is delivered out early in November, and the Essay must be sent either to the Master of Trinity, the Master of Caius, or the Provost of King's college, on or before the tenth day preceding Palm Sunday. A sheet of paper, folded up like a letter, with the name of the candidate inclosed, and sealed, must be sent with the Essay. Also a Greek or Latin motto must be inscribed on the Essay, and the same on the sheet inclosing the name. The three above-mentioned persons compare and decide which is the best Essay, and are directed by its motto to the letter which contains the name of the successful candidate, to whom the event is communicated on the Thursday in Passion week. The prize he receives within 14 days, giving at the same time a promissory note for the payment of £12. if he neglects publishing the Essay within two calendar months. The rest of the sealed papers are burnt unopened.

No doctrine must be advanced in the Essay contrary to the Liturgy, Articles, and Homilies of the Church of England.

HULSE'S PRIZE-MEN.

The Rev. John Hulse, B.A., of St. John's college, bequeathed to the University certain estates for the advancement of religious learning, and directed in his will that out of the rents and profits, an annual premium of £40. should be given to any member of this University, under the degree or standing of M.A. who composed the best Dissertation in the English language, on the evidences in general, or on the prophecies or miracles in particular, or on any other particular argument, whether the same be direct or collateral proofs of the Christian religion, in order to evince its truth and excellence.

The subject is delivered out on Christmas-day, or New Year's-day, and the Dissertations are to be sent to the Vice-Chancellor, or the Masters of Trinity and St. John's, who are the trustees, on or before the 1st of the ensuing November, with the names of the respective authors sealed up.

The writer of the Dissertation best approved is to print it at his own expence, and not to offer himself a second time as candidate for the premium.

SEATONIAN PRIZE.

The Rev. Thomas Seaton, M.A. late Fellow of Clare Hall, bequeathed to the University the rents of his Kislingbury estate, now producing clear £40. per annum, to be given yearly to that Master of Arts who shall write the best English Poem on a sacred subject. The Vice-Chancellor, the Master of Clare Hall, and the Greek Professor (who are the disposers of this premium) determine the subject, which is delivered out in January, and the poem is to be sent to the Vice-Chancellor on or before the 29th of September following. The Poem is to be printed, and the expence deducted out of the product of the estate; the remainder is given as a reward to the composer. The prize is determined a few days previous to the resignation of the Vice-Chancellor's office.

University Scholarships.

CRAVEN's SCHOLARS.

John, Lord Craven, founded two Classical Scholarships of £25. per annum each, arising from estates vested in the hands of six trustees. The Cambridge trustees are, the Bishop of Peterborough, the Bishop of Bath and Wells, and the Master of Trinity college. Electors, the Vice-Chancellor, the five Regius Professors, and the Public Orator. Whenever a vacancy occurs, any undergraduate may offer himself as a candidate, by signifying his intention in a Latin letter addressed to the above electors, within the time limited by the Programma which declares the vacancy. If any one of the name or kindred of the founder should be in indigent circumstances, and a scholar of this University, he, (by the will) is to be preferred. This annuity cannot be enjoyed after fourteen years standing in the University, nor by any one who may attain to preferment of double its value. The possessors are not allowed to be absent from the University above three months in the year, without the express permission of the Vice-Chancellor, or the major part of the electors then resident in the University.

These rules have been modified in part by the regulations enacted in 1817; which will be found at the end of this list of University Scholarships.

By a late decree of the Court of Chancery, the income of the scholars has been augmented to £50. per

annum each, and three additional Scholarships founded, under the same regulations as the preceding, except that they cannot be held for more than seven years.

BATTIE'S SCHOLARS.

William Battie, M.D. Fellow of King's college, left an estate, present value £18. per annum, on a plan similar to the preceding, but subject to the following conditions :
 ---1st. Every Scholar shall reside nine calendar months in the year, except he be a graduate in Physic, or one who designs to profess the same ; in that case his residence may be dispensed with at the University, pro-

vided he produces once every year a certificate signed by one Hospital Physician in London, testifying his regular conduct and diligent attendance with the said Physician at the Hospital. 2d. No Scholar is capable of being elected who has been admitted three years, or receives any benefit or advantage from either of Lord Craven's exhibitions; and if any one, after being admitted to this Scholarship, shall become entitled to any emoluments from the said exhibitions, his claim to this benefaction is void. 3d. When any Scholar shall have entered nine years at the college to which he first belonged, or shall have obtained any ecclesiastical benefice or preferment, excepting he is a Fellow of some one college, his right to this legacy shall then cease and determine. The electors to this Scholarship are, the Vice-Chancellor, the Provost of King's, the Regius Professors of Law, Physic, and Divinity, and the Proctors for the time being.

BROWNE's SCHOLARS.

Sir William Browne, Knt. M.D. left a perpetual rent charge of £21. per annum, upon sundry estates, for founding a Scholarship, to be paid clear of taxes and disbursements, to the Chancellor, Masters, and Scholars of the University. A candidate for this Scholarship must offer himself for examination within a year from his matriculation; public notice being given by the Vice-Chancellor a month before such election. The Scholarship, with all the arrears which may happen by vacancy, is tenable for seven years; but the possessor, if of another college, is obliged to remove to Peterhouse, and reside there every entire term during his undergraduateship. BELL's SCHOLARSHIPS.

The Rev. William Bell, D.D. Prebendary of the collegiate church of Westminster, and late of Magdalene college in this University, in the year 1810, transferred £15,200. stock, 3 per cents. to the University of Cambridge, in trust, to found eight new Scholarships, for the sons of clergymen of the Church of England. On the receipt of this benefaction, Scholars were elected in such a manner and for such a period that two Scholarships will become vacant every year.

The regulations of these Scholarships are, that every Scholar elected on this foundation shall promise in writing to take the degree of B.A. in the most regular way. Where personal merits are equal, those are to be preferred who stand most in need of assistance. If any Scholar shall degrade or determine, and go out in a bye-term, or declare for law, or be rusticated or expelled, his Scholarship shall be *ipso facto* vacant. The profits to continue for four years, and no more. No per-

sons shall ever have two sons Scholars, nor shall there be two orphans, brothers, Scholars at the same time. If no sons or orphans of clergymen shall be found properly qualified for these Scholarships, then, and then only, the electors shall elect sons of laymen, being undergraduates, who stand in need of assistance. No Scholar to be elected from King's college or from Trinity Hall.

The electors are, the Vice-Chancellor, the Regius Professor of Divinity, the Regius Professor of Civil Law, the Lucasian Professor of Mathematics, and the Public Orator.

PITT SCHOLARSHIP.

Rules for the foundation of the Pitt Scholarship, and for the Election of a Scholar, as proposed by the Syndics appointed by the University for that purpose, and confirmed by the Senate, Dec. 9, 1813.

1.—The sum of £1000. given by the subscribers to Mr. Pitt's Statue, for the purpose of founding the Pitt Scholarship, and which has since been augmented by a donation of £500. from the Pitt Club in London, shall be placed in the public funds, until the Syndics shall be able to vest it in land; and the clear annual income arising from it shall be paid to the Pitt Scholar.

2.—The Vice-Chancellor or his deputy, the Public

Orator, or the Greek Professor, and two members of the Senate, to be appointed by the different colleges in their turn, shall be the electors. Two colleges, according to the cycle of Proctors commencing with the year 1817, shall respectively nominate an elector. But if the Vice-Chancellor, the Public Orator, and the Greek Professor, or any two of them, be members of the same college, no elector in that case shall be appointed by that college according to the cycle of Proctors, but the appointment shall be made by the University. Or if the Public Orator or the Greek Professor shall be prevented by illness or otherwise from attending the examination, or if the colleges shall have neglected to signify to the Vice-Chancellor the appointment of the electors according to their respective turns, then deputies shall be appointed by grace.

3.—The first examination commenced on Monday, January 17, 1814; and the Vice-Chancellor or his deputy, the Public Orator, and the Greek Professor, shall, in future, on or before the 1st day of December after every vacancy, cause a writing, under their hands, declaring the said vacancy and the time of examination, to be affixed to the door of the Public Schools; and they shall notify the same to the two colleges which are to nominate the electors, and the Heads of those colleges, or their deputies, shall, within one week after such notices, signify to the Vice-Chancellor the names of the electors so appointed.

4.—The examination, which shall be solely classical, shall always take place during the week of the public examinations in the Senate-House previous to the Bachelors' Commencement, and the Scholar elected shall receive all the dividends or rents that shall have become due subsequent to the last vacancy.

5.—Any undergraduate, of whatever rank, may be a candidate for the Pitt Scholarship, provided he be not of more than three years standing from the time of his first residence; but he shall, on or before the 31st day of December preceding the examination, signify, in a Latin epistle to each of the electors, his intention of becoming a candidate, and in case he shall omit sending such an epistle, he shall be considered as incapable of being elected at that time.

6.---The Pitt Scholar shall not hold any other University Scholarship.

7.---Every Scholar shall, during the time of his holding this Scholarship, reside the major part of each term; and if he shall not have kept such residence, he shall vacate his Scholarship, unless he has been prevented by illness or any other cause which shall be approved of by the Vice-Chancellor, the Public Orator, and the Greek Professor.

8.---Every Scholar who shall obtain any ecclesiastical benefice or preferment, or shall be of Master of Arts standing, shall vacate his Scholarship.

TYRWHITT'S HEBREW SCHOLARSHIPS.

The Rev. Robert Tyrwhitt, M.A. late Fellow of Jesus College, who died in 1817, by his will bequeathed £4000. Navy 5 per cents. for the promotion and encouragement of Hebrew learning, the mode and disposition of this bequest to be left to the University.

Decree of the Senate, 1818.

1.---That three Scholarships shall be founded, to be called Tyrwhitt's Hebrew Scholarships.

2.---That the candidates for these Scholarships shall be Bachelors of Arts, who are not of sufficient standing to be created Masters of Arts, and Students in Civil Law or Medicine of not less than four, or more than seven years standing, who shall be required, before they are admitted to become candidates, to produce certificates from their respective Professors, that they have kept the exercises necessary for the degree of Bachelors of Law or Physic.

3.---That four-fifths of the clear annual proceeds of the bequest shall be equally divided among the three Scholars.

4.---That the remaining fifth shall form a fund, to be employed from time to time, by the electors, in such manner as they shall deem most conducive to the promotion of Hebrew learning.

5.---That the electors to these Scholarships shall be the Vice-Chancellor, the Regius Professor of Hebrew, the Professor of Arabic, and two members of the Senate, to be nominated by the different colleges, according to the cycle of Proctors.

6.---That if the Regius Professor of Hebrew, or the Professor of Arabic, or both of them, shall decline or be prevented from examining, a deputy or deputies shall be appointed by grace of the Senate; excepting when the Lord Almoner's Reader in Arabic does not hold either of the above Professorships; in which case he shall be the deputy, if only one is required, or one of the deputies, if two are required.

7.---That if it shall happen at any time, that two of the offices severally constituting electors are united in one and the same person, the deputy for the elector in respect of one of the said offices shall, according to the circumstances stated in the foregoing resolution, be either the Lord Almoner's Reader in Arabic, or be appointed by grace of the Senate; and if in any case the Lord Almoner's Reader in Arabic shall decline the office of deputy examiner, or shall be prevented from undertaking the said office, a deputy examiner shall be appointed in his place by grace of the Senate.

8.---That if the Vice-Chancellor, the Regius Professor of Hebrew, the Professor of Arabic, or any two of them shall be members of the same college, no elector shall in that case be appointed by that college according to the cycle of Proctors; but the appointment shall be made by grace of the Senate.

9.---That the examination shall be primarily in the Hebrew Scriptures of the Old Testament; secondarily, in such other Hebrew works and in such exercises, as the examiners shall judge most likely to assist and advance the knowledge of the Sacred Writings.

10.---That the first Scholar shall be elected in 1819; and the examinations shall in that and every subsequent year, commence on the first Wednesday after the first of May.

11.---That a second Scholar shall be elected in 1820, and a third in 1821.

12.---That the Scholarship of the first elected Scholar shall be deemed vacant on May 1, 1822; of the second

on May 1, 1823; and so on; so that a Scholarship shall become vacant every year, and each Scholar shall hold his Scholarship for the space of three years, to be reckoned from the first of May preceding his election.

13.—That should any Scholar vacate his Scholarship by death, or resignation, or other cause, the electors shall, as soon as conveniently may be, elect another Scholar in his place, who shall enjoy the profits of his Scholarship so long as the vacating Scholar would have enjoyed them; but if the vacating Scholar shall have held his Scholarship for more than two years, the profits of the remaining year shall go to him or to his legal representative, and the examination of candidates to fill the vacancy shall not commence before the usual time.

14.—That the first and second-elected Scholars shall not during the first and second year receive a larger proportion of the proceeds of the bequest than they would have received on the supposition that all the Scholarships were then filled; and that in the mean time the unappropriated surplus of the four-fifths of the proceeds be invested, as it arises, in the same stock in which the benefaction now stands; to be applied to the general purposes of the bequest.

15.—That the accounts of this bequest shall be kept distinct from the general accounts of the University, and shall be annually audited by the electors at the election of the Scholars; and being so audited shall be laid on the Registrary's table in the Senate House, at the next congregation; for the inspection of the Senate.

16.—That these resolutions shall be in force for six years commencing from June 1, 1819; when they shall be again submitted to the Senate for revision and alteration, if necessary.

RESOLUTIONS OF THE SYNDICATE

RESPECTING

THE UNIVERSITY SCHOLARSHIPS.

[Confirmed by a Grace of the Senate.]

It appears clearly desirable to produce a regularity in the vacancies of the University Scholarships, and in the elections, so that one of the five may be vacant in each year, and not more; also that the elections may be about the same period in each year.

On examining the constitutions of the Craven, Battie, Davies, and Pitt Scholarships, it appears that the only one over which the University cannot assume a control with regard to the vacancies and elections, is the Battie's Scholarship.

The Pitt Scholarship having been recently fixed by a Syndicate appointed for that purpose, the most proper plan appears to be, to assimilate the new regulations for the Craven and Davies's Scholarships, to those adopted for the Pitt Scholarship.

NEW REGULATIONS.

On the last Saturday in November in every year, there shall be a meeting at the Vice-Chancellor's of the electors to the Craven's and Davies's Scholarships, and of the *permanent* electors to the Pitt Scholarship, to consider whether any one and which of those Scholarships shall be then declared vacant; and the examination for such vacant Scholarship shall commence in the last week of January following.

At this meeting, of the Scholarships which shall have become *voidable* by non-residence, that shall be declared *vacant* which has been held for the longest time; provided that no one Scholarship shall have become *necessarily* void before the day of this meeting, in which case no other shall be declared vacant for that year.

When it is decided at this meeting which of the Scholarships is to be declared vacant; the rules pointed out by the founder for notice, examination, and election (where any such rules are particularly prescribed by the founder) will be pursued, so as to bring on the exami-

nation in the last week of January. Where no such regulations have been prescribed by the founder, the notice of the vacancy is to be affixed to the door of the Public Schools, on or before the 1st of December; and the candidates are to deliver their Latin epistles to each of the examiners, on or before the 31st of December, as in the case of the Pitt Scholarship; and all prior regulations made by the University, inconsistent with these, are hereby repealed.

With respect to non-residence, it is to be understood that the holders of the Craven, Davies, and Pitt Scholarships shall, generally speaking, have such leave of absence, as will enable them to retain their Scholarships until the holder becomes senior Scholar, according to the above regulations.

But in case of any instance of non-residence in the University, for one whole term, before the Bachelor's degree, the electors, at their meeting, shall have the power of declaring vacant the Scholarship of the person so non-resident in preference to that of the senior Scholar: if it appear to them that such non-residence is without sufficient excuse.

UNIVERSITY AND COLLEGE PRIZES.

The prizes for the encouragement of literature, free and open competition for the whole University, amount to near £1200.; three-fourths of which are given for classics and English composition, the remainder for mathematics.

The amount of the annual prizes in the different colleges is more than £300. two-thirds of which are given for the encouragement of classical literature.

WHITEHALL PREACHERS.

The Whitehall Preacherships were established by George I. in the year 1724. The preachers are 24 in number, twelve from each University. They must be Fellows of colleges during the whole time they hold the office to which they are appointed by the Bishop of London, as Dean of his Majesty's Chapel.—The figures after the name shew whether the turn is in the first or second part of the month.

PATRONAGE,

IN THE GIFT OF THE UNIVERSITY.

When a benefice becomes vacant, the senior Proctor declares the vacancy, and a candidate is chosen by the Senate. In regard to the vicarage of Burwell, the University, within four months after a vacancy, names two candidates, and the earl of Guilford presents one of them to the Bishop of Norwich.

By an Act of Parliament passed in the 3rd year of James I. (cap. 5. § 20.) it is enacted, "That the Chancellor and Scholars of the University of Cambridge, shall have the presentation, nomination, collation and donation, of and to every benefice, prebend, or ecclesiastical living, school, hospital, and donative, belonging to any popish recusant convict," in the following 27 Counties of England and Wales, viz.

Bedfordshire	Lancashire	Westmoreland
Cambridgeshire	Leicestershire	Yorkshire
Cheshire	Lincolnshire	Anglesey
Cumberland	Norfolk	Caernarvonshire
Derbyshire	Northumberland	Denbighshire
Durham	Nottinghamshire	Flintshire
Essex	Rutlandshire	Glamorganshire
Hertfordshire	Shropshire	Merionethshire
Huntingdonshire	Suffolk	Radnorshire

This privilege has been further confirmed by

Stat. 2. Cap. 14. and 11 George II. Cap. 17. §. 5.

EXHIBITIONS,

IN THE GIFT OF THE COMPANIES IN LONDON.

For Students in this University.

BOWYERS', three, £10. per annum each, requiring residence according to the Statutes of the University, tenable for seven years, but vacated earlier on receiving any preferment.

CARPENTERS', one, £4. per annum, not confined to any college.

CLOTHWORKERS', one or two, £10. per annum each, tenable till M.A.

CORDWAINERS', two or three, £10. per annum each, tenable till M.A.

FISHMONGERS', ten, £10. per ann. each, for either University, and tenable till M.A. They have also one of £6. or £8. per annum, and confined to Sidney college.

GOLDSMITHS', one, £5. per ann. tenable seven years.

GROCERS', four or five, £5. per ann. each, tenable till B.A.

IRONMONGERS', four or five, £5. per annum each, tenable till B.A. There is also one in the gift of this company, tenable as the preceding, and confined to Corpus Christi college.

LEATHER-SELLERS', five, four of £4. and one of £5. per ann. for either University, tenable four years.

MERCERS', twelve, £12. per ann. each, and tenable till M.A. Six to each University.

SKINNERS', two of £15. per ann. and one of £5. per annum, tenable till M.A.; also two of £15. per annum to each University. This company has also six exhibitions, value £10. each, for scholars from Tunbridge school.

Independent of the before-mentioned, some other commercial bodies have exhibitions in their disposal. The parish of St. Sepulchre has two exhibitions for either University, one of £5. the other of £4. per ann. each, and tenable for five years. These exhibitions are in the gift of the vestry, and preference is given to a parishioner.

Respecting the Fishmongers' Company, as before stated, each member of the Court of Assistants in his turn nominates a candidate, whom all the others elect. All the other exhibitions are disposed of by the Court of Assistants of the respective companies; those six excepted which are in the gift of the Mercers', and confined to Cambridge; of them the whole Livery has the disposal.

TRIPOSES,

OR,

Lists of those who have obtained Honors on commencing Bachelors of Arts; with the names of the Moderators of the respective years.

On the Tripos papers originally published, the names of the Honors, till the year 1755, seldom appeared; and in the Registry's book, where all degrees, in the order of seniority, are inserted, no mark of distinction was ever observed, previous to that time, between the Wranglers and Senior Optimes.—As it was formerly the custom for the Vice-Chancellor and Proctors to confer Honorary Senior Optimes, a mark of distinction not then unfrequently conferred upon Wranglers, the regular order of previous years cannot be precisely ascertained, especially as these Honorary degrees were placed *ad libitum*. The years 1752 and 1753 are copies from the Registry's book of Entry. The year 1754

was arranged according to a wrangling paper. The custom of conferring Honorary Senior Optimes has of late years been abolished.

The Chancellor's Medals were first instituted in 1752; (A) denotes senior, (B) junior.

Dr. Smith's Mathematical Prizes were founded in 1769; (1) denotes senior, (2) junior.

TERMS AND EXERCISES

Required by the Statutes for the several Degrees.

A Bachelor of Arts* must reside the greater part of twelve several terms, the first and last excepted. The statutable exercises before admission *ad Respondendum Quæstioni*, are two acts and two opponencies; these in part, are sometimes dispensed with, and kept by what is termed huddling. In order to take this degree at the regular time, the person's name must be entered on the boards before the end of Easter term.

A Master of Arts must be B.A. of three years' standing, which time is reckoned from the second Tripos day following his admission *ad Respondendum Quæstioni*.

A Bachelor in Divinity must be M.A. of seven years' standing. His exercise is one act, (after the 4th year), two opponencies, a clerum, and an English sermon.

A Bachelor in Divinity (Ten year man.) These are allowed by the 9th statute of Queen Elizabeth, which permits persons who are admitted of any college, being 21 years of age and upwards, to take the degree of B.D. at the end of 10 years. During the last two years they must reside the greater part of three several terms. —Exercises the same as required for other Bachelors in Divinity.

A Doctor in Divinity must be a Bachelor in Divinity of five, or a † Master of Arts of twelve years' standing. The exercises are one act, two opponencies, a clerum, and an English sermon.

A Bachelor in Civil Law must be of six years' standing complete, and must keep the greater part of nine several terms. The exercise is one act.

A Doctor in Civil Law must be of five years' standing from the degree of B.C.L. or a Master of Arts of seven years' standing. The exercises are two acts and one opponency.

A Bachelor in Physic must keep the greater part of

* A Bachelor of Arts who intends to take the degree of M.A. is not required to keep his name on the boards during the interval between each degree, unless he purposes becoming a Member of the Senate. An entry of his name a few days before admission is sufficient.

† When a Master of Arts takes a Doctor's degree in any of the three faculties, he is said to graduate *per Saltum*, though properly this phrase belongs only to the degree of D.D.

nine several terms, and may be admitted any time in his sixth year. The exercise is one act and one oppo-
nency.

A Doctor in Physic is bound to the same regulations as a D.C.L.

A Licentiate in Medicine is required to be M.A. or M.B. of two years' standing. No exercise, but examination by the Professor and another Doctor in the faculty.

A Bachelor of Music must enter his name at some college, and compose and perform a solemn piece of music as an exercise, before the University.

A Doctor of Music is generally Mus. B. and his exercise is the same.

Noblemen, and such as are entitled to Honorary Degrees, at two years' standing.

1. Privy Counsellors.
2. Bishops.
3. Noblemen:—Dukes, Marquisses, Earls, Viscounts, Barons.
4. Sons of Noblemen.
5. Persons related to the King's Majesty by consanguinity or affinity; provided they be also honorable.
6. The eldest sons of such persons.
7. Baronets, }
8. Knights, } to the degree of M.A. only.

CAUTIONS FOR EXERCISES.

The University Statutes require certain Exercises (as appears under the head Terms and Exercises) to be performed for particular degrees, which are sometimes granted to non-gremials with the omission of part, or the whole, but with this condition, that they shall be performed within the following term. The party deposits, as a pledge, the undermentioned sums with the Vice-Chancellor, which, on non-performance of the exercises, are forfeited to the University chest:—

THE METHOD OF PROCEEDING TO THE DEGREE OF BACHELOR OF ARTS.

STUDIES AND EXERCISES.

The ordinary course of study preparatory to the degree of B.A. may be considered under the three heads of Natural Philosophy, Theology and Moral Philosophy, and the Belles Lettres. On these subjects, independently of the *public* lectures which are delivered by the several Professors of the University, the Students attend the lectures of the Tutors of their respective colleges; and the instructions comprehended in the three general heads above-named may be thus stated. In the *first*, Euclid's Elements, the Principles of Algebra, Plane and Spherical Trigonometry, Conic Sections, Mechanics, Hydrostatics, Optics, Astronomy, Fluxions, Newton's Principia, Increments, &c. &c. In the *second*, Beausobre's Introduction, Doddridge's and Paley's Evidences, the Greek Testament, Butler's Analogy, Paley's Moral Philosophy, Locke's Essay, and Duncan's Logic. In the *third*, the most celebrated Greek and Latin Classics.

Besides a constant attendance on college lectures, the undergraduates are examined yearly, or half yearly, in those subjects which have engaged their studies, and according to the manner in which they acquit themselves in these examinations, their names are arranged in classes, and those who obtain the honour of a place in the first class receive, according to merit, prizes of books, of different value.

By this mode of procedure the students are prepared for those *public* examinations and exercises which the University requires of all candidates for degrees. The first of these examinations takes place in the *fifth* term of academical residence, according to the following plan.

Regulations for the Institution of a previous Examination of all persons who take the Degrees of B.A. B.C.L. or M.B.—(Confirmed by Graces of the Senate, March 13, 1822, and December 7, 1825.)

1. That there shall be, every year, a public Examination in the Senate-House, in the last week of the Lent term.

2. That this Examination shall continue for four days; and the Examiners are authorized to require the attendance, at one and the same time, of no greater number of the persons to be examined than can be properly accommodated in the Senate-House.

3. That the subjects of examination shall be one of the four Gospels or the Acts of the Apostles in the original Greek, Paley's Evidences of Christianity, one of the Greek and one of the Latin Classics.

4. That the appointment of the particular subject in the New Testament, and in regard to the two last-mentioned subjects, the appointment both of the authors and of the portions of their works which it may be expedient to select, shall rest with the Vice-Chancellor for the time being, the three Regii Professors of Divinity, Civil Law, and Physic, the Regius Professor of Greek, and the Public Orator, (provided that not more than two of them are members of the same college); upon this clear understanding, that in the exercise of the powers thus to be vested in them they shall so limit the examination, that every one who is to be examined may be reasonably expected to shew a competent knowledge of *all* the subjects.

5. That in case three or more of those to whom the appointment of the Subjects of Examination has been assigned, shall belong to the same college, deputies for any number exceeding two shall be appointed, every year, by a Grace of the Senate.

6. That every person, when examined, shall be required; (1) to translate some portion of each of the Subjects appointed as aforesaid; (2) to construe and explain passages of the same; and (3) to answer printed questions relating to the Evidences of Christianity.

7. That the first of these annual Examinations shall take place in the Lent term of 1824.

8. That all those Undergraduates who shall commence their residence in the University*, during the

* By an interpretation made May 3, 1823, it was determined that this Regulation applies to those only who came into residence after March 13, 1822.

year 1822, shall be required to attend such Examination.

9. That those who shall come to reside in 1823, shall attend the examination of 1825, and so on.

10. That in case any one shall be prevented by illness (a Certificate of which shall be submitted to the Vice-Chancellor and Proctors for the time being, for their approbation,) from attending the regular Examination of his year, he shall be required to attend the next following Examination, and so on; and that, if any one shall absent himself upon any other account from the proper Examination of his year, he shall not be allowed the Term in which the Examination takes place, and shall, moreover, be required to attend the Examination of the next year, and so on.

11. That two Classes (each of them arranged alphabetically) shall be formed out of those examined—the first consisting of those who have passed their Examination with credit—and the second, of those to whom the Examiners have *only not refused* their Certificate of approval.

12. That those who shall not be *approved* by the Examiners, shall be required to attend the Examination of the following year, and so on; and that no degree of B.A. M.B. or B.C.L. shall be granted, unless a certificate be presented to the Caput, shewing that the Candidate for such degree has passed, to the satisfaction of the Examiners, some one of these Examinations.

13. That public Notice of the Subjects of Examination in 1825, shall be issued in the first week of the Lent term of 1824, and so on.

14. That at the first congregation after the 10th day of October, the Senate shall elect four Examiners, (who shall be members of the Senate, and appointed by the several Collegēs according to the cycle of Proctors and Taxors,) to conduct the Examination of the succeeding year.

15. That each of the Examiners shall receive £20: from the University Chest.

16. That the foregoing Regulations shall not interfere with the Composition between the University and King's College.

The student having passed this preparatory step, has next to perform the usual exercises required by the statutes for the degree which he has in view.

In the beginning of the month of January, one of the Proctors' servants goes round to every college in the University, (King's college excepted) and requires of the tutors a list of the students (denominated Sophs) who, in the subsequent January, intend to offer themselves candidates for the degree of Bachelor of Arts. The names being thus collected, are delivered to the Moderators.

Upon the second Monday in Lent term, the Moderator whose turn it is to preside, gives written notice to one of the students in his list to appear in the schools to keep an act on that day fortnight. The notice (delivered by a person styled the Moderators' man) is in the following form:

Respondeat, A. B. Coll.——

Martii 5, 18--

C.D. Modr.

This person, who is now called the Respondent or Act, waits upon the Moderator soon after with three propositions or questions, the truth of which he is to maintain against the objections of any three students of the same year, whom the Moderator (from the reports prefixed to the names in his book) shall think proper to nominate, and who on this occasion are called Opponents.

The questions proposed by the Respondent are written upon four separate papers according to a form of which the following is a specimen:

Q.S.

Recte statuit Newtonus in Septimâ sua sectione Libri primi.

Iridis primariæ et secundariæ Phænomena solvi possunt ex principiis Opticis.

Recte statuit Lockius de Qualitatibus Corporum.

————— *Resp. Martii 5, 18--*

Coll. —————

The first question is in general taken from the Principia of Newton, the second from some other writer on Mathematics and Natural Philosophy; the third is called the moral question, and is generally taken from Locke, Paley, or Butler.

At the bottom of three of these papers, the Moderator writes the name of a student, whom he thinks capable of opposing the questions of the Respondent, with the words *Opponentium, primus, secundus, or tertius*, denoting the order in which the three opponents are to appear. One of these papers is sent to each opponent.

When one Moderator has thus given out the exercises for a week, or five acts, (exercises being held for five days in a week during term,) the other proceeds according to the same method for the following week.

The fortnight of preparation being expired, the Respondent enters the Schools at one o'clock; the Moderator, attended by one of the Proctors' servants, appears at the same time, and, ascending the chair, says, "*Ascendat Dominus Respondens.*"

The Respondent mounts the rostrum, and reads a Latin dissertation called a thesis, upon any one of the three questions he thinks proper; generally upon the third or moral question. As soon as the Respondent has finished his thesis, the Moderator calls upon the first opponent to appear. ("*Ascendat Opponentium primus.*") He immediately ascends a rostrum opposite to the Respondent, and opposes his arguments against the questions in syllogistic form.

Eight arguments, each consisting of three or four syllogisms, are brought by the first, five by the second, and three by the third opponent.

The opponent is dismissed by the Moderator with such a compliment as he deserves; and after the other two opponents have performed their parts, the exercise closes with the dismissal of the Respondent in a similar manner.

The distinguished men of the year appear eight times in this manner in the Schools, twice as acts and six times as opponents; that is, twice in each character of opponent. One act and three opponencies are kept before the Commencement, and one act and three opponencies are kept during the October term.

SENATE-HOUSE EXAMINATION.

The Vice-Chancellor appoints the first Monday of Lent Term, and the four following days, for the examination of the Questionists, this being the appellation of the students during the last six weeks of the preparation. The Moderators having formed the Questionists into classes (the persons in each class being arranged alphabetically) according to their performance in the Schools; the first six are exhibited at Messrs. Deighton's shop on the Thursday preceding the examination day.

On the Monday morning, a little before eight * o'clock, the students enter the Senate-house, preceded by a Master of Arts, who, on this occasion, is styled the Father of the college to which he belongs. The classes to be examined are called out, and proceed to their appointed tables. There are three principal tables, at which six examiners preside. At the first the Senior Moderator of the present year, and the Junior Moderator of the preceding year. At the second the Junior Moderator of the present, and the Senior Moderator of the preceding year. At the third the two Moderators of the year previous to the two last, or two examiners appointed by the Senate. While this examination is proceeding between the hours of eight and nine, printed Problems are delivered to each person of the first and second classes. On two pillars at the entrance of the Senate-house are hung the classes, and a paper denoting the hours of examination of those who are thought competent to contend for Honors, of which the following is a copy:—

* Every Student who is not punctual at this and every hour appointed during the examination is subject to certain fines.

EXAMINATION ON THURSDAY.

The hours of attendance are the same this day as on the former. The examinations are confined solely to logic, moral philosophy, and subjects relating to natural and revealed religion, &c.

The examinations of this day conclude as usual at five o'clock; but the fatigue of the examiners is by no means diminished; for during the whole of this, as on the preceding nights, they have a multitude of papers to inspect, and to affix to each its degree of merit; according to which a new arrangement of the classes is made out, called the Brackets.

EXAMINATION ON FRIDAY.

On Friday the examinations are resumed. At eight o'clock the new classifications or brackets, which are arranged according to the order of merit, each containing the names of the candidates placed alphabetically, are hung upon the pillars. Thus in the examinations of the preceding days, should any have distinguished themselves above the rest, and be nearly equal, they are included in the same bracket. The next who prove nearly equal to each other, are included in the second bracket. The next who are found to be nearly on a level with one another, are included in the third bracket; and thus the whole number are bracketed. Each bracket is then called out for examination, and the situation of each individual is thus finally determined. At five o'clock the examinations are finished, when a select number, thirty at least, (*Stat. Acad.*) of those who have most distinguished themselves, are recommended to the Proctors for their approbation, and their names are set down according to merit, and classed in three divisions, *viz.* Wranglers, Senior Optimes, and Junior Optimes, which constitute the three orders of Honor. The *seventh* and *eighth* classes are also arranged according to merit.

Those who take the degree of Bachelor of Arts at any other time than this, are arranged alphabetically in classes according to their supposed acquirements, either as *Baccalaurei ad Baptistam*, or *ad Diem Cinerum*, and inserted in the list of seniority among the *οἱ πολλοί*.

150 PLAN OF ADDITIONAL EXAMINATION.

In addition to the Examination thus described, it is also necessary to insert the following Plans of Examination, which were confirmed by Graces of the Senate May 28th, 1822. The *first* affects the seventh and eighth classes of the Questionists, and the *second* those B.A. who obtain Mathematical honors.

** Plan of Examination before Admission ad Respondendum Quæstioni.*

I. The Examination of the first Six Classes of the Questionists shall remain precisely upon its present footing.

II. At the Examination in January, 1826, and every subsequent year, the Seventh and Eighth Classes shall be examined, on the first two days, in the Elements of Mathematics, as heretofore; on the third day, in Locke's Essay on the Human Understanding, Paley's Moral Philosophy, and his Evidences of Christianity; and on the fourth day, they shall be required to translate passages selected from the first six books of the Iliad, and of the Æneid; and to answer Grammatical and other Questions arising immediately out of such passages.

III. In addition to the two Members of the Senate who, according to regulations already existing, shall be appointed Examiners of the Seventh and Eighth Classes in January 1826, two others, nominated by Colleges according to the Cycle of Proctors, shall be elected by the Senate at the first Congregation after October 10, 1825; and so on, in every succeeding year.

IV. Whenever an Examination for Admission ad Respondendum Quæstioni shall take place at any other time than that of the general Examination in January, such Examination shall be conducted by the Moderators, with the assistance of the two additional Examiners, on principles similar to those laid down in the second regulation.

V. Each of the Examiners elected according to the

* By a Grace passed May 25, 1824, these Regulations apply only to those persons who came into residence after May 28, 1822.

third Regulation shall receive £20. from the University Chest.

VI. The preceding Regulations shall not interfere with the Composition between the University and King's College.

Plan of Classical Examination after Admission ad Respondendum Quæstioni.

I. On the fourth Monday after the general Admission ad Respondendum Quæstioni in January 1824 and every subsequent year, shall commence an Examination in classical learning of such persons as shall *voluntarily* offer themselves to be examined, provided that every person so offering himself shall have obtained an honour at the Mathematical Examination of the preceding January.

II. At this Examination in classical learning, Translations shall be required of passages selected from the *best* Greek and Latin Authors, as well as written Answers to questions arising immediately out of such passages. No original composition, either in Greek or Latin, shall be required.

III. The Examination shall continue four days, the hours of attendance on each day being from half-past Nine o'clock in the Morning till Twelve, and from One till Four in the Afternoon.

IV. The names of those persons who shall pass the Examination *with credit*, shall be arranged in three Classes, according to their respective merits.

V. To conduct the Examination, four Examiners, appointed by Colleges according to the Cycle of Proctors and Taxors, shall be elected by the Senate at the first Congregation after October 10.

VI. Each of the Examiners shall receive £10, from the University Chest.

VII. The foregoing Regulations shall not interfere with the Composition between the University and King's College.

SATURDAY MORNING.

Admission of the Questionists.

This morning there is a Congregation; the bell begins to ring at nine o'clock, and at ten the whole appear in the Senate-House. Two papers exhibiting a list of the Questionists, arranged according to their merits, or seniority, are hung on the pillars for public inspection*.

One of the Bedells calls up the Houses, and the Senior Moderator makes a Latin speech; the Vice-Chancellor sitting in the chair, and the Moderator standing on his left hand.

The Junior Proctor delivers to the Vice-Chancellor the list of Honors and Seniority, subscribed thus, "*Examinati et approbati a nobis;*" (*viz.* the Proctors, Moderators, and other Examiners.)

The Caput is then called for passing the supplicats of the Questionists†.

The name of each college is written on every supplicat, which is signed by the Prælector or Father of the college.

A certificate is also given to the Caput, signed and sealed by the Master of the college (or his locum-tenens) shewing that each Questionist has kept his full number of terms; and if otherwise, the deficiency is mentioned in the supplicat; and a certificate explaining the cause is delivered to the Caput by the Father.

The Registry shews to the Caput that every candidate has subscribed that he is *bona fide* a member of the Church of England.

The Vice-Chancellor reads the supplicats to the Caput, and on those who are admitted he writes *Ad*.

When they have been all read, one of the Bedells carries them into the Non-Regent House, to be read by the Scrutators; and if all are approved, the Scrutators walk, and the senior says *Omnes placent*. But if any are disapproved of, he says, *A, B. &c. non placent, reliqui placent*.

* For the honors of the present year, see p. 123.

† For a Student of King's College, who undergoes no examination for his Bachelor's degree, but claims it by a composition between the University and his college, no supplicat is offered. A grace is shewn to the Caput, and read by the Senior Proctor in the Regent-House only.

Those supplicats in which any cause is assigned for not keeping the whole number of terms are read separately; but those which are of the same kind are read together in the usual manner.

The supplicats are then carried into the Regent-House, where the Senior Proctor reads them in the same manner as the Scrutators did in the Non-Regent House. If all are approved of, the Proctors walk, and the senior says, *Placent omnes, placet vobis ut intrent*. If any are disapproved of, he says as above.

The supplicats are then delivered to the Registry, who writes on them, *Lect. et concess. die---Jan.*

In the mean time the candidates, who during the whole proceedings of the Senate are usually in the saloon or gallery, put on their hoods over their undergraduate gowns, and the School-keeper gives to each of them a printed copy of the oath he is to take at his admission.

The Vice-Chancellor takes the chair, and a Bedell having desired the respective Fathers to be in readiness with their Sons, he precedes the Father of the Senior Wrangler (the rest of the Fathers following with their Sons) to the Vice-Chancellor.

The Father, taking the Senior Wrangler by the right hand, presents him in these words:

Dignissime Domine, Domine Pro-Cancellarie et tota Universitas, præsentō vobis hunc juvenem, quem scio, tam moribus quam doctrinā, esse idoneum ad respondendum quæstioni, idque tibi fide meā præsto, totique Academiæ.

The Father of King's next presents his Sons in the same manner. The Fellow-Commoners are then presented, and after them the Questionists of Trinity and St. John's, and then those of the other colleges, according to the seniority of the Fathers. Four or five may be presented at once, the Father saying, *Præsentō vobis hos juvenes, quos, &c.*

As they are presented, they are directed by one of the Bedells to the south side of the Senate-House.

When all are presented, the Senior Wrangler takes the oaths of allegiance and supremacy; and the Senior Proctor (with his colleague standing by him) reads to him the printed oath:

Jurabis quod nihil ex iis omnibus, sciens, volens, præ-

ternisisti, quæ per leges aut probatas consuetudines hujus Academiæ, ad hunc gradum, quam ambis adipiscendum, aut peragenda, aut persolvenda, requiruntur nisi quatenus per gratiam ab Academiâ concessum tecum dispensatum fuerit. Jurabis etiam quod Cancellario et Pro-Cancellario nostro comiter obtemperabis, et quod statuta nostra, ordinationes, et consuetudines approbatas, observabis. Denique jurabis quod compositionem inter Academiam et collegium Regale factam sciens, volens, non violabis. In hæc autem verba jurabis secundem tenorem Senatus-Consulti in cautulam jurantium facti.

Ita te Deus adjuvet, et sancta Dci Evangelia.

A Bedell then calls four of the Fellow-Commoners, who take the same oaths, the Senior Proctor saying, *Eadem juramenta quæ præstitit, &c.* and so on with all the Questionists, as their names stand in the list signed by the Proctors and Examiners.

When all are sworn, the Senior Wrangler kneels down, and the Vice-Chancellor taking his hands between his own, admits him in these words:

Authoritate mihi, commissa, admitto te ad respondendum questioni. In nomine Patris et Filii et Spiritus Sancti. Amen.

The Students of King's, Fellow-Commoners, and all the other Questionists, are then called by a Bedell, and admitted in the same manner.

As the Questionists are admitted, they go to the Sophs' Schools, to answer the question which is asked them by their respective Fathers.

When there is an end of the admissions, the Vice-Chancellor dissolves the Congregation.

FIRST TRIPOS DAY.

On the day after Ash Wednesday, at one o'clock, the bell rings for the first Tripos.

At two, the Vice-Chancellor and the Proctors meet in the vestry of Great St. Mary's church.

The whole company then proceed to the Law Schools; the Vice-Chancellor, preceded by a Bedell, goes into the gallery; the Senior Proctor with a Bedell into the respondent's seat, and the Junior Proctor into the opponent's seat.

The Tripos papers, containing the names of the Wranglers and Senior Optimes of the year, and two copies of verses written by two undergraduates whom the Proctors choose to honor on this occasion, are distributed among the undergraduates and the company present.

A Bedell reads from a Tripos paper :

Baccalaurei quibus sua reservatur senioritas comitiis prioribus.

He then pronounces the name and college of the first Bachelor in the list, to which the Junior Proctor answers :

Nos reservamus ei senioritatem suam.

To the second the Junior Proctor answers, *et ei*, and so on to all the names on the Tripos paper.

When all the names are read, the Junior Proctor says :

Nos continuamus hanc disputationem in horam primam diei Jovis, post quartam dominicam hujus quadragesimæ.

SECOND TRIPOS DAY.

The second Tripos Day is on the Thursday after Midlent Sunday; the bell begins to ring at one. The Moderators, dressed in the Proctors' Congregation habits, meet the Vice-Chancellor in the vestry of Great St. Mary's church at two o'clock, and from thence proceed to the Law Schools. The Vice-Chancellor, preceded by a Bedell, goes into the gallery; the Senior Moderator, with a Bedell, into the respondent's seat: and the Junior Moderator into the opponent's seat.

The Tripos papers, containing a list of the Junior Optimes of the year, and two copies of verses written by two undergraduates at the request of the Moderators, are then distributed amongst the undergraduates and company present.

A Bedell reads from a Tripos paper, *Baccalaurei quibus sua reservatur senioritas comitiis posterioribus.*

He then reads the name and college of the first Bachelor, and the Junior Moderator answers, *Nos reservamus ei senioritatem suam.*

To the second, the Junior Moderator answers, *et ei*, and so on, as in the first Tripos.

When all the names have been read he says :

Reliqui (i. e. the *οἱ πολλοί*, &c.) *petant senioritatem suam e registro.*

And lastly. *Authoritate qua fungimur, decernimus, creamus, et pronunciamus omnes hujus anni determinatores, finaliter, determinasse, ET ACTUALITER ESSE IN ARTIBUS BACCALAUREOS.*

PROCEEDINGS IN CIVIL LAW.

Preparatory to the degree of Bachelor in Civil Law, a student is obliged to attend the Lectures of the Professor for the space of three terms; and after four years' standing, and a residence of nine terms, he may keep his *Act. Prior to this exercise, he carries his Questions to the Vice-Chancellor for his approbation; after which they are affixed to the door of the Lecture-room under the Public Library.

Form of a Notice for an Act.

Q. S.

Bona fide possessor fructus percipiendo suos facit.

Legatarius in Testamento Testis esse potest.

Coll.---4to die Maii.

A.B. Resp.

The first question is proposed by the respondent, the second by the Professor.

On the day of the Act, the University bell begins ringing at one in the afternoon, and a quarter of an hour before two, the respondent is waited on by a Bedell, who precedes him to the Law Schools, followed by the Father and other members of his college. During this procession the respondent walks with his cap off, and on arriving at the Schools ascends a rostrum opposite the Professor.

The Professor in his robes, preceded by a Bedell, then takes the chair, and the Father, seated in the opponent's rostrum, directs the respondent to begin---
“*Agas Domine.*”

The respondent then commences his exercise by reading a Latin dissertation, which occupies about half an hour on the first question. The arguments against

* Zouche's or Vinnius's Questions deserve to be consulted by a person preparing for this Act; as also the Commentaries of Vinnius and Voet.

both the questions are then propounded in syllogistic form, by a candidate for the degree of D.C.L. or more usually by the Professor.

The disputation having thus proceeded for an hour, the Professor gives the Respondent an appropriate honor. The exercise then concludes with the Professor's determination upon the second question.

The habit worn by the respondent in the Schools, and by the candidate in both Congregations, is a full-sleeved gown, and a Bachelor of Arts' hood.

At the expiration of six years, the supplicat and the certificate of terms and residence, signed and sealed by the Master of the college, or his locum-tenens, together with the Professor's certificate (*See p. 22.*) are presented to the Caput, and the supplicat is afterwards read in both houses. At the next Congregation, after the supplicat has again been read, and approved in both houses, the Candidate is admitted to the degree of Bachelor in Civil Law.

PROCEEDINGS IN PHYSIC.

A student, before he can proceed to the degree of Bachelor in Physic, must have entered on his sixth year, and have resided nine terms. The exercises for this degree are one act and one opponency, the latter of which is usually compounded for. The form of notice, ceremonies, and mode of keeping the act, are precisely similar to those described in the last article, under the head of Proceedings in Civil Law. The questions for the act generally refer to some practical point, or to some physiological or pathological subject. The act must be kept either during the term in which the degree is taken, or during the preceding term.

By a late Grace of the Senate, the candidate for this degree must have attended the Lectures of the Professor of Physic for two terms; and of this he must lay before the Caput a certificate in the hand-writing of the Professor. All candidates are examined by the Professor as to their proficiency in the medical sciences, before they keep their act. (*See p. 26.*)

A Bachelor of Arts may proceed to the degree of Bachelor in Physic as soon as he is of sufficient standing,

provided that one year at least shall intervene between the two degrees, during which he must attend the Lectures of the Professor of Physic.

A student who has declared for Law or Physic, may put on a full-sleeved gown when those of the same year, who go out at the regular time, have taken their degree of Bachelor of Arts. He is then styled a Harry-soph. (*επισοφος*.)

THE UNIVERSITY LIBRARY.

For the supplying this and certain other Libraries with books, provision was made by statute of the 8th of Queen Anne, entitled an Act for the encouragement of learning, to which certain provisions were added by an Act of the 41st of George III. and still further provisions by an Act passed in the 56th year of the same reign, in which last it is enacted, "that eleven printed copies of the whole of every book, and of every volume thereof, upon the paper upon which the largest number or impression of such book shall be printed for sale, together with all maps and prints belonging thereto, which, from and after the passing of this act, shall be printed and published, on demand thereof being made in writing to, or left at, the place of abode of the publisher or publishers thereof, at any time within twelve months next after the publication thereof, under the hand of the warehouse-keeper of the Company of Stationers, or the librarian or other person thereto authorized by the persons or body politic and corporate, proprietors or managers of the libraries following; *videlicet*, the British Museum, Sion College, the Bodleian library at Oxford, the public library at Cambridge, the library of the faculty of Advocates at Edinburgh, the libraries of the four Universities of Scotland, Trinity College library, and the King's Inns library at Dublin, or so many of such eleven copies as shall be respectively demanded on behalf of such libraries respectively, shall be delivered by the publisher or publishers thereof respectively, within one month after demand made thereof in writing as aforesaid, to the warehouse-keeper of the said Company of Stationers for the time being; which copies

the said warehouse-keeper shall and he is hereby required to receive at the hall of the said Company, for the use of the library for which such demand shall be made, within such twelve months as aforesaid; and the said warehouse-keeper is hereby required within one month after any such book or volume shall be so delivered to him as aforesaid, to deliver the same for the use of such library: and if any publisher, or the warehouse-keeper of the said Company of Stationers, shall not observe the directions of this Act therein, that then he and they so making default in not delivering or receiving the said eleven printed copies as aforesaid, shall forfeit besides the value of the said printed copies, the sum of five pounds for each copy not so delivered or received, together with the full costs of suit; the same to be recovered by the person or persons, or body politic or corporate, proprietors or managers of the library for the use whereof such copy or copies ought to have been delivered or received; for which penalties and value such person or persons, body politic or corporate, is or are now hereby authorized to sue by action of debt or other proper action in any Court of Record in the United Kingdom.

“And be it further enacted, that no such printed copy or copies shall be demanded by or delivered to or for the use of any of the libraries herein before mentioned, of the Second Edition, or of any subsequent edition of any book or books, so demanded and delivered as aforesaid, unless the same shall contain additions or alterations: and in case any edition after the first, of any book so demanded and delivered as aforesaid, shall contain any addition or alteration, no printed copy or copies thereof shall be demanded or delivered as aforesaid, if a printed copy of such additions or alterations only, printed in an uniform manner with the former edition of such book, be delivered to each of the libraries aforesaid, for whose use a copy of the former edition shall have been demanded and delivered as aforesaid: provided also, that the copy of every book that shall be demanded by the British Museum, shall be delivered of the best paper on which such work shall be printed.”

To the same purpose the rents of the University's

estates at Ovington in Norfolk are applied. This estate was bought with the money given to the University in 1666, by Tobias Rustat, Esq. Yeoman of the Robes to King Charles II., to be laid out in land, the rents to be applied in the purchase of choice books for the Public Library.

William Worts, M.A. Fellow of Caius College, formerly one of the Esquire Bedells of this University, ordered by his will that the annual surplus of the rents and profits of his estate at Landbeach, in this county, after the discharge of the other outgoings, (*See p. 43.*) should be applied to the use of the Public Library. A quarterly contribution of one shilling and sixpence from each member of the University, excepting Sizars, is likewise made for the support of the Library.

The management of the Library is committed to Syndics, who are the Vice-Chancellor, the Heads of colleges, all Doctors in each faculty, the Orator, and all public Professors, the Proctors, and Scrutators. They meet in the Library on the first Monday after the division of every term, and oftener if necessary; and to them, or the major part, not less than five, of whom the Vice-Chancellor must always be one, full powers are committed for the better regulating of the same.

All members of the Senate, and Bachelors in Civil Law and Physic, are entitled to the use of the Library.

The Syndics have at various times issued regulations to the following effect:—

That no person be allowed to have in his possession at any one time, more than ten volumes belonging to the Library, except by a dispensation from the Vice-Chancellor and the Librarians, if they shall be unanimously of opinion that sufficient reasons have been assigned for the same; and that such dispensations continue in force no longer than to the end of the quarter in which they shall be granted; but upon fresh application may be renewed by the same authority.

That no one take or borrow any book out of the Library, without first delivering to one of the Library-Keepers a note for the same, in his own hand-writing, expressing his name and college, and the year and day of the month on which such book is taken or borrowed,

on pain of forfeiting five pounds, or double the value of such book, at the discretion and the judgment of the Vice-Chancellor.

That the Library-Keepers preserve carefully all such notes, till the book so taken out be returned again to the Library, duly entering the same in a book to be kept for that purpose, together with the day of the said return, and any damage done to any book, on pain of five shillings for every omission, to be paid by them, or any of them.

That every one who shall borrow or take any book out of the Library, return it thither again on or before the next of the four following days, *viz.* Michaelmas-day, St. Thomas, Lady-day, and Midsummer-day, or oftener, if the Syndics see occasion and require it, under the penalty of two shillings for every folio or quarto, and one shilling for every book of less size; the penalty to be repeated every month till the book be returned, or another of the same edition and equal value placed in its room.

That a list of the books omitted to be returned at the end of the quarter, together with the name of the borrower, be suspended in some public place in the Library.

That no person shall have more than five volumes out of the lock-up classes of the Library, by a note countersigned by the Vice-Chancellor; and that such books be returned at the end of each quarter, as all other books are, under *double* penalties.

That for the purpose of allowing the Librarians sufficient time to inspect the books at the end of each quarter, all books be kept in the Library on the day appointed for their return, and the whole of the day following.

That no manuscript whatever be taken out of the Library, without a grace for its removal being obtained from the Senate.

That no volume containing a collection of prints or drawings, shall be taken out of the Library on any account whatever.

That every year, on the Friday next after the Commencement, or oftener if they see occasion, the Syndics shall meet in the Senate-House, or elsewhere, at

the appointment of the Vice-Chancellor, to give orders and appoint inspectors, for a general survey of the Library the Monday following. These inspectors, with the Librarians, shall make a full and true catalogue of all books wanting or much damaged, expressing in whose custody such books are, or by whom damaged, and deliver the same, signed by them, to the Vice-Chancellor.

That all books in this catalogue be returned to the Library perfect and undamaged, or others of the same edition and equal value, placed in their room there within thirty days after notice given, on pain of forfeiting five pounds for every volume not so returned, or the full value of the same, at the discretion and in the judgment of the Vice-Chancellor, to be paid by him who stands charged with it; or, in case no one shall be charged with it, by the Library-Keepers or their deputies, or any of them; unless it shall appear to the Vice-Chancellor that such loss or damage has not happened through any neglect or default of the said Library-Keepers, or their deputies.

That if, after the said thirty days, on inquiry and report to be made by the said inspectors, or otherwise, it appears to the Vice-Chancellor, that any books be still wanting in the Library, or much damaged, he shall order others, without delay, to be procured, at the expence of the public chest, and put in their places.

That strangers or persons in *statu pupillari* may be admitted into the Library, if attended by one of the Library-Keepers, or accompanied by some member of the University not under the degree of Bachelor of Law or Medicine, and not otherwise.

That in future a list of the books omitted to be returned at the end of the quarter, together with the name of the borrower, be suspended in some public place in the Library.

That all the penalties above-mentioned shall be levied as other penalties are, by the Queen's statutes, chap. 50, and go one-third to the Bedells who collect them, the rest to the public chest.

The Library is closed on Sundays, and on the following days; Christmas-Day; the Epiphany; the Purification; Ash-Wednesday; Good Friday; Easter Monday

and Tuesday; Holy Thursday; Whit Monday and Tuesday; November 5. Appointed Fast days and Thanksgivings; the day after each Quarter-day; and the Wednesday, Thursday, Friday, and Saturday, in the week after the Commencement.

On Saturdays it is open from ten till one; on Saints' days from twelve till three; and on other days from ten till three.

THE UNIVERSITY PRESS.

The management of the University Press is committed by the Senate to Syndics, who meet to transact business in the parlour of the Printing-office, and cannot act unless five are present, the Vice-Chancellor being always one. The Syndics are, the Vice-Chancellor, the Lord Bishop of Peterborough, the Lord Bishop of Bristol, Dr. Turner, Dr. Cory, Dr. Procter, Dr. Wordsworth, Dr. Davy, Dr. Chafy, Dr. G. Thackeray, Dr. Wood, Dr. Webb, Dr. French, Dr. Frere, Mr. Lamb, Master of Corpus, Dr. Godfrey, Dr. J. W. Geldart, Mr. Veasey, Mr. Wm. Hustler, Mr. Bridge, Mr. Crawley, Mr. R. Tatham, and Prof. Turton.

THE FITZWILLIAM MUSEUM.

Richard, Viscount Fitzwilliam, formerly of Trinity Hall, (M.A. 1764,) who died 5th February, 1816, bequeathed to the University his splendid collection of books, paintings, drawings, engravings, &c. together with £100,000, South Sea Annuities, for the erection of a Museum for their reception. The following is an extract from his will, dated 18th August, 1815:—

“I give and bequeath unto the Chancellor, Masters, and Scholars of the University of Cambridge, all my capital stock in the New South Sea Annuities, to be had and held by them the said Chancellor, Masters, and Scholars, and their successors for ever, upon the trusts and to and for the intents and purposes hereinafter expressed and declared touching and concerning the same. And as to all my pictures, portraits, prints,

drawings, and engravings, whether framed, glazed, or otherwise. And also the frames and glass thereof respectively. All my books, printed, engraved, or manuscript, bound or unbound. All my music, bound or unbound. All my busts, statues, medals, gems, precious stones, and bronzes whatsoever which shall belong to me at the time of my decease; I give and bequeath the same unto the said Chancellor, Masters, and Scholars of the said University of Cambridge, and their successors for ever, upon the trusts and for the intents and purposes hereinafter expressed, declared, and contained touching and concerning the same. And I do hereby declare my will to be, and hereby direct that they the said Chancellor, Masters, and Scholars do and shall with all convenient speed after my decease, by and out of the dividends and annual proceeds of my said New South Sea Annuities so directed to be transferred to them as aforesaid, cause to be erected and built a good, substantial, and convenient Museum, Repository, or other building, within the precincts of the said University, for the reception and preservation of the said pictures, books, and other articles, or to purchase one or more erections or buildings for that purpose. And in the mean time and until such a Museum, Repository, or other building shall be erected, built or purchased as aforesaid, to procure a proper building for their temporary reception, and to pay rent and taxes for the same, and also to pay and defray all the costs, charges and expenses attending the removing and depositing the said respective articles. And it is my will, and I hereby direct that none of my said pictures, books, or other articles before mentioned, shall be taken or removed from the Museum or Repository for the time being, by any person or persons whomsoever, or on any account or upon any pretence whatsoever, except only in the case of fire happening, and then only during the time the necessity continues. And I do hereby declare my will to be, and hereby, direct that the expence of keeping such pictures, books, and other articles before mentioned, and the salaries of officers and other persons to be employed in or about the same, shall be discharged with and out of the dividends and annual proceeds of the said New South

Sea Annuities so given and bequeathed as aforesaid. And I do hereby declare that the bequests so by me made to the said Chancellor, Masters, and Scholars of the said University, are so made to them for the purpose of promoting the increase of learning, and the other great objects of that noble foundation: but the particular arrangement, economy, and disposition of the property comprized in the said legacies and bequests I have made and given, I commit (subject to the several trusts hereinbefore expressed) to the direction and management of the said Chancellor, Masters, and Scholars, in such manner as is provided by the laws and usages of the said University."

And, after other dispositions, his Lordship gave the residue of his personal estate to George-Augustus Earl of Pembroke and Montgomery, and appointed him sole executor of his will.

Regulations of the FITZWILLIAM MUSEUM.

1. The Museum shall be open for inspection every day on which the Public Library is opened, from ten o'clock in the morning till two in the afternoon, and from four o'clock till six in the evening, during the months of April, May, June, July, August, and September; and from eleven in the morning till three in the afternoon, during the remainder of the year.

2. Any member of the Senate may introduce two persons in *statu pupillari* at one time, or any strangers or friends who do not belong to the University; but he must remain with them as long as they continue in the Museum.

3. No pecuniary gratification shall be received by the Keeper on these occasions.

4. The Fitzwilliam Museum shall be inserted with the Library, in the oath of admission to degrees.

5. No member of the University shall be admitted into the Museum, unless he appear in his academical habit.

The Free School in Free School Lane has been fitted

up for the temporary reception of this splendid collection.

Curator of the Museum—William Key.

The collection in the Fitzwilliam Museum has been augmented by many valuable donations of Paintings, Prints, Books, &c. a list of which may be seen in the donation book, at the Museum.

THE BOTANIC GARDEN

Occupies between three and four acres, on the south-east side of the town, conveniently disposed, and well watered. This piece of ground, with a large and ancient edifice that formerly belonged to the Augustan Friars, was purchased by the late Dr. Richard Walker, Vice-Master of Trinity College, for £1600.

The old building having been sold, a new building has been erected, for the use of the Lecturers in Chemistry and Botany.

This Garden is under the government of the Vice-Chancellor, the Provost of King's, the Masters of Trinity and St. John's, and the Professor of Physic.

Curator—Arthur Biggs, F.L.S.

CAMBRIDGE OBSERVATORY.

A very general opinion having been entertained that it would greatly add to the utility and splendour of this University, and might essentially promote the cause of science, to erect an Observatory on the most approved plan, to be furnished with the best instruments that can be procured, measures were adopted, in 1820, to carry this idea into execution. The first step taken was to procure subscriptions from Members of the University, and others, and by this means upwards of £6000 was obtained; a further addition to this sum was made by a Grace of the Senate, May 5, 1820, by which £5000 was granted from the public chest in aid of this design.

At the same time regulations were made, by which it was resolved, that the superintendence and management of the Observatory should be vested in the Plu-

mian Professor; under whose direction two assistant Observers should be placed. That the two assistant Observers should be elected for the term of three years, at the end of that time to be capable of being re-elected; and that the persons eligible should be Graduates of the University. That the salary of one assistant should be £150, and of the other assistant £100 a year. That the duties enjoined the Observers should principally consist in making regular meridional observations of the sun, moon, and fixed stars; and that, in addition to these, other observations, required or suggested by circumstances, and the state of astronomical science, should be instituted and conducted; such, for instance, as may determine, with greater precision, the laws of refraction and the existence of parallax. That the observations so made should each year, under the care of the Observer and his assistants, be printed and published at the expence of the University: and copies of the same presented to the principal Observatories of Europe, viz. Greenwich, Oxford, Dublin, Paris, Palermo. That in addition to the capital instruments of the Observatory, there should be other instruments of less size and value, appropriated to the use and instruction of Academical Students.

The erection of the Observatory commenced in 1822, and is now completed. The architect is Mr. J. C. Mead, of London.

To the former account we wish to add a few words relative to the present (1826) state of the Observatory.

The only capital Instruments, at present, in the Observatory are, two Clocks, one by Molyneux and Cope, the other by Hardy; and, a Transit Instrument by Dollond, of which an account has lately been given by Professor Woodhouse, in the second part of the Transactions for 1825; with this instrument numerous observations have been made. But the want of a Northern Meridional mark, for the purpose of *constantly* regulating the position of the Transit Instrument, must necessarily lessen the value of these observations.

The smaller Instruments are mentioned in the following account of the Lectures given at the Observatory.

Since Mr. Woodhouse's residence at the Observatory, the Experimental Lectures on Natural Philosophy

(mentioned in page 29) have, during two years, been discontinued. A course of Lectures, however, on the Theory and Practice of Astronomy was given last year at the Observatory, and will be repeated in the Easter Terms of ensuing years. The purpose of these Lectures is, by the means of actual observations, the application of formulæ of computation, and the use of Tables, to enable the student himself to deduce Astronomical results: whether those results are, what may be called, fundamental ones, such as are obtained in fixed Observatories, and are the very elements of Astronomy: or whether the results are dependent on secondary processes such as are useful in Geodesical operations, and practised with portable Instruments. For the former of these objects, a Transit Instrument, an Astronomical Quadrant and a Clock are provided: for the latter, Sextants, and Reflecting and Repeating Circles.

The Lectures are to be given three times a week, but the Observatory will be open to Students attending the Lectures on every day at noon, and in the evening, when the sky is clear.

CAMBRIDGE PHILOSOPHICAL SOCIETY.

(Established November 15, 1819.)

The Cambridge Philosophical Society is instituted for the purpose of promoting scientific inquiries, and of facilitating the communication of facts connected with the advancement of Philosophy and Natural History.

The Society consists of Fellows and Honorary Members. The Fellows are elected from such persons only as are Graduates of the University of Cambridge.

Every person desirous of being admitted a Fellow of the Society, must be proposed and recommended by three or more Fellows, according to a form prescribed by the regulations of the Society, and the ballot for his election takes place at the second meeting after that at which he is proposed, and no person is declared elected unless he have in his favour two-thirds of the members voting. The annual subscription of each Fellow is one guinea, paid in advance; or the sum of ten guineas in lieu of annual payments. Admission-fee, one guinea.

Honorary Members are elected in the same manner, except that the recommendation must be signed by at least six Fellows, and *the cause of recommendation particularly expressed.*

No Graduate or Member of the University of Cambridge can be admitted an Honorary Member.

Every person who contributes to the Museum or Library of the Society, will be recorded as a benefactor, his name will be read at the annual general meeting, and inserted in the next succeeding volume of the Society's Memoirs.

All communications, presents, &c. are to be sent to one of the Secretaries, if not personally presented by a member at the meeting of the Society.

The present Society consists of Fellows and Honorary Members.

Attached to the Society is a reading-room, which is supplied with the principal literary and scientific journals, and the daily papers. All members of the Society pay, during their residence in Cambridge, one guinea annually, for its support.

COMBINATION PAPERS.

The Sermons before the University at Great St. Mary's, are preached by Bachelors in Divinity and Masters of Arts who have completed their first year, beginning with the former. The two papers, one published in July and the other in December, are made out by the Bedells and signed by the Vice-Chancellor. The *Prior Combinatio* contains the Sunday morning turns, and is made after the following order:—The colleges are divided into seven classes, each of which, (Trinity

Hall excepted, which sends no morning preacher) provides a preacher every seventh turn. In the three first colleges the name is omitted, in the remaining twelve the preacher's name and college are set down.

1. King's					
2. Trin.		4. {	Pet.	5. {	Queen's.
3. Joh.			Chr.		Pemb.
			Magd.		Cath.
	6. {	C.C		7. {	Cains.
		Clare.			Jes.
		Sid.			Emm.

The *Posterior Combinatio* contains the Sunday afternoon turns and Saints' days, and is made according to the order in which the members stand in the Registry's book. The names as well as the colleges are here mentioned.

The Combination Papers are immediately on their publication sent to the Tutors of the respective colleges, who communicate to the persons named in the Paper the time appointed for them to preach. Substitutes procured by such as omit to preach in their turn, receive three guineas a sermon. The Vice-Chancellor appoints the preachers for the Lent and Summer Assizes, and for extraordinary Fasts and Thanksgivings. The payment is five guineas a sermon.

SELECT PREACHERS.

A Grace having passed the Senate: "That those to whom the Sunday afternoon turns, and the turns for Christmas-day and Good-Friday, are assigned, shall, from the beginning of November 1825, to the end of May 1826, provide no other substitute than such as are appointed in conformity with that Grace:"—The following persons have been elected, each for the month to which his name is affixed:—

1825. November.....	Rev. C. W. Le Bas, Trin.
December.....	Rev. Dr. Wait, Joh.
1826. January.....	Rev. T. W. Hornbuckle, Joh.
February.....	Rev. Dr. Hollingworth, Pet.
March.....	Rev. W. Grylls, Trin.
April.....	Rev. H. J. Rose, Trin.
May.....	Rev. T. Chevallier, Cath.

CHARITIES.

CRANE'S CHARITY FOR THE RELIEF OF SICK SCHOLARS.

John Crane, apothecary in Cambridge, and M.A. died in 1654, and left by his will money to buy an estate of £62. * per annum, to be settled on the five corporations following, *viz.* the University of Cambridge, the towns of Wisbeach, Cambridge, Lynn, and Ipswich. The rents to be received in order, and to be applied by the University in their turn towards the relief of sick scholars. The distribution to be made by the Vice-Chancellor, the Professors of Divinity, Law, and Physic, and the chief Apothecary of the town. The Master of Caius College is requested to assist the Distributors. Meetings of the distributors, to consider and determine the claims of applicants for the benefit of this charity, take place on the third Monday of *May*, and the third Monday of *November*, in every year, and all applications of Scholars must be made by the Tutors of their respective colleges.

The gift to the town was to accumulate until it amounted to £200. which sum was to be disposed of in loans of £20. each bearing no interest, to ten young men, in order to set them up in trade, they giving good security to repay the same at the end of twenty years. As each sum is repaid, it is to be again lent out in the same manner, and the persons, to whom the loans are made are to be selected by the Vice-Chancellor, the three Professors of Divinity, Law, and Physic, the chief Apothecary, the Mayor, Recorder, and three Aldermen, or greater part of them.

After the sum of £200. had been set apart, Mr. Crane directed that the rents of the estate should be employed in the relief of persons confined for debt, and of poor men and women of good character, at the discretion of the above-mentioned Distributors, who hold half-yearly meetings in May and November to consider the claims of applicants.

* The present rent of the estate is above 300*l.* per annum.

† The first payment was made about the year 1660.

FREE GRAMMAR SCHOOL.

Stephen Perse, M.D. Senior Fellow of Caius college, by a clause in his will*, dated September 27th, 1615, bequeathed certain property in charge to his executors, to purchase divers grounds and tenements to the value of £250. a year in mortmain, to be applied amongst other purposes to that of erecting and establishing within three years (if possible,) after his decease, a convenient house, capable of containing one hundred scholars, to be used for a Free Grammar School, with apartments for a Master and Usher, who are required to be graduates in this University; the former a Master, the latter a Bachelor of Arts at least. The Master's salary is £40. the Usher's £20. per ann. The scholars are to be natives of Cambridge, Barnwell, Chesterton, or Trumpington, and educated *gratis*; and no more than the number above specified are to be there instructed. In case of a vacancy in the place of a Master or Usher, preference is to be given to one who has received his education at the School.

Scholars educated three years at least at this School, are to be admitted (*cæteris paribus*) before all others, to the six Fellowships, value £10. and six Scholarships, £4. per ann. each, founded by Dr. Perse, and now distinguished by his name at Caius college.

NEW FREE SCHOOL,

In St. Peter's Parish.

This institution was founded in 1808, for the education of the poor of this town and the adjacent villages. It was originally established upon the plan of Dr. Bell and Mr. Lancaster, but is now placed wholly upon that of the former, as adopted by the National Society. The children are admitted between the ages of 6 and 11, and are instructed in reading, writing, and arithmetic, without any expence. They are also instructed in the

catechism and parts of the liturgy of the Church of England.

The institution is under the management of Governors, who are constituted by a donation of ten guineas, or an annual subscription of one guinea. By means of a liberal subscription they have been enabled to purchase a piece of ground, and build a spacious school-room, calculated to hold 300 boys; and by the aid of a donation of £150. from the University, donations from some of the colleges, the Members of the University, and other individuals, a house has been built for the Master contiguous to the School. A meeting of the Governors is held on the first Thursday in every month, at 2 o'clock in the school-room. A sermon for the benefit of this institution is preached annually in the spring; and the yearly statement, published in June, may be had of Messrs. Deighton and Sons, booksellers, by whom subscriptions are received, and by any of the bankers in Cambridge.

OLD CHARITY SCHOOLS,

Commonly called Whiston's Charity Schools.

This institution was set on foot in the year 1703, and supported by voluntary contributions. It owed much of its first establishment to the activity of William Whiston, M.A. and amongst its earliest patrons are found the names of Sir Isaac Newton, Bishop Patriek, Dr. Bentley, &c. The design of it was to educate charity children of both sexes.

The New Free School in St Peter's parish, for the education of boys, having been united to the National Society, June 22, 1813, it was thought expedient to transfer the boys to that institution, to which this allows, in consequence, the sum of £30. annually. In the year 1816, a new school-room for the girls was built in King-street, capable of containing 300 children, and likewise a house for the mistress, and the establishment was put on the plan of the National Society, to which it was then united.

The girls are taught reading, writing, something of accounts, needle-work, and knitting. They learn the

catechism and other religious books, and are required to attend divine service in their parishes on Sundays. The Lord Bishop of Ely is the patron. The Ministers and Lecturers of the parishes in Cambridge are the governors. There is also a committee of ladies, who superintend the detail of the School. The governors and subscribers nominate the girls who are educated; each guinea subscribed gives a right of nominating four children, or ten guineas paid at one time entitles the donor to recommend four children annually.

Subscriptions are thankfully received by Professor Farish, the treasurer; by the governors; by Messrs. Deighton and Sons, booksellers; or by any of the bankers in Cambridge.

ADDENBROOKE's HOSPITAL.

John Addenbrooke, M.D. formerly Fellow of Catharine Hall, in the year 1719, left about £4000. to erect and maintain a small Physical Hospital; but the money being insufficient for the support of it, an Act of Parliament was obtained to make it a General Hospital. It was opened at Michaelmas 1766, and the number of patients annually cured and relieved is upon an average 1000. The expences of late years have been about £1700. per annum, of which sum about £600. arises from the permanent funds, and the remainder from the voluntary contributions of the public.

Mr. John Bowtell, late a bookbinder and stationer in Cambridge, by his will bearing date the 22d day of September 1813, bequeathed a legacy to the Hospital in the following words:—"I give and bequeath unto the President and Governors of Addenbrooke's Hospital, in the town of Cambridge, *£7000. in the 3 per cent. Consolidated Bank Annuities, to be by them applied in enlarging the said Hospital, if necessary, for the purpose of receiving persons of other descriptions than those of sick patients, such as poor married women during their confinement, or otherwise, as they shall see fit and adviseable."

Benefactors of 20 guineas or upwards are governors

* Between three and four thousand pounds of this sum have been appropriated to the erection and furnishing of two wings to the Hospital. These are now completed and open for the reception of patients.

for life; annual subscribers of two guineas or upwards are governors during payment. Each person may recommend patients according to the amount of the subscription.

An accurate statement of the accounts and a list of subscribers is printed annually, and may be had *gratis* by any of the contributors, at Messrs. Deightons, or at the Hospital.

Benefactions and annual subscriptions are thankfully received by Mr. Alderman Purchas, St. Andrew's-street; Messrs. Deighton, Booksellers; Miss Wilkinson, Wisbeach; Mr. Edwards, Ely; and by the Apothecary and Matron at the Hospital.

UNIVERSITY ALMS HOUSES.

These Alms Houses, situate in King Street, were founded in 1505, by Matthew Stokys, M.A. of Caius college, one of the Esquire Bedells, for six poor women, who are appointed by the Vice-Chancellor. The value of the original endowment was 7*d.* a week for each poor woman, and 8*s.* a piece at Stourbridge Fair, to buy them frize gowns and linen veils ; but between the years 1695 and 1796, the annual stipend to each person was only 10*s.* In the latter year, a Grace passed the Senate for the increase of the stipend from 10*s.* to 50*s.* Each person since that time has regularly received £2 10*s.* a year.

PERSE'S ALMS HOUSES.

The Alms Houses, S. E. corner of Free School Lane, near the Botanic Garden, for six poor single persons, not less than forty years of age, and belonging to the parishes of St. Edward, St. Michael, and in failure of such being found there, of St. Benedict, in the town of Cambridge, were built and endowed with a salary of £4 per annum to each person, by Dr. Perse, whose numerous acts of charity and beneficence are justly recorded on a handsome monument in the chapel of Caius college.

STOREY'S ALMS HOUSES.

Edward Storey, gent. left by will (1692) all his property for founding Alms Houses : one for four clergymen's widows, another for two widows and one maiden of the parish of St. Giles and three maidens of the parish of the Holy Trinity, in the town of Cambridge. " Every of which widows and maidens to be forty years of age at the least, and of sober life and conversation. And to each widow and maiden a house to live in, and £10 per ann. payable half-yearly ; and to each, one gown, two pair of shoes, and one pair of stockings."—Dr. Goddard, late Master of Clare Hall, left a legacy to augment the stipends of the four clergymen's widows, with which the trustees purchased £410 stock, 4 per

cent. All the widows receive yearly other perquisites. Mr. J. Merrill, late bookseller in this town, left by will (Oct. 1805) £1667 in the 3 per cents. to this charity. The trustees are, the Rev. F. Barnes, D.D. Master of Peterhouse, the Rev. R. T. Cory, D.D. Master of Emmanuel, and the Rev. G. Thackeray, D.D. Provost of King's.—*Steward & Receiver*, Mr. Robert Gee.

KING'S COLLEGE ALMS HOUSES.

These houses, adjoining the college, are for four poor women, who daily receive from the college the remains of the commons. In the absence of the Scholars, during the long vacation, they have a joint of meat in turn. They have also each four bushels of coals at Christmas, and 10s. each per quarter, exclusive of part of the sacrament money.

QUEEN'S COLLEGE ALMS HOUSES.

These Alms Houses, situate in Silver Street, are appropriated to eight poor widows, appointed by the President of Queen's. Each person receives 2s. and a pound of meat a week, and a chaldron of coals every year. They have also an additional gratuity of £1 the 25th of September, and 2s. 6d. on the 24th of December.

N. B.—Most colleges have certain funds appropriated for charitable purposes.

ST. PETER'S COLLEGE.

(FOUNDED 1257.)

Copies of the Statutes in the British Museum; Old Statutes, Mss. HARLEY, No. 7032, p. 187. New.—No. 7046, p. 132.

AT this most ancient College, or House, founded by Hugh de Balsham, Bishop of Ely, there are fourteen Fellowships on the foundation, into which no person who is M.A. or of sufficient standing to take that degree, can be elected; and there cannot be more than two Fellows of a county, (except of Cambridge or Middlesex,) seven of whom must be in the northern and seven in the southern division. Westmoreland, Northumberland, Cumberland, Durham, York, Lancaster, Chester, Derby, Stafford, Nottingham, Leicester, Lincoln, Salop, Worcester, Warwick, Rutland, Northampton, Norfolk, Bedford, and Huntingdon, with the Welsh counties of Anglesea, Caernarvon, Flint, Merioneth, Montgomery, and Denbigh, are esteemed northern. With regard, however, to Cambridge or Middlesex, there may be four Fellows of either county. One fourth part only of the foundation Fellows are required to be in Priest's orders. By Queen Elizabeth's licence, the five senior Clerical Fellows may hold any livings with their Fellowships, provided they are not more than £20. in the *Liber Regis*, and within 20 miles of the University of Cambridge. The eight Bye Fellows are distinct from the former, and are not entitled to any office or voice in the affairs of the College; but perfectly open and unrestricted, and are eligible to foundation Fellowships, if not of M.A. standing. Two (a) founded 1589, by Andrew Pern, D.D. Two (b) 1601, by Lady Ramsay. And Four (c) 1637, by Thomas Parke, Esq.

Two new Fellowships of £70 per annum each, and four new Scholarships, of £30 per annum each, have been added to the patronage of the college, from the donation of the Rev. Francis Gisborne, late Fellow of Peterhouse.

This Foundation will bear the name of the donor. The two Gisborne Fellowships are tenable for seven years, and any person may be elected from one of them into a Foundation Fellowship before he is of standing to take his M.A. degree. The Fellowships are vacated by marriage, or by the possession of any permanent income amounting to £250 per ann.

The Scholarships, forty-eight in number, of different value, are paid in proportion to residence. A few of them are in the patronage of Lord Melbourne, and preference is given to scholars from Hertford School. There is an exhibition from the company of Clothworkers, and one from the Ironmongers. The Bishop of Ely appoints to the Mastership one of two candidates presented to him by the society. The candidates must be Bachelors in Divinity; one of the north, and one of the south side.

Annual Prizes are given, together with Scholarships to those who are most successful in the Midsummer Examination.

This ancient College, Hall, or House, consists of a Master, ten Senior or Foundation Fellows, nine

Note. All the Livings marked † are tenable with Fellowships, and those marked * are discharged from the Payment of First Fruits.

§ Annexed to the Mastership by an Act of Parliament.

† The Master of the college has the alternate presentation with Bernard Wigg, Esq. of Brook, in Norfolk.

Junior*, and three bye-appropriation Fellows, besides Scholars, Students, and Foundation servants. The Fellows are all natives of England, or rank as such. A candidate for a Fellowship must be a Bachelor of Arts, or a higher degree; and no one is ever superannuated, or incapable of being a candidate, on account of age or length of standing in the University. An election must take place within ten weeks and three days after a Fellowship has become vacant. The electors are, the Master, Senior and Junior Fellows; and, in case there be an equal division, the Master has the casting vote. The Master is elected by the above-mentioned Fellows within eleven days after a vacancy is known, and a candidate must be either a Bachelor or Doctor in Divinity. Fellows neglecting to take the degree of M.A. at the regular time, are punishable by a fine; but the degree of B.D. has not of late been required. The Seniors must all be divines except two, who, with the consent of the Master and major part of the Fellows, may practice Law and Physic. There cannot be more than two Fellows of the same county in the seniority, or a majority born in the *transtrentane* counties, which are the following:—Northumberland, Cumberland, Westmoreland, Durham, Yorkshire, Lancashire, Derbyshire, and Nottinghamshire.

The nine Junior Fellowships, founded by different benefactors, (*viz.* three by Lord Exeter in 1612, two by John Freeman, Esq. in 1622, and four from the estates bequeathed to the college by Joseph Diggons, Esq. in 1658) are perfectly free from all restrictions as to county. Of these, two may be held by Laymen, the other seven require Priest's Orders after a certain standing. They enjoy the same privileges as the Seniors, and the only thing to be considered is, whether a person when elected a Junior is likely to be obstructed or thrown out of his rotation in becoming a Senior. For with regard to the choice of college livings *seniores priores*, and this is determined by priority of election into the Seniority.

The three bye-appropriation Fellows have no voice in any college business, can hold no college office, and

* The present Master, and Senior Fellows have, from the improved rental of the estates bequeathed to them by Mr. Joseph Diggons, added two Fellowships to the seven they formerly had.

are incapable of being ever elected into any other Fellowship. They are obliged to take Priest's orders within seven years after they are Bachelors of Arts. Two of these Fellowships, founded by Mr. Philpot, are appropriated to natives of Kent, with a preference to those born in the hundred of Blackheath. The third was founded by Mr. Borage, for his name and kindred, or a Norfolk or Norwich man. This Fellowship is not tenable by a Non-Regent Master of Arts.

There are eight Scholarships lately increased, four of which are £50. per annum each, and the other four £20. each, besides a weekly allowance in the butteries of 3s. 3d. during residence. They are tenable by undergraduates only, and are so arranged that one on each foundation shall be vacant every year.

One founded by Sir John Trott, value £20. per ann. and tenable till M.A.

Two by Mr. Cave, appropriated to scholars from Wakefield school, value one guinea and a half each per week during residence.

One by Alexander Metcalfe, appropriated to a scholar from Hull School, value 12s. per week during residence.

Besides these there are upwards of thirty other Scholarships, varying in value from two to six shillings per week, and are allowances in the butteries during residence.

All the above Scholarships (except the three specified) are perfectly open to all competitors, and the annual examination takes place on the same Monday and Tuesday as the Senate-House Examination for the degree of B.A.

Four exhibitions of £13. per ann. each, were founded by Archdeacon Johnson, with a preference to persons educated at Oakham and Uppingham schools.

The present Society wish to admit no more than three Sizars.

ANNUAL PRIZES.

One of ten guineas, left by Mr. Greaves, of Fulbourn, to any Bachelor of Arts (not a Fellow of the college) who shall compose the best Dissertation on the charac-

ter of King William III. It must be sent to the Master on or before Michaelmas-day, and that which is adjudged to be the best is recited on the 4th of November, in the hall of the college.

Two silver cups, with appropriate inscriptions, value £6. each, left by Dr. Robert Greene, of Tamworth; the first as the reward of regularity of conduct, the second of general learning.—Both last year adjudged to Ds. Hanson.

Prizes are given for the best declamation and theme; and to the best reader in chapel.

There is also an annual examination immediately before the division of the Easter term, when those who distinguish themselves are rewarded with a prize of books, bearing the college arms.

PEMBROKE HALL.

(FOUNDED, 1343.)

*A copy of the Statutes in the British Museum,
MSS. HARLEY, No. 7034, p. 124.*

This College was founded by Maria de Valencia, Countess of Pembroke, and the Fellowships, sixteen in number, *viz* *fourteen Foundation and two Bye Fellowships (one founded by Bishop Lany, the other by W. Smart, Esq. of Ipswich) are open to men of all counties in this kingdom, with the following restriction: that there shall not be more than three Fellows of any one county. Six of the Fellows must be in Deacon's or Priest's orders, and a candidate for a Fellowship is never considered as superannuated. There are also several Scholarships belonging to this society, worth from £6. to £10. per annum; and three given to Sizars of the value of £12. per annum each. Besides these, there are six founded by the Rev. Charles Parkin, formerly rector of Oxburgh, Norfolk, for superannuated scholars from Merchant Taylors' School, and for one scholar educated at the Free School of Bowes, in Yorkshire: the value of each is £40. per annum, and may be held seven years. In case there are no claimants, they are, without any restriction, in the gift of the Master; one of £50. per annum, left by Dr. Stuart, for a superannuated scholar of Merchant Taylors' School; also others of £30. each, left by Sergeant Moses, to scholars chosen from Christ's Hospital. These scholarships have lately been raised to £40.

* One of these was founded by Archbishop Grindall, formerly Master of this college, and a preference is given by will of the founder, to one educated at St. Bees' School, Cumberland.

Dr. Long, formerly Master of this college, erected a sphere, and ordered that the keeper of the key should be allowed £6. per annum, which is always bestowed upon an undergraduate.

There is annually a mathematical examination at the division of the Easter term, when prizes in books are given to the best proficients in each year.

GONVILLE AND CAIUS COLLEGE.

(FOUNDED 1348.)

A Copy of the Statutes in the University Library.
Mss. Mm. 4. 20.

In this College there are twenty-nine Fellowships; twelve are called Senior Fellowships, being all that were founded at the time of the second charter granted to Dr. Caius, in 1558; of these, three are of the old foundation, open to all counties, and to laymen; three founded by Dr. Caius, to be possessed by Norfolk men, two of whom must be physicians; and the remaining six, all by different founders, two confined to the Norwich Diocese, and the other four open to all counties; one of the six is open to laymen. In all the Senior Fellowships which are not particularly confined, there is, in case of equality among the candidates, a preference given by statute to those who are born in the Norwich diocese. Eight are termed Junior Fellowships, open to all counties, and likewise to laymen, except one, which must be held by a priest born in the Norwich diocese; from these eight the Senior Fellows are elected. Of the remaining nine, six were founded by Dr. Perse, open to all counties, and to laymen, with a preference to Scholars educated three years at the Free Grammar School founded by him in Cambridge, and afterwards elected to a Perse Scholarship; and three by Mr. Wortley, one of which is confined to Devon, and one to Norfolk. There are also seventy-seven Scholarships, of which ten are confined to the natives of the city of Norwich, twenty six others to the Norwich diocese, three to the natives of London, two to Cambridge, two to Hertfordshire, one to Bedfordshire, one to Canter-

bury, one to a person educated at some school in London or Westminster, and the remaining thirty-one are open to all counties. There are likewise fourteen exhibitions, of different value, which are given in addition to the Scholarships.

There is also a Scholarship in Chemistry of £20. per annum, founded by Mr. John Mickleburgh, formerly Professor of Chemistry in this University; and four Studentships, now above £100. per annum each, founded by *C. Tancred, Esq. for Students in Physic; whenever a vacancy occurs, the successful candidate, if of another college, is obliged to remove to Caius. These students are required to take the degree of Bachelor in Physic as soon as they are of sufficient standing for the same, and they may hold the Studentships for three years after their degree. Those therefore who are elected previous to admission to any college, can hold them eight years. The present possessors are, Poole, Briggs, Burrows, and Pinckard.

The electors to the Studentships are, the Masters of Christ and Caius College, the President of the College of Physicians, the Treasurer of Lincoln's Inn, the Master of the Charter House, and the Governors of Greenwich and Chelsea Hospitals.

ANNUAL PRIZES.

Plate to the value of £10. for the best proficient in Mathematics amongst the commencing Bachelors of Arts.

There is an annual examination of the Junior Sophs and Freshmen at the division of the May Term, when two prizes in books, of five and three guineas value, are given to the two best proficient in Classics of the two years.—Last year adjudged to Pinder and Jerrard.

The Mathematical examination is at the end of the October term, when two of the like value are given to the two best in Mathematics among the Sophs; and two others of the same value to the two best in Mathematics among the Junior Sophs.

* C. Tancred, Esq. (who died August 1754) also founded four Studentships of nearly the same annual value, appropriated to Law, to be held only by Students of Lincoln's Inn, who are not required to be Members of the University.

TRINITY HALL.

(FOUNDED 1350.)

Copies of the Statutes in the British Museum,
MSS. HARLEY, No. 7029, p. 385.

At this College, more peculiarly appropriated to the study of Civil Law, there are twelve Fellowships, unrestricted as to counties. Bishop Bateman, the founder and noble benefactor of this institution, originally intended to have augmented the number to twenty; but

† To this Living the Master may nominate any one of the Senior Fellows.

dying before the designed foundation was completed, (*viz.* A.D. 1355, at Avignon,) his legacy was only deemed sufficient for the maintenance of a Master, three Fellows, and two Scholars. The nine remaining Fellowships were founded by the following benefactors:—Two by Simon Dalling; three by Bishop Nix; one by Robert Goodknape; one by Dr. Hewke; one by Dr. Mowse; and one by the college. It is usual that ten of the Fellows should be laymen, and two in holy orders. The Fellowships are ordinarily held by Graduates in Civil Law. Graduates in Arts, not of less standing than within one year of the degree of M.A. and Students of three years' standing in Civil Law, are eligible.

The Scholarships, worth two shillings a day each, during residence, are fourteen in number: two founded (as before-mentioned) by W. Bateman, Bishop of Norwich; one by Simon Dalling; one by Mr. Spicer; two by Bishop Nix; one by Lawrence Mapetyde; one by Gabriel Dunne, Esq.; two by Dr. Hervey; one by Archbishop Parker; two by Dr. Busby; and one by Dr. Mowse. There are also two, of which the present value is about £12. per annum each, founded by Dr. Allen, with preference—first, to founder's kin; secondly, to Scholars from the Free Grammar School at Richmond, Yorkshire; thirdly, to Scholars from any other School in Yorkshire; fourthly, to Scholars from the Norwich diocese; and fifthly, to Scholars from the town or county of Cambridge. A provision of about £60. per annum, including a Scholarship, is annexed to the offices of Chapel Clerk and Librarian, for holding which the college admits one resident Sizar*.

ANNUAL PRIZES

Are given in books to the best proficient at a general examination.

Prizes are also given for the best Exercises in English and Latin Composition.

* Rewards of 20*l.* each, are henceforward to be given annually at Easter, to the two most deserving among the scholars in the third year, and an additional prize to the best proficient in Mathematics, at the end of the second year.

CORPUS CHRISTI COLLEGE.

(FOUNDED 1351.)

Copy of the Statutes in the University Library.

Mss. Gg. 4. 8.

At this College there are twelve Fellowships; two are appropriated to the city of Norwich; the rest are open, only with this restriction, that four of the number shall (if it may be) be natives of Norfolk. All the Fellows are required to take orders within three years after their election, and B.D. within eight years after the degree of M.A.

The Scholarships and Exhibitions are as follow:

* Nine on the old foundation not appropriated.

Three 1567, two 1569, by Archbishop Parker; patrons, the Mayor and Aldermen of Norwich. The former are appropriated to men born at Norwich; the latter to natives of Norwich, Wymondham, or Aylsham, students of their respective schools.

§ Three, 1569.—The right of nomination belongs 1st. To the Dean and Chapter of Canterbury, who are to appoint such sons of their Norfolk, Suffolk, and Lincolnshire tenants as are educated at the school of that city: 2dly. To the Dean and Chapter of Westminster, for students from Westminster school. 3dly. To the Master and Fellows, for students from any seminary in the province of Canterbury. Value £20. a year.

Note.—All the Scholarships marked § were founded by Archbishop Parker, and to those with the asterisk preceding, the Master and Fellows are the patrons.

* All the Scholarships to 1618 inclusive, vary from 1s. to 2s. 3½d. a week; and to those founded in 1567, 1569, (except that founded by Meres) 1574, and 1577, nine rooms are appropriated.

§ Two, 1569, patrons, the Dean of Canterbury and the Master of Eastbridge Hospital, appropriated to natives of Kent, educated at Canterbury school.

§ One, 1574, patrons, the Mayor and Aldermen of Norwich; appropriation the same as in the other scholarships of this patronage.

* One, 1652, by John Meres, appropriated to a native of Cambridgeshire.

Six, 1577, By Sir Nicholas Bacon, Lord Keeper; patrons, 1st. Heirs male of Sir Nicholas, with the advice of a Fellow sent by the college, and the Master of Redgrave School. 2dly. The Master and Fellows. Appropriation, 1st. To students from Redgrave School. 2dly. In default of such, to any students.

Three, 1580, by John Parker, Esq.; patrons of one, the Archbishop of Canterbury; of the other, the Master and Fellows. Appropriation, the Archbishop to appoint a native of Canterbury, from the school there; the Master and Fellows, natives of Aylsham and Wymondham, educated at their respective schools.

Four, 1695, by Roger Manners, Esq. unappropriated; patrons of three, the Master and Fellows; of the fourth, the Master only.

* Three, 1618, by Alice Caston, not appropriated; the names of Caston Clenche, Brownrig, and Amfield, to have a preference.

* One, 1636, by John Borage, value £5. a year; the name and kindred of the founder to be preferred; in default of such, a native of Norfolk or Norwich.

* One, 1659, by Edward Colman, value £20. a year; appropriated to one or more of the founder's name; in default of such, to four scholars from Norwich and Wymondham schools.

* Two, 1677, by Archbishop Sterne, value £10. a year each; appropriated to natives of York and Mansfield; 2dly, to natives of the York diocese.

One, 1693, by Dr. Spencer, the Master patron; value £20. a year, not appropriated.

* Three, 1700, by Samuel Chapman, value 1s. a week.

* Four, 1766, by George Sykes, value £10. a year each; appropriated to students from St. Paul's school.

One, 1781, by John Stock, Esq. patrons, Governors

of St. Paul's school; value £30. a year, with the accumulation during a vacancy, except £15. paid to the college: appropriated to a student from St. Paul's school.

* Twelve, 1794, by Bishop Mawson, given to such students as excel in an annual examination; present value, eight of £30. four of £40. a year each.

MANUSCRIPT LIBRARY.

The valuable manuscript library, left by Archbishop Parker to this college, is under the following particular restrictions:—Every year on the 6th of August, it is to be visited by the Masters or locum-tenentes of Trinity Hall and Caius College, with two scholars on Archbishop Parker's foundation, and if on examination of the library, twenty-five books are missing, or cannot be found within six months, the whole collection devolves to Caius. In that case, the Masters or locum-tenentes of Trinity Hall and Corpus Christi College, with two scholars on the same foundation, are the visitors; and if Caius College be guilty of the like neglect, the books to be delivered up to Trinity Hall; then the Masters or locum-tenentes of Caius and Corpus Christi, with two such scholars, become the inspectors; and in case of default on the part of Trinity Hall, the whole collection reverts back to its former order.

ANNUAL PRIZES.

A silver cup, value five guineas, to the best proficients in each year, at an annual examination of the Junior Sophs and Freshmen.—Last year adjudged to

Tinklar 2d year.
Scaplehorn 1st year.

A silver cup, value five guineas, for the best Latin Declamation.—Last year adjudged to Steward.

A silver cup, value five guineas, for that Bachelor of Arts who ranks highest in the first Tripos.—This year adjudged to Ds. Wells.

KING'S COLLEGE.

(FOUNDED 1441.)

Copies of the Statutes in the British Museum, MSS. HARLEY, No. 7323.—A Specimen in the University Library, MSS. BAKER, Vol. xxxii. p. 219.

This royal foundation consists of a Provost and seventy Fellows and Scholars; the latter are supplied by a regular succession from Eton college, which was founded and endowed about the same time, by King Henry VI. The society of Eton now consists of a Provost, seven Fellows, and seventy Scholars; and the vacancies at King's for the last twenty years, have averaged at about four in the year. The time of electing scholars into the royal foundation of Eton, is about the end of July or beginning of August; at which time a general examination as to their proficiency in classics takes place, before the Provosts of each college, the Vice-Provost and Head-Master of Eton, and two *posers* or examiners nominated by King's. After such examination the scholars are placed in the order of their future succession to King's, and on a vacancy in the latter, they are admitted upon that foundation; and after the expiration of three years from the day of their admission, they are chosen *Fellows.

Some *peculiar* privileges appertain to King's. The Provost has absolute authority within the precincts; and by special composition between this society and the University, its undergraduates (under certain restrictions) are exempt from the power of the Proctors and other University Officers, within the limits of the col-

* This and Trinity Hall are the only colleges at which undergraduates can be elected Fellows. Here, however, they are obliged to take both Bachelor's and Master's degree in the University when of sufficient standing, or otherwise they will not be entitled to the full proportion of their dividends.

lege; neither by usage do they keep any public exercises in the Schools, or are any way examined for their Bachelor of Arts degree.

ANNUAL PRIZES.

Dr. Cooke (formerly Provost) left six pounds to such scholar or scholars as shall be adjudged to have deserved well by application to their studies and general orderly behaviour.—Last year adjudged to Chapman, Barnard and Le Mann.

Dr. Glynn bequeathed twenty pounds, to be equally divided towards the end of Easter term, between such scholars of the said college, as have in the course of the year been most distinguished for learning and regularity of conduct.—Last year adjudged to Best and Hamilton.

There are two five pound prizes for declamations, left by Dr. James, to which the college has added two of the same value.—Last year adjudged to Hamilton and Loft.

Visitor, The Lord Bishop of Lincoln.

QUEEN'S COLLEGE.

(FOUNDED 1446—RE-FOUNDED 1465.)

The Statutes have been printed, for the use of the Society. Copies exist in Univ. Library, MSS. BAKER, XXXII. p. 241. also Brit. Mus. MSS. COLE, XLVII. p. 357.

This College was founded by the two Queens, Margaret of Anjou, Consort of Henry VI. (in 1446,) and Elizabeth Widville, Consort of Edward IV. (in 1465.)

The President must be elected by a majority of the whole existing body, on the eighth day after a vacancy, and must be (at least) a B.D. possessed of property to the amount of 20*l.* per annum.

There are nineteen Foundation Fellowships. This number may be increased or diminished under certain circumstances pointed out by the statutes. They are restricted as follows:—In general, there can be only *one* Fellow of a county and *two* of a diocese. Middlesex, however, has a title for two Fellows, which, (though not

in the statutes) was declared valid by the Lord Chancellor, giving judgment for the Visitor, in 1821; there may be also two Fellows for any county in which the college has property sufficient for the maintenance of a Fellow (this privilege is said to include Cambridgeshire, Essex, Huntingdonshire, Kent, and Surrey). There may be three Fellows for the diocese of Lincoln; there may be also three Fellows for the diocese of York, the third (Trotter's Priest) being admitted upon a particular foundation. Wales must be considered as one county and one diocese; Durham, as part of Northumberland; and Rutland, as part of Northamptonshire. All the Fellows within four years from commencing B.A. must proceed to M.A.; those who are on the ecclesiastical foundation must, within two years from M.A. be in Holy Orders, and within nine years from M.A. proceed to B.D. Trotter's Priest must be in Holy Orders at the time of his election, and, by the will of his founder, is required to preach in York cathedral in the fifth year of his regency. Only two Fellows may remain Laymen, who proceed to M.A. like the rest, and within twelve years from M.A. the one must proceed to D.C.L. the other to M.D. The Vice-President and the five Seniors hold their Fellowships with property; the others recede from the society when possessed of a real annual income stated in the oath before admission. The five senior Divines may hold livings not exceeding 20*l.* and within twenty miles of Cambridge. On the petition of the society, the Crown has frequently *dispensed* with some of the above restrictions.

A *Bye-Fellowship* was founded in 1694, by D. Edwards, gent. This is perfectly open, may be held by a Layman, and is tenable with any property or preferment, except ecclesiastical to a certain amount. It has sometimes been made a step to advancement on the foundation. Edwards' Fellow has no vote in the society, and his privileges consist chiefly in a title to rooms and commons.

The *Scholarships* have recently been consolidated into 26, and augmented by college grants, many of them being inconsiderable: they are payable weekly, but only according to residence, on the following scale:—

Eight *Foundation Scholarships*, 25*l.* per annum; restricted precisely as the Fellowships, with regard to counties and dioceses; but there must always be one of the diocese of Lincoln. Tenable till M.A. standing; but not when in Holy Orders, Vacated, *ipso facto*, if the degree of B.A. be postponed longer than four years after admission into the college. These Scholars are to be preferred *cæt. par.* in the elections to Fellowships.

One *Smith's Scholarship* 20*l.* per annum; with preference to his kin, his name, and Saffron Walden Scholars, then to the name Alston, or to Suffolk men. Tenable till M.A. standing; but not when in Holy Orders.

Three *Smithies' Scholarships*, about 16*l.* per annum; restricted to B.A.'s. Tenable with other Scholarships, till M.A. standing.

Three *Stoke's Scholarships*, 15*l.* per annum; restricted to two of a county, except of Bedfordshire (which is quite open). Tenable till M.A. standing; but not when in Holy Orders. Two of these Scholars are to be the *Chapel-Clerks*, and are eligible to any other exhibitions.

†* Two *Sedgwick's Scholarships*, average 15*l.* per annum, capable of increase to 20*l.* but subject also to diminution: one restricted to Bucks, the other to Northamptonshire; (sons of poor Clergymen to be preferred). Require residence of *whole* terms; vacated, *ipso facto*, by absence of *two* terms. Tenable with other Scholarships, or even Fellowships, till M.A. standing.

†* One *Clarke's Scholarship and Librarianship*, 15*l.* per annum.

One *Mountaigne's Scholarship*, 13*l.* per annum. Tenable till M.A. standing.

Two *James's Scholarships*, 13*l.* per annum. Tenable till M.A. standing.

Three *Clarke's Scholarships*, 10*l.* per annum. Tenable till M.A. standing.

Two *Davenant's Scholarships*, 9*l.* per annum. Tenable till M.A. standing.

†* The Scholarships thus marked are in the sole appointment of the Master; the rest, of the Master and Fellows present.

ANNUAL PRIZES.

One for the best Composition in Divinity by a Bachelor of Arts, 10 guineas.—Last year given to Ds. Hustwick. A second prize was also adjudged to Ds. Farish.

Two to the best proficient in Mathematics, of the third and second year, five guineas each.—Last year the first was given to Julian, and the second to Stuart, jun.

Two for the best Latin Declamations by Undergraduates, five guineas each.—Last year adjudged to Hooper, and Clark, sen.

CATHARINE HALL.

(FOUNDED 1475.)

A Copy of the Statutes of this College is not known to be lodged in any public repository.

This College or Hall was founded by Robert Woodlark, D.D. Chancellor of the University and Provost of King's College, for a Master and three or more Fellows. Accordingly, the Visitors who were sent down to the University by King Edward VI. ordained, that there should be then six Fellows, and that for the future there should be a greater or less number in proportion to the revenues of the college. The Fellows must be natives of England, and there cannot be more than two of the same county at the same time; two of them at least must be in Priest's and one in Deacon's orders. Whenever a vacancy occurs, the senior who is not in such orders must take them in the course of a twelvemonth, unless a junior does of his own accord, or he vacates his Fellowship.

There are also eight Bye Fellowships, founded by subsequent benefactors:—

One by Mr. Frankland, which is appropriated to a man educated at Coventry School; and the Master and Fellows, who are the electors, are required by the founder to have a careful regard to the recommendation of the Mayor and Aldermen of Coventry.

One by Mr. Holway, which is called the Conduct Fellowship.

Six by Mrs. Mary Ramsden, with a preference first to natives of Yorkshire, then of Lincolnshire; and in case no such candidates duly qualified offer themselves, they are open to men of any county. They

are not required to take orders. All persons are ineligible to these Fellowships who are 24 years of age.

The Fellows on this foundation are called Skirne Fellows.

Mrs. Ramsden also founded ten Scholarships, with the same preference to Yorkshire, and Lincolnshire men, which are now 35*l.* per ann. each, with chambers rent free.

Mr. Frankland also founded one of 10*l.* per ann. which is appropriated to a person educated at Tamworth School.

Mr. Holway founded two of 6*l.* per annum each, which are appropriated to persons educated at Eton, or Merchant Taylors' School.

There are also three Scholarships of 20*l.* 14*s.* 4*d.*—eight of 25*l.*—one of 12*l.*—five of 5*l.*—seven of 4*l.*—two of 3*l.* 6*s.* 8*d.*—two of 2*l.* 13*s.* 4*d.*—and two of 2*l.* per ann. each; all perfectly open.

Bishop Sherlock founded the Librarianship, worth 20*l.* per annum, with rooms rent free. He also considerably augmented the salary of the Master's Sizar, present value 32*l.* per annum, with chambers rent free. The Chapel Clerk receives 20*l.* per annum and Commons, with chambers rent free.

ANNUAL PRIZES.

Books to the value of 5*l.* are given on the Thursday preceding the division of Midsummer Term, to the best proficient in classics on Mrs. Ramsden's foundation.—Last year adjudged to Vinall.

There is annually a Classical and Mathematical examination of the Junior Sophs and Freshmen at the division of the Easter Term, when prizes in books are adjudged to the best proficient in each year.

JESUS COLLEGE.

(FOUNDED 1496.)

A Copy of the Statutes in the University Library, Mss. GG. 3. 42, and in the British Museum, Mss. HARLEY, No. 7044, p. 1.

At this College, founded by John Alcock, Bishop of Ely, there are sixteen Foundation Fellowships; five of the original foundation, four founded by Dr. Fuller, Master of the college, and the rest by various benefactors. Six of the Fellows are required to be in Priest's orders. The restrictions here are, that eight shall be held by persons born in the northern, and eight by those in the southern counties. Leicestershire, Worcestershire, Wales, Nottinghamshire, Warwickshire, Derbyshire, Lancashire, Cheshire, Staffordshire, Yorkshire, Cumberland, Westmoreland, Northumberland, and Durham, are considered in the northern division; all the rest southern. On every vacancy of a Fellowship, the Master and Fellows nominate two candidates, of whom the Bishop of Ely elects one. There is one Fellowship founded by James Stanley, Bishop of Ely, to which the Bishop has an exclusive right both to nominate and appoint. If when this Fellowship becomes vacant, the Bishop chooses a person of that side on which there is already the full number, the next vacancy on that side is supplied by a candidate from a county on the opposite side. The Mastership of this college is in the absolute appointment of the Bishop of Ely.

The following is a list of the principal Scholarships and Exhibitions, founded by different benefactors:—

Four, £10. per annum each, appropriated to natives of Nottinghamshire and Yorkshire.

Eleven, from £40. to £50. per annum each, for clergymen's orphans of all counties in England and Wales. The possessors of these Scholarships, founded by Tobias Rustat, Esq. have a classical examination annually on the Thursday in Easter week, at which time, according to their respective merits, a gratuity to each from £20. to £30. (included in the above sum) is given. The visitors are, the Vice-Chancellor, the Provost of King's, the Master of Trinity, and the Master of Jesus; and in case of the non-attendance of any of these four, the Master of St. John's (*a*).

One, £40. per annum, or thereabouts, to the son of a living clergyman, with preference to a native of Nottinghamshire or Lancashire *cæteris paribus*. The possessor of this Scholarship is subject to the same examination and rules of residence as the Rustat, but receives no gratuity (*b*).

One, £15. per annum, or thereabouts, to the son of a clergyman, with preference to an orphan, equally open to all counties. Examination and rules of residence similar to the Rustat, but no gratuity (*c*).

Three, £8. per annum each, or thereabouts, open to all.

One, £2. per annum, open to all.

One, £10. per annum, or thereabouts, for a scholar from Doncaster or Arksay Free Schools.

Two, £70. per annum each, for persons educated at Seven Oaks and Tunbridge Schools (*d*).

Two, £16. per annum each, left by Dr. Gatford, open to all clergymen's orphans, and tenable from the degree of B.A. to that of M.A. (*e*).

One, £6. 8s. 6d. per annum, for persons from Caistor, Louth, or Alford Schools, or to natives of Lincolnshire.

One, £3. 6s. 8d. per annum, to a native of Lancashire, Hertford, Cumberland, or Essex.

Two, £4. 10s. per annum each; one to the county of Anglesea or Merioneth, the other of St. Peter the Poor, or St. Foster, in London.

One of £60. or two of £30. per annum or thereabouts, to persons educated at Loughborough School (*f*).

Fifteen Foundations, value £3. per annum each, or under, according to residence, open to all counties.

ANNUAL PRIZES.

Books to the value of £6. for the best Latin and English Declamations. Adjudged last year to Andrews and Mr. Lake.

Twenty pounds per annum to one or more deserving Bachelors. Of this sum, £10. in plate, to the best proficient in Mathematics, if a Wrangler; or £6. in books, if a Senior Optime. The former gained this year by Ds. E. Otter.

There is an examination of the Junior Sophs in Classics, and Freshmen in Mathematics, about the division of the Easter Term: and before the division of the following Michaelmas term there is an examination of the same persons, the former in Mathematics, and the latter in Classics.

CHRIST COLLEGE.

(FOUNDED 1505.)

Copies of the Statutes in the British Museum, MSS. HARLEY, No. 7046, p. 155.—No. 7044, p. 61.—No. 3848, and No. 7352.

This College was originally founded (1456) by King Henry VI. under the name of God's House; and consisted of a Master, three Fellows, and twenty-five Scholars. The building occupied the present site of King's College Chapel, and was removed to make room for that noble structure to its present situation.

In 1505, Lady Margaret, Countess of Richmond and Derby, mother of King Henry VII. changed the name, incorporated the former society and its revenues with the present college, and endowed it liberally, to maintain a Master and twelve Fellows. This foundation is for Divinity, and the Fellows are required to take Priest's orders within twelve months after they have attained the proper age. The only appropriation of these Fellowships is to the counties of England and Wales: and the restrictions are, that there shall not be two natives of the same county Fellows at the same time, and that there shall be *six*, and only *six*, of the following nine counties, *viz.* Northumberland, Cumberland, Durham, Westmoreland, Lancashire, Derbyshire, Nottinghamshire, Yorkshire, and Richmond (this *cum adjacentibus* the Countess calls a county).

King Edward VI. added another Fellow, who shares in emoluments with those on the original foundation. He may be of any county, and is not obliged to take Holy Orders.

Sir John Finch and Sir Thomas Baines founded two more Fellowships, unappropriated as to county, but with preference to the kindred of the founders; the revenues are independent of the college. They may be held by laymen.

These fifteen Fellows have an equal claim to the college patronage, and are allowed by the statutes to hold preferment with their Fellowships, provided it does not exceed the value of ten marks, after the deductions found in the *Liber Regis*. By Queen Elizabeth's licence, the five senior Clerical Fellows are empowered to hold any livings with their Fellowships, provided they are below £20. in the *Liber Regis*, and *infra viginti miliaria Cantabrigiensis Academiae*.

Lady Margaret founded forty-seven Scholarships of two shillings, now augmented to fifteen shillings per week during residence. Three persons only of the same county can be scholars at the same time. The society has moreover agreed to give the sum of £150. annually to the three Scholars, who shall most distinguish themselves at the annual Examinations.

Besides these, twenty-five other Scholarships have been founded by private benefactors, appropriated as under:—

Six, to scholars educated at Giggleswick school, Yorkshire.

One, to a scholar from Upton school, Hunts.

Three, to persons coming from Kirby Lonsdale school, Westmoreland.

One, to a scholar from Brentwood, Malden, or Chelmsford schools, Essex.

One each, to natives of Newmarket and Huntingdon.

One each, to persons born in the counties of Durham, Suffolk, and Bedford.

Three, to persons born in the county of Norfolk.

Four, value £12. per annum each, for scholars educated at Buntingford grammar school.

Six, open to all schools and counties.

Christopher Tancred, Esq. founded four Divinity Studentships*, which now amount to £113. 8s. per ann. and are tenable till M.A. The present possessors are, Sams, Gilpin, Fitch, and Apthorp.

He likewise founded a Scholarship for a native of Newmarket, or in failure thereof to the county of Cambridge.

Dr. Porteus, late Bishop of London, in 1807, transferred stock to the amount of £1200. the interest of which is to be expended in the purchase of three gold medals, to be contended for by the students of this college, in the following order:—One medal of 15 guineas for the best Latin Dissertation on some evidence of Christianity; last year adjudged to Groves; another of 15 guineas for the best English Composition on some Moral Precept of the Gospel; last year adjudged to Cartwright; and one of 10 guineas to the most distinct and graceful reader in, and regular attendant at, chapel.—The reading prize was adjudged to Romilly, sen.

ANNUAL PRIZES.

There is an annual examination of the Junior Sophs and Freshmen, and two prizes of books, of three and two guineas value, are awarded to the two best proficients in each year.

§ The college nominates two Fellows, Lord Berkeley must present one of them.

ST. JOHN'S COLLEGE.

(FOUNDED 1511.)

Copies of the Statutes in the British Museum. Mss. HARLEY, No. 7050, (printed in the 5th Report of the House of Commons on Education, p. 404.) and in the University Library, Mss. BAKER, Vol. xxix. p. 1.

This College was founded by Lady Margaret Countess of Richmond and Derby, mother of King Henry VII. and foundress of Christ college. The original endowment was for fifty Fellows; but part of the foundation estates having been seized by King Henry VIII. the funds were found to be sufficient for thirty-two only. These are now open to natives of England and Wales, *without any restriction or appropriation whatsoever*†. One of them, however, is in the appointment of the Bishop of Ely, but he is to elect according to the statutes in every respect, agreeably to an arrangement between James Stanley, Bishop of Ely, and the executors of the Countess of Richmond. In this case, the Master is Visitor to the Bishop.

There are also 21 founded by different benefactors, which have all the privileges of the other Fellowships, and an equal claim to the college Patronage.

Candidates for Fellowships must be B.A. at least; and no person is superannuated, provided he has proceeded regularly to his degrees. This being a divinity college, the Fellows are obliged to be in Priest's Orders within six years from the degree of M.A. except four, who are allowed by the Master and Seniors to practise Physic and Law. The rest must proceed to the degree of B.D. at the regular time. The electors are, the Master and eight Senior resident Fellows, in whom is

† By Letters Patent from his present Majesty.

vested the entire management of all college concerns; and the day of election is the second Monday after Mid-lent Sunday.

The following are the founders of the appropriated Fellowships:—

Four by Mr. Ashton; two appropriated to the county of Lancaster or Diocese of Chester; one to the county or diocese of York; and one to the bishoprick or diocese of Durham.

One by Mr. Bailey, which was augmented by his executor, to the parish of Tamworth, or to the county of Stafford or Derby, or the diocese of Lichfield and Coventry. The person elected must be a Priest at 24 years of age, or within twelve months after.

Two by Mr. Beresford, to the name and kin of the founder; then to the parishes of Chesterfield, Wirksworth, and Ashbourne, Derbyshire; or Alconfield, Staffordshire; and next to the counties; and for default of such, to the most apt and able within the University, after the form of the statutes of the college.

One by Sir M. Constable, to a priest of the county of York.

One by Bishop Dee, to his name and kin, from Peterborough or Merchant Taylors' School.

One by Dr. Fell, to Forness Fell, Lancashire.

Two by Mr. Gregson, one to the county of Lancaster, and one to the county of Norfolk.

One by Mr. Heblethwaite, and two by Dr. Lupton, to be chosen from scholars on their foundation from the Free Grammar School of Sedbergh, Yorkshire.

Two by Dr. Keyton, to the choristers of Southwell, Notts.

One by Lady Rokeby, to Beverley, or the county of York. The person elected must be in Priest's Orders within six months after election.

One by Mr. Halytreholm, to Beverley, or any place in the county of York, adjacent to the same. The Fellow must be in Priest's Orders within twelve months from the time of election.

One by Mr. Simpson, to Cumberland, Northumberland, Westmoreland, or Richmond, in Yorkshire.

One by Dr. Thimbleby, to the county of Cambridge. To most of the preceding appropriations, however,

is added the following or a similar limitation:—"If any such person in learning and manners be found, and virtuous and disposed to learning," &c. and in default of these qualifications, then the said Fellows to be chosen of such persons "as be most singular in manners and learning, of what county soever they be, and be then abiding in the said college and University."

In addition to the preceding Fellowships there are three founded by Mr. Platt, which have been increased by the college; open to all candidates, but perfectly distinct from the rest. These Fellows are not entitled to the same privileges as the others; they cannot hold any college office, or succeed to a foundation Fellowship or living.

The number of Scholarships at this college is one hundred and fourteen; four of which, founded by Mr. Platt, have been since increased by the college to nine; and are tenable, like the Fellowships founded by him, by candidates born in any county. Nine likewise, founded by the Duchess of Somerset, have been augmented by the society to sixteen; and are appropriated to men educated at Manchester, Hereford, or Marlborough schools. The remainder unappropriated, by various benefactors.

There are also a considerable number of Exhibitions of different value, the principal of which are the following:—

One, about 100*l.* and two 15*l.* per ann. each, founded by Mr. Nadin, for students in divinity; founder's kin, or men born in the province of Canterbury.

One, 16*l.* per ann. left by Mrs. Jones, to her kindred, or natives of Shropshire.

Two, about 10*l.* per annum each, founded by Mr. Robins, to founder's kin or men born in Kent.

Two, 20*l.* per ann. each, for scholars from Grantham School, Lincolnshire.

Four, about 12*l.* per ann. each, left by Mr. Hewytt, for Scholars from Linton School, Yorkshire.

Two, about 10*l.* per annum each, by Dr Gower, for clergymen's sons, with preference to those educated at St. Paul's, London, or the Free School, Dorchester.

Four, about 15*l.* per annum each, by Archdeacon Johnson, for scholars educated at Oakham or Uppingham Schools.

Thirty unrestricted, about 20*l.* per ann. each, left by Sir Ralph Hare, Knight of the Bath.

Six, about 10*l.* per ann. each, left by Mr. Baker, with preference to founder's kin.

Four, about 15*l.* per annum each, for scholars from Shrewsbury School.

Three, about 7*s.* per week during residence, by Mr. Mount Stephen, with preference to Scholars from Peterborough School.

Four, 70*l.* per annum each, for seven years, for scholars from Shrewsbury School.—Electors, the trustees of that school.

One, 17*l.* a year, to a scholar educated at some school in Shropshire.—Patron, Wm. Cludde, Esq.

Mr. Wright left about 120*l.* per ann. to be disposed of at the discretion of the Master and four Seniors.

Sir Isaac Pennington directed by his will that good Exhibitions should be given to students born in the parishes of Hawkshead and Colton. Their number and value are at the discretion of the Master and Seniors.

A sermon is preached by one of the Fellows every year at Hatfield, the second Sunday after St. Michael, and at Burleigh on the Sunday after St. Luke.

All livings under 30*l.* in the King's books, are tenable with College Preacherships, which are thirteen in number.

ANNUAL PRIZES.

£5. to the best proficient in Moral Philosophy, among the commencing Bachelors of Arts, whose names have appeared in the list of honors. The examination and decision of the prize are usually before the publication of the first Tripos. The Master appoints the examiner; last year adjudged to Ds. Newton.

Those who are in the first class at two general examinations, one about the 16th of December, the other about the 6th of June, are entitled to a prize of books.

Those also whose Theme, Verses and Declamations are thought deserving of notice receive a similar reward.

About 100*l.* is allotted annually for the above purposes.

The Rev. W. Wilson has given prizes of books to the best readers of the lessons, whose general good conduct entitles them to the approbation of the college.

MAGDALENE COLLEGE.

(FOUNDED 1519.)

*A Copy of the Statutes in the British Museum,
MSS. SLOANE, No. 3644—10.*

IN this College, founded by Thomas, Baron Audley of Walden, there are four Foundation and thirteen Bye Fellowships, which (two excepted) are equally unrestricted as to counties. All the other Fellows are required to take Orders within three years after election "*si ita Magistro videatur bonum.*"

The Foundation Fellowships were left by Lord Audley. The Bye Fellowships were founded by the following benefactors:—

Two by Mr. Smith, and an estate at Longstanton, Cambridgeshire, left for their maintenance; the Fellows are obliged, by the will of the founder, to proceed to the degree of B.D. at the regular time (*a*).

Two by Dr. Goch, may be held by laymen, if the Master pleases (*b*).

Two by Mr. Dennis, ditto (*c*).

Two by Sir Christopher Wray, ditto (*d*).

* This college and Brasenose college, Oxford, present alternately.

† The Living of Brandesburton must be filled up within one month after it is vacated.

One by Lady Ann Wray, ditto (*e*).

One by Mr. Spendluffe, tenable for five years only (*f*).

One by Dr. Millington, appropriated to Shrewsbury School (*g*).

One, a Travelling Fellowship, left by the Rev. Drue Drury, worth upwards of £100. per annum, but tenable for only nine years, and appropriated to the county of Norfolk. The Master has the sole appointment to this Fellowship, and the person must be either in holy orders or designed for such (*h*).

One by the Countess of Warwick (*i*).

Mrs. Margaret Dongworth, by a legacy, augmented four of the smallest Bye Fellowships.

The Mastership of this college is in the gift of the possessor of the estate at Audley End.

The following Scholarships were founded by the undermentioned benefactors, and amount annually to ten hundred and fifty pounds:—

No.		£.	s.	d.	
4	J. Millington, D.D. appropriated to } Scholars from Shrewsbury School }	63	0	0	} per annum each.
2	Mr. J. Millington, appropriated to na- } tives of Shropshire }	20	0	0	
2	Mr. Holmes, to scholars from Wis- } bech school }	63	0	0	
4	Mr. Milner, to Leeds, Halifax, and } Heversham schools }	100	0	0	
4	Mr. Groom	10	0	0	
2	Ditto	8	0	0	
2	Mr. Spendluffe	4	0	0	
*1	Mrs. Martha Barnett	5	0	0	
3	Mr. Roberts	3	6	8	
4	James Duport, D.D.	4	0	0	
1	Sir Christopher Wray	22	10	0	
2	Lady Ann Wray	3	6	8	
1	Mr. Hughes	2	13	8	
2	Countess of Warwick	25	0	0	
6	Mr. Smith	4	0	0	

In default of Shrewsbury men, the Scholarships on Dr. Millington's foundation are tenable for three years by natives of any county.

* In the gift of the Haberdashers' Company.

The Chapel-Clerk receives £12. per ann.—The two waiting Sizars, one £4. the other £2. per ann. An annual Pepysian Prize of £50. in the Master's appointment.

The foundation estate of Lord Audley consists of the impropriate parsonage of St. Catherine Cree Church, in London; and also a considerable part of the city, anciently called Covent Garden Christ Church.

ANNUAL PRIZES.

Books to the amount of five or six guineas to the best proficient in each of the two first years, at the annual examination in Classics and Mathematics.—Last year adjudged to Dodd.

An English Declamation prize, value five guineas, given by Lord Braybrooke.

A Latin Declamation prize, value three guineas.

A prize, value two guineas, for the best reader in chapel, last year adjudged to Husband.

TRINITY COLLEGE.

(FOUNDED 1546.)

Copies of the Statutes in the British Museum, Mss. SLOANE, No. 659, (Printed in the 5th Report of the House of Commons on Education, p. 363.) Mss. HARLEY, No. 380. And in the University Library, Mss. BAKER, Vol. xxix. p. 131. 179. — Vol. xxxi. p. 277.

This noble and magnificent College, the Mastership of which is in the appointment of the Crown, was originally endowed by King Henry VIII. and afterwards augmented by his daughter Queen Mary, for the maintenance of a Master, sixty Fellows, and sixty-nine Scholars.

The government of the college is vested in the Master and the eight senior Fellows; and to such of these as are absent, the resident Fellows next in seniority are considered as deputies, without any express appointment.

The Fellows of this society are chosen from the Scholars, ineligible if M.A. or of sufficient standing to take that degree; no appropriation whatsoever: all required to go into Priest's Orders within seven years after they commence Masters of Arts, except two, who are appointed by the Master, and permitted to remain Laymen. The one is supposed to study Law, the other Physic. The Scholarships are open to men of any county, except three or four, which are appropriated to scholars chosen annually from Westminster school; and one of £37. per annum, founded by Mr. Newman, for a native of Kent and Cambridgeshire alternately.

Of the value and number of the Exhibitions, the following is a statement.*

†Four, Dr. Lewis, £8. 6s. per annum each, to four scholars who are natives of North Wales.

One, Lady Jermyn, £7. 10s. to the payment of which Scholarship a non-resident Bachelor is equally entitled.

Appointed by the Master.

One, Mr. Elwes, £6. for a scholar appointed by the Master.

Five, Mr. Perry, £10. per annum each, to scholars from St. Paul's School, London. If the number is incomplete, the £50. is shared equally amongst them.

†One, Mr. Hope, £3. 8s. 8d. for Scholars from Lynn School.

†Two, Lady Verney, (estate at S. Littleton,) for scholars from Cranbrook or Warwick School.

Various benefactions, to the amount of £136. are consolidated and divided among the resident Sizars; to whom also all Noblemen pay two guineas, and Fellow Commoners one guinea each per quarter.—There are only sixteen Sizars upon the foundation, who are entitled to commons, rooms, and the principal part of the emoluments: to these the supernumerary Sizars succeed in the order of their places in the classes at the annual examinations.

ANNUAL PRIZES.

Dr. Paris left a prize of £1. for the best Latin Declamation. The successful student delivers on the 6th of December (the day after the audit) a panegyric upon some illustrious character. A second Latin Declamation prize has been instituted by the college.—These prizes were last year adjudged to Hovenden, sen. and Carus.

Dr. Hooper left three silver goblets as prizes, one of £20. the other two £10. value each, for the three best English Declamations, upon subjects relating to the History of England. The person who gains the first prize, delivers on the Commemoration-day another Declamation on a general subject.—Last year adjudged to Robson, Whitmore, and Hon. W. King.

* Exhibitions marked † are paid by the Representatives of their respective founders.

Any junior Bachelor of Arts who writes the best Essay on the conduct and character of King William III. is entitled to a prize of £10. left by Mr. Greaves of Fulbourn.—Last year adjudged to Ds. Young.

Two prizes have been instituted by the college, for the best compositions in Latin verse; in Lyrical, Heroic, and Elegiac metres: a subject is proposed at the beginning of each Term, and the prizes are awarded to the authors of the *three* exercises, the aggregate merits of which are considered the greatest.—Last year adjudged to Wordsworth and Fitzherbert.

Dr. Walker gave £10. to purchase books for one or more poor Scholars, who shall appear to the Master, Vice-Master, and Senior Dean, most deserving at the time of taking the Bachelor's degree.

The best reader in Chapel receives £4. the second ditto £2. at the discretion of the Senior Dean. Last year adjudged to Shepherd and Hales.

Immediately after the division of the Easter term, the Sophs, Junior Sophs, and Freshmen, are publicly examined in the hall, and divided into classes according to their respective merits; those who are in the *first class* of each year, are entitled to a prize of books, which are distributed on the Commemoration-day. The examiners are, the Head-Lecturer, the Greek and Latin Lecturers, and the four Sub-Lecturers. The following are the respective first classes, as settled at the last examination. EMMANUEL COLLEGE.

(FOUNDED 1584.)

Copies of the Statutes in the British Museum,
MSS. SLOANE, No. 1739.

This College was founded by Sir Walter Mildmay, Chancellor of the Exchequer and Privy Counsellor in the reign of Queen Elizabeth. The number of Foundation Fellowships is twelve; besides one founded by Mr. Gillingham, the possessor of which receives a dividend arising from a distinct estate, but is in most other respects on an equality with the Foundation Fellows. These thirteen Fellowships are open to Englishmen of all counties, with this restriction, that there cannot be more than one Fellow of the same county at the same time; and no man can be a candidate till he has taken the degree of M.A. or is at least B.A. of the third year. He must be twenty-one years of age, and have been six years a member of the University. All the Fellows are obliged to proceed to the degrees of M.A. and B.D. as soon as they are of sufficient standing. The four Seniors are obliged to take Priest's Orders.

Besides these thirteen there are two on Sir Wolstan Dixie's foundation, who are obliged to proceed to their degrees equally with those on the original foundation, but they have no vote in any college affairs, nor any claim to the offices or dividends of the college. Candidates for these Fellowships must have taken the degree of B.A. and must be related to the founder, or have been educated at Market Bosworth School in Leicestershire. The heirs of the founder nominate, and the college admits the nomination. There are likewise four

Scholarships of Sir W. Dixie's foundation, subject to the same restrictions.

The Foundation Scholarships are open to Englishmen of all counties; but there cannot be more than three Scholars of the same county at the same time. The Scholars receive upwards of £12. per annum in addition to the weekly payment of 7s. 6d. during residence. Besides these there are many Scholarships and Exhibitions, founded by various benefactors, to be given to the candidates most distinguished for learning and exemplary conduct.

Five by Dr. Thorpe, of £24. per annum, with a preference, *cæteris paribus*, to the sons of orthodox clergymen.

One by Mr. Hubbard, of £12. per annum, to the best of Dr. Thorpe's scholars

Ten by Mr. Ash, of £10. per annum.

Four by Archdeacon Johnson, of £24. per annum, with a preference to candidates from Oakham and Uppingham Schools.

One by Dr. Smith, of £16. per annum, with a preference to Durham and Newcastle Schools.

Two by Mr. Richards, of £12. per annum, with a preference to Christ's Hospital. The Scholars receive an allowance towards the expence of their B.A. and M.A. degrees.

Four by Dr. Whichcot, of 4s. per week during residence, who are entitled to the same privileges as those of the foundation.

One by Sir Busick Harwood, of £10. per annum, with a preference to a medical student.

There are several others of weekly payments, which, in addition to the former, are given to the most deserving candidates.

ANNUAL PRIZES.

At the division of the Easter term, the Junior Sophs and Freshmen are publicly examined, and a prize of books is given to the two best in each year.

PRIZEMEN, 1825.

First Year.

SIDNEY SUSSEX COLLEGE.

(FOUNDED 1598.)

A Copy of the Statutes in the British Museum,
MSS. COLE, XLVI. p. 193.

At this College, founded by Lady Frances Sidney, Countess of Sussex, there are nine Foundation Fellowships, all open to the natives of any part of his Majesty's dominions. Besides the Foundation Fellowships, there are two founded by Mr. Peter Blundell, appropriated to his scholars of this college; and one Fellowship founded by Leonard Smith, the nomination of which is vested in the Warden and Company of Fishmongers. The Blundell Fellowships are tenable for only ten years after the degree of M.A. but in other respects the Fellows have nearly the same privileges, authority, &c. as the Foundation Fellows.

A Mathematical Lectureship, present value £140. per annum, was founded by Mr. Taylor. The Lectureship is not tenable with a Fellowship, but may be held by a layman.

This is a divinity college, and all the Fellows of every description are obliged to take orders within three years from the time of their election, and the degree of Bachelor in Divinity, at the regular period prescribed by the University Statutes.*

No Fellow of this college derives any benefit from his Fellowship unless he be a Master of Arts complete.

* Seven years after M.A.—*Stat. Acad.* p. 166.

SCHOLARSHIPS.

Twenty Foundation Scholarships, perfectly open, value 7*s.* each per week during residence.

Two Scholarships founded by Mr. Peter Blundell, appropriated to Scholars from Tiverton School.

EXHIBITIONS.

Archdeacon Johnson left four Exhibitions, now £25. per annum each, with preference to those educated at the Schools of Oakham or Uppingham, in Rutland.

Mr. Lovett founded two Exhibitions for clergymen's sons, now upwards of £40. per ann. each ; preference is given to candidates who have been three years at Grantham or Oakham School.

Mr. Bearcroft left two Exhibitions for clergymen's sons, value £12. each per annum.

PRIZES.

An Annual Examination takes place immediately before the Division of the Easter Term, at which Books of the value of £9. are adjudged to such Under-Graduates as most distinguish themselves in Mathematics, and of the value of £6. to those who excel in Classical Knowledge. The Prizemen of last year, arranged according to merit, were :

Prizes are likewise given for the best Latin and English Declamations, and also for the best Themes. There is also an Annual Prize of £10. for the best proficient in Mathematics at the time of taking the degree of B.A. provided his name appear in the first Tripos.— This year adjudged to Ds. Baker.

Visitor,

Sir John Shelly Sidney, Bart.

But in some cases the Vice-Chancellor and two Senior Doctors in Divinity; in others, the Vice-Chancellor and the Masters of Christ's and Emmanuel, are appointed Visitors by the Statutes.

DOWNING COLLEGE.

(FOUNDED SEPT. 22, 1800.)

The Charter and Statutes are printed.

This College will consist of a Master, two Professors (one of the Laws of England and one of Medicine,) sixteen Fellows (two of which only are Clerical,) and six Scholars. The objects of the foundation are stated in the Charter to be Students in Law, Physic, and other useful arts and learning. At present only the Master, Professors, and three Fellows, are appointed, for the purpose of taking possession of the estates, administering the revenues, superintending the building of the college, and for the other necessary purposes. The appointment of the remaining Fellows is reserved until after the erection of the buildings necessary for the college.

The Scholars will also be elected after that period; but not more than two in each year. There are also two Chaplains, nominated by the Master.

The Master has the right of nomination and presentation to this Living, provided he nominates one of the Society.

The Master is elected by the Archbishops of Canterbury and York, and the Master's of St. John's and Clare Hall, from among those who are or have been Professors or Fellows. The electors to the Professorships are the same as to the Mastership, with the addition of the Master.

The Professor of Law must be, at the time of his election, D.C.L. M.A. or B.C.L. of Cambridge or Oxford, of ten years' standing from matriculation, and a barrister at law. The Professor of Medicine must be M.A. licensed to practise Physic for two years, or M.D. or M.B. of Cambridge or Oxford, or a Member of a Scotch University of seven years' standing, and twenty-five years of age, and who shall have attended the medical lectures in one of the Scotch Universities for four years. The Professors are bound to read a course of lectures in their respective faculties, on the usual terms upon which public lectures are given in the University. The Professorships are not vacated by marriage, or by the possession of any property, and the Professors are capable of holding any of the lay offices in the college.

The electors to the Fellowships are, the Master, Professors, and Fellows of the degree of M.A. After the building of the college is completed, the elections will be annually on the 21st of February. All graduates of Cambridge or Oxford are eligible; but, after the completion of the college, Lay Fellows must be under the age of 24, and Clerical Fellows under 30, and above 23, at the time of election. The only restriction is, that there shall never be eight Fellows natives of the same county at one time. While the college remains uncompleted, the elections to Fellowships are at uncertain times, depending upon the vacancies, and not subject to the conditions of the statutes.

The Clerical Fellowships will be tenable for life; and subject to residence for a certain part of each term. The Lay Fellowships continue only for twelve years, and are not subject to any residence. Every Lay Fellow must declare either for Law or Physic. Those who declare for Law must be called to the bar within eight years after their election; and the Medical Fellows must take the degree of M.D. within two years after

they are of sufficient standing. A Lay Fellow may also take orders after six years, without thereby vacating his Fellowship. Under certain circumstances, the four electors to the Mastership have a power to suspend the vacancy of a Lay Fellowship; but this power is limited to two Fellows living at any one time.

The sole founder of this college was Sir George Downing, Bart.* of Gamlingay Park, in this county; who, by a will, dated 20th December, 1717, devised his estates in the counties of Cambridge, Bedford, and Suffolk, first to Sir Jacob Garrard Downing, and afterwards to other relations in succession, and in failure thereof to build and found a college in this University, upon a plan to be approved by the two Archbishops and the Masters of St. John's and Clare Hall. This direction was the reason for giving them the power which they possess in elections and other matters, by the charter and statutes.

Sir George died in 1749, and Sir Jacob in 1764, and (the other devisees having previously died without issue) upon this event the foundation ought immediately to have been carried into execution. But the estates were in the possession of Lady Downing, and afterwards of her devisees, without any real title, and when the University sued in Chancery for the establishment of the college, the party in possession resisted the suit in that court. In 1769, a decree was obtained in favour of the foundation.

The persons named as trustees in the founder's will having died in his life time, the execution of the trusts devolved upon the heirs at law; who, after combating a long series of opposition and litigation, and overcoming obstacles of various descriptions, preferred a petition to the Crown for a Charter; and at length, in 1800, the Privy Council decided to recommend the foundation to his Majesty.

On the 22d of September, 1800, the Great Seal was affixed to the Charter by Lord Loughborough. By this Charter the college is incorporated, with all the privileges belonging to any college in the University, and endowed with the estate devised by the founder, with

* He was installed a Knight of the most honorable Order of the Bath, June 30, 1732.

a power to hold landed property (in addition thereto) to the value of £1500. per annum.

The Charter directs statutes to be framed for the government of the college, which was done in July 1805, and shortly afterwards the stipends of the members began to be paid.

By the statutes, no beneficial leases of the college estates are allowed, nor any fine to be taken for a grant or renewal. It is also provided that no new foundation shall be ever engrafted on this college, which shall be inconsistent with the charter and statutes. But the college may accept any additions to their property in augmentation of the number or value of their present appointments, or to be applied in any other manner consistent with their present constitution.

There is also a power given to the four electors and the Master, to alter the statutes, on application by a certain portion of the college.

The members appointed in the charter were, Francis Annesley, D.C.L. *Master*; Edward Christian, M.A. and Barrister, *Law Professor*; Busick Harwood, M.D. *Professor of Medicine*; John Lens, Serjeant at Law, and M.A., William Meek, Barrister, and M.A., and William Frere, B.A. *Fellows*.

The late Mr. John Bowtell, of this town, who gave by his will a considerable property to charitable uses, bequeathed to Downing College a collection of books, manuscripts, fossils, and antiquities, with a request that the book-cases containing them might be placed in the college library. Among the manuscripts is a History of the Topography and Antiquities of this town, prepared for publication by Mr. Bowtell.

A piece of land of nearly thirty acres having been purchased for the site, and for grounds and walks, on the 18th of May, 1807, the first stone was laid; since which time the building has proceeded at intervals, at the expence of above £60,000. In 1821, buildings sufficient for opening the college, and comprising nearly two sides of a large court, were completed; and in May 1821, undergraduates were admitted to reside and keep terms.

Visitor,

The Crown, by the Lord High Chancellor.

THE SENATE-HOUSE PROBLEMS,

Proposed by the two Moderators to the Candidates for Honors, during the Examination for the Degree of B.A.

MONDAY, JANUARY 16, 1826.

MONDAY MORNING.—MR. KING.

First and Second Classes.

1. FIND the equations to a straight line drawn from a given point perpendicular to a given plane.

2. In the cubic equation $x^3 - qx - r = 0$ where $\frac{r^2}{4} < \frac{q^3}{27}$, shew that the solution may be effected by means of a table of natural sines, and explain why the accuracy of this method cannot be depended upon in practice.

3. In a right-angled spherical triangle where c is the hypotenuse, and a and b the sides, prove that

$$\tan. \frac{c+a}{2} \cdot \tan. \frac{c-a}{2} = \tan.^2 \frac{b}{2}.$$

4. Find the time of a small oscillation of an oblique-angled parallelogram vibrating in its own plane about an axis passing through one of its angular points.

5. If from a point in a horizontal plane, any number of bodies be projected in the same vertical plane with such velocities, and in such directions, that the areas of the parabolas described shall be equal to one another; find the curve which shall touch them all.

6. Trace the curve whose equation is $y^2 = \frac{x^3 - bx^2}{x + c}$, and determine the nature of its singular points.

7. A rod of given length, and uniform density, is supported in a fluid, the density of which varies as the depth, by a string

attached to it at a given point; find the position of equilibrium, supposing one extremity of the rod coincident with the surface.

8. If P be the pole of the heavens, Z the zenith and S a given star, find when the angle ZSP increases fastest.

9. Integrate the following differentials:

$$\frac{dx}{x^4 + 1}, e^x \cdot \sin. mx \cdot dx,$$

$$dy - \sqrt{x + y}^n \cdot dx = a^n dx.$$

10. Sum the following series:

$$\frac{\sin. \theta}{1} \cdot \frac{1}{2} - \frac{\sin. \theta^3}{1 \cdot 2 \cdot 3} \cdot \frac{1}{3} + \frac{\sin. \theta^5}{1 \cdot 2 \cdot 3 \cdot 4 \cdot 5} \cdot \frac{1}{4} - \&c. \text{ ad } \infty.$$

$$2 + 5 + 24 + 83 + 334 + \&c. \text{ to } n \text{ terms.}$$

11. Find the shortest line which can be drawn touching a given ellipse, and intercepted by the tangents drawn at the extremities of the axes of the ellipse.

12. Find the equation to the curve surface in which the tangent plane at any point cuts from the axis of z a portion equal to the distance of the point of contact from the origin of the co-ordinates.

MONDAY AFTERNOON.—Mr. KING.

Fifth and Sixth Classes.

1. INVESTIGATE the rule for finding the least common multiple of any two quantities, and apply it to find the least common multiple of 174 and 336.

2. Having given the n^{th} term of an arithmetic series, and also the sum of n terms, find the series.

3. Having given the sine of 12° , find the sine of 48° .

4. Two circles are situated in the same vertical plane; determine analytically and geometrically the straight line of swiftest descent from one to the other; and shew that the two results agree.

5. At what hour on a given night, in a given latitude, will the vertical circle passing through a known star cut the equator in a given angle?

6. Find the value of

$$\frac{\sin. 2x + 2 \overline{\sin. x}^2 - 2 \sin. x}{1 - \cos. x},$$

when $x = 0$.

7. Two straight rods inclined to each other at a given angle are immersed vertically in a fluid in a given position; find the angle formed by their images.

8. Trace the curve whose equation is $a^2y = \frac{x^5}{x^2 - b^2}$.

9. The resultant and sum of two forces are given, and also the angle which one of them makes with the resultant; it is required to determine the forces and the angle at which they act.

10. Having given two conjugate diameters of an ellipse and the angle contained between them; find the magnitude and position of the axes.

11. Find the resistance to a cycloid, moving in a fluid in the direction of its base.

12. Enumerate the arguments by which the diurnal rotation of the Earth round its axis, and its annual motion round the Sun are established.

13. Transform the equation $x^3 - px^2 + qx - r = 0$, whose roots are α, β, γ , into one whose roots are $\alpha^2 + \beta^2, \alpha^2 + \gamma^2, \beta^2 + \gamma^2$.

14. Investigate the equation to the orbit in which the centripetal force is always n times as great as the centrifugal, and find the time of one revolution.

15. Determine that point in an ellipse described round a centre of force situated in the focus, where the linear velocity is n times as great as the paracentric.

16. Find the moment of inertia of a rectangle revolving in its own plane, round an axis passing through its centre of gravity.

17. Sum the following series:

$$1 \cdot 2^2 + 2 \cdot 3^2 + 3 \cdot 4^2 + \&c. \text{ to } n \text{ terms.}$$

$$\frac{1}{1 \cdot 2} - \frac{1}{3 \cdot 4} + \frac{1}{5 \cdot 6} - \frac{1}{7 \cdot 8} + \&c. \text{ to infinity.}$$

18. Integrate the following differentials:

$$\frac{x+4 \cdot dx}{x^3-x^2} \quad \frac{x^4 dx}{\sqrt{1-x^2}},$$

$$\sqrt{x} \cdot dx + \sqrt{y} \cdot dx = \sqrt{y} \cdot dy.$$

MONDAY AFTERNOON.—Mr. HIND.

Third and Fourth Classes.

1. A SUM of money P is left among A , B and C , in such a manner that at the end of a , b and c years, when they respectively come of age, they are to possess equal sums; required the share of each at compound interest.

2. Prove that 1, 3, 5, 7, &c. is the only arithmetic progression beginning from 1, in which the sum of the first half of any even number of terms bears to the sum of the second half the same constant ratio, and find that ratio.

3. Shew that

$$\text{vers. } (\pi - A) = 2 \text{ vers. } \left(\frac{\pi + A}{2} \right) \text{ vers. } \left(\frac{\pi - A}{2} \right)$$

to a radius = 1.

4. Two equal parabolas have a common axis; prove that the area included between one of them and a straight line touching the other is a constant magnitude.

5. From the top of a tower two bodies are projected with the same given velocity at different given angles of elevation, and they strike the horizon at the same place. Find the height of the tower.

6 Determine the magnitude of a sphere of given specific gravity which will rest just immersed in a fluid whose density varies as its depth.

7. Find the principal focus of a reflector generated by the revolution of a cycloid about its axis, and determine the relation between the distances of the conjugate foci from the vertex.

8. Find all the angles in which the curve whose equation is

$$\left(\frac{x}{y} + \frac{y}{x}\right)^2 = 2a^2 \cdot \left(\frac{1}{y^2} - \frac{1}{x^2}\right)$$

cuts the axis, and determine the value of its greatest ordinate.

9 If a body describe a logarithmic curve by a force acting perpendicularly to its axis; prove that the force at any point varies as the body's distance from the axis, and the velocity as the square root of the chord of curvature parallel to it.

10. Integrate $\frac{\tan. \theta \cdot d\theta}{1 - \tan.^2 \theta}.$

11. Three given points are taken in the circumference of a given circle; find its vertical position on a horizontal plane, that the sum of their altitudes may be the greatest or least possible.

12 In any latitude find when the time of the rising of the Sun's disk bears the least ratio to the time of its crossing the meridian.

13. If a body describe a circle by a force in the circumference and at the same time the circle revolve about the center of force in its own plane with an angular velocity varying inversely as the square of the body's distance; prove that the path traced out in fixed space is the spiral of Archimedes, and find the law of force by which it may be described.

14. Construct and graduate a clepsydra in which the weight of the fluid discharged measures the time.

MONDAY EVENING.—MR. HIND.

1. EXPRESS the secant and cosecant of the sum and difference of two arcs in terms of the secants and cosecants of the simple arcs.

2. Shew that the number of permutations of (m) things taken (n) together is equal to $m \cdot (m-1) \dots (m-r+1)$ times the number of permutations of $(m-r)$ things taken $(n-r)$ together.

3. In how many different ways is it possible to pay £10. in crowns, seven shillings, and moidores?

4. Two spheres of given magnitudes and elasticity, not affected by gravity, are projected at the same time from given points with given velocities in opposite directions in the same straight line; find *when* and *where* their impact takes place, and their positions at the end of any assigned time after impact.

5. The vertex of a parabola is A , and the axis AN ; and in the ordinate NP a point Q is taken always equidistant from A and P ; find the equation to the curve which is the locus of Q ; trace it, and determine the angles in which it cuts the axis and the arcs of the parabola.

6. If (t) be the length of a part of the catenary, the weight of which is equal to the tension at a point whose abscissa is x and corresponding arc s ; prove that

$$s+x : s-x :: \sqrt{(t+x)} : \sqrt{(t-x)}.$$

7. The abscissa and double ordinate of a common parabola are a and b , and the diameters of its circumscribed and inscribed circles D and d ; prove that $(D+d) = (a+b)$.

8. Find the time of emptying the frustum of a cone, the radii of whose ends are R and r , and altitude (h) , through a small orifice in its less base.

9. If a quadrantal arc be divided into two parts in the ratio of $2n : 1$, of which θ is the less; prove that

$$\sin. \theta \cdot \sin. 3\theta \cdot \sin. 5\theta \dots \sin. (2n+1)\theta = \frac{1}{2^n}.$$

10. Required the law of force when the space due externally to the velocity in a circle : space due internally :: $\sqrt{e} : 1$; e being the base of the hyperbolic system of logarithms.

11. The quantities a, b, c, d , &c. are in arithmetical progression; prove that the terms of any order of the differences of the quantities $\frac{a}{b}, \frac{b}{c}, \frac{c}{d}$, &c. increase or decrease according as the progression decreases or increases.

12. If any number of hyperbolas have a common centre, and at distances proportional to their major axes double ordinates be drawn; shew that bodies acted upon by the same absolute force situated in the centre will describe any of the arcs thus cut off in equal times.

13. Prove that Des Cartes' solution of a biquadratic equation succeeds when all the roots are possible and two of them equal, and apply it to solve the equation

$$x^4 - 6x^3 + 8x^2 + 6x - 9 = 0.$$

14. An ellipse whose semi-axes are (a) and (b) , and eccentricity (e) revolves about its major axis; shew that the surface of the solid thus generated is

$$= 2\pi b \left\{ b + \frac{a}{e} \cdot A \right\};$$

A being a circular arc whose $\sin. = e$ to a rad. $= 1$.

15. Three straight lines revolve about three given points not in the same straight line and intersect one another in three points; prove that if the loci of two of these intersections be straight lines, the locus of the third will be a conic section.

16. A pencil of parallel rays incident upon a transparent medium bounded by parallel plane surfaces, is partly reflected at the upper surface, partly refracted by the medium, and afterwards reflected at the lower surface; prove that all the rays of the emergent pencil are parallel, and find the angle of incidence that its breadth may be the greatest possible.

17. If the force be repulsive and vary as the distance from the centre of the globe; prove that the oscillations in an epicycloid are isochronous; and having given the radii of the globe and wheel, find the velocity at any point, and the actual time of an oscillation.

18. If $\cos. (\lambda + \delta) : \cos. (\lambda - \delta) :: 1 : 3$ where λ is the latitude of the place, and δ the declination of the Moon; prove that the time of the ebbing or flowing of the superior tide : the time of the ebbing or flowing of the inferior tide $:: 2 : 1$.

19. If the roots of the equation

$$x^n - px^{n-1} + qx^{n-2} - \&c..... + Qx^2 - Px + L = 0$$

be in harmonical progression, then will the greatest and least be

$$\frac{n\sqrt{n+1}.L}{\sqrt{n+1}.P - \sqrt{3.(n-1)^2P^2 - 6n.(n-1)QL}},$$

and

$$\frac{n\sqrt{n+1}.L}{\sqrt{n+1}.P + \sqrt{3.(n-1)^2P^2 - 6n.(n-1)QL}}.$$

Required a proof.

20. Integrate

$$\frac{(\sec. \theta - \tan. \theta) \cdot d\theta}{\sec. \theta + \tan. \theta}, \text{ and } \frac{e\theta \cdot \sin. m\theta \cdot d\theta}{1 - 2e^\theta \cos. m\theta + e^{2\theta}};$$

and find the relation of x and y in the equation

$$\frac{d^2y}{dx^2} - a \cdot \frac{dy^2}{dx^2} + bx \cdot \frac{dy^3}{dx^3} = 0.$$

21. A globe of given weight and magnitude, after descending by the force of gravity (a) feet in air, passes into another medium whose density is (n) times as great; required the relations between the space described, the velocity acquired, and the time of motion.

22. Find the motions of two equal balls connected by an inflexible rod without weight, one of them being attached to a given weight by means of a string passing over a fixed pulley, and the other moving on a perfectly smooth horizontal plane.

23. If (r) be the radius vector of an ellipse from the centre, and θ the angle which it makes with the major axis; it is required to express (r) in a series of the form $A_0 + A_1 \cdot \cos. \theta + A_2 \cdot \cos. 2\theta + \&c.....$ and to show particularly how A_0 , A_1 , and A_2 may be determined.

24. A straight rod which is always parallel to the horizon descends freely by the force of gravity, and at the same time revolves uniformly about one of its extremities; required the equations to the surface traced out by it, and to the tangent plane at any point.

TUESDAY MORNING.—Mr. HIND.

First and Second Classes.

1. FIND the sum of the projections of the three sides of a plane triangle upon three planes at right angles to each other.

2. A body is projected perpendicularly upwards and the time between its leaving a given point and returning to it again is given; find the velocity of projection and the whole time of motion.

3. Given (a) the area corresponding to any rectangular co-ordinates in the figure of secants; to find the content of the solid generated by its revolution round the axis.

4. Sum the series

$$\sin.^2 a + \sin.^2(a+b) + \sin.^2(a+2b) + \&c. \text{ to } (n) \text{ terms.}$$

5. Through any point in the straight line joining the centre, and intersection of the tangents to any two points, of an ellipse, two straight lines are drawn respectively parallel to its diameters passing through the points of contact; prove that the triangles formed by these lines and the tangents are equal.

6. If λ be the true latitude of a place, and θ the latitude on Mercator's chart constructed to a rad. $= 1$; prove that $2 \tan. \lambda = (e^\theta - e^{-\theta})$.

7. A globe of given weight and radius rolls down the surface of a hemispherical bowl from rest; find the velocity acquired at any point of its descent.

8. A chain suspended at its extremities from two tacks in the same horizontal line forms itself into a cycloid; prove that the density at any point $\propto \sec.^3 \left(\frac{\theta}{2} \right)$, and the weight of the corresponding arc $\propto \tan. \left(\frac{\theta}{2} \right)$, θ being the arc of the generating circle measured from the vertex.

9. A small orifice is made in the side of an upright cylindrical vessel, and the vessel revolves about its axis with a given uniform velocity; find the path traced out by the fluid on the horizontal plane.

10. The bias and velocity of projection of a bowl are such as to cause it to describe a given logarithmic spiral; find the direction of projection, so that after having described a path of given length, it may impel the jack in a given direction.

11. Prove that the force by which a body may describe any of the conic sections round a centre of force in the vertex varies inversely as the square of the distance, and directly as the cube of the secant of the angle which it makes with the axis.

12. Find the interval between the heliacal rising and setting of a given star, to a spectator in a given latitude.

13. The velocities of the different parts of a river vary as their distances from the bank; required the path described by a boat moving in a course inclined to the stream at an angle of 45° : also the velocity at any place, and the time of reaching a point at a given distance from the bank.

TUESDAY AFTERNOON.—Mr. HIND.

Fifth and Sixth Classes.

1. REQUIRED the discount of £100. due three years hence, at 5 per cent. per annum, compound interest.

2. Find the values of x , y and z , which satisfy the equations

$$xy = a \cdot (x + y),$$

$$xz = b \cdot (x + z),$$

$$yz = c \cdot (y + z).$$

3. If a fraction in its lowest terms be converted into a recurring decimal, prove that the number of figures which recur is always less than the denominator of the fraction.

4. Shew that the parameter belonging to any diameter of a parabola varies inversely as the square of the sine of the angle at which the corresponding ordinates are inclined to it.

5. Divide the angle A into two parts, so that their versed sines may be in the given ratio of $m : n$.

6. A body projected in the direction of the action of a constant force, describes P and Q feet in the p^{th} and q^{th} seconds; find the magnitude of the force and the velocity of projection.

7. Trace the curve whose equation is $\sqrt{y} = \frac{a}{\sqrt{x}} + \sqrt{x}$, and determine the position of its asymptote.

8. A parabola with its axis vertical, has its vertex coincident with the surface of a fluid in which it is immersed; divide it by lines parallel to the surface into four parts, so that the pressures upon them may be equal.

9. Differentiate

$$\frac{a}{a+x} + \frac{b}{b+x} - \frac{a+b}{a-b} \cdot \log. \left(\frac{a+x}{b+x} \right),$$

and find the value of

$$\frac{a^x \sin. ax - b^x \sin. bx}{c^x \cdot \text{vers. } cx - e^x \cdot \tan. ex}, \text{ when } x = 0.$$

10. Given one of the angles and the perimeter of a plane triangle, to find the sides, when the area is the greatest possible.

11. Prove that the semi-axes major and minor and the semi-latus rectum of an elliptic orbit are respectively an arithmetic, geometric, and harmonic mean between the aphelion and perihelion distances.

12. Integrate $\sin. \theta \cdot \cos \theta \cdot \text{vers. } \theta \cdot d\theta$.

13. Two bodies begin to descend at the same time down two given inclined planes from given points in the same vertical line; find their distance from each other at the end of any assigned time.

14. In any recurring equation

$$x^n - p x^{n-1} + q x^{n-2} - \&c. = 0,$$

whose roots are $a, b, c, \&c.$; prove that

$$\frac{a^2}{b^2} + \frac{b^2}{a^2} + \frac{a^2}{c^2} + \frac{c^2}{a^2} + \&c. \\ = (p^2 - 2q + \sqrt{n}) \cdot (p^2 - 2q - \sqrt{n}).$$

15. A body projected in a given direction with a given velocity and attracted towards a given centre of force, has its velocity at every point : the velocity in a circle at the same dist. $:: 1 : \sqrt{2}$; find the orbit described, the position of its apse, the magnitude of its axis, and the law of force.

16. Prove that the image of a straight line formed by rays refracted through a sphere is a conic section; and find the magnitudes and positions of its axes and the latus rectum.

17. Find the sum of the series:

$$\frac{1}{1 \cdot 2 \cdot 3} + \frac{1}{2 \cdot 3 \cdot 4} + \frac{1}{3 \cdot 4 \cdot 5} + \&c. \text{ in infinitum.}$$

$$\text{and of } \frac{nx^3}{1 \cdot 2 \cdot 3} + \frac{n \cdot (n-1) x^4}{1 \cdot 2 \cdot 3 \cdot 4} \\ + \frac{n \cdot (n-1) \cdot (n-2) x^5}{1 \cdot 2 \cdot 3 \cdot 4 \cdot 5} + \&c. \text{ to } (n) \text{ terms,}$$

18. Find that section of a sphere which attracts a particle placed at a given point in the axis produced with the greatest possible force.

TUESDAY AFTERNOON.—MR. KING.

Third and Fourth Classes.

1. INSERT 6 harmonic means between 1 and 20.

2. Find $\sin. \theta$ from the equation

$$\sin. 3\theta - 2 \sin. 2\theta + \sin.^2 \theta + 4 \sin.^3 \theta = 0.$$

3. If A , B and C be the angles, and a , b and c the sides of a spherical triangle, and if $b + c = \pi$, prove that

$$\sin. 2B + \sin. 2C = 0.$$

4. How far must a given frustrum of a sphere be immersed in a fluid, with its axis vertical, that the pressure on its two ends may be equal to n times the pressure on its curve surface?

5. An eye is situated in a given point of the straight line joining the centres of two given spheres, but not between them; find the visible surface of each.

6. If P_1 and P_2 be two sums, due respectively at the end of times t_1 and t_2 , prove that the equated time of payment is expressed by,

$$\frac{P_1 t_1 + P_2 t_2}{P_1 + P_2} = \frac{P_1 P_2}{(P_1 + P_2)^2} \cdot \overline{t_1 - t_2}^2 \cdot r, \text{ very nearly,}$$

where r is the interest of £1. for 1 year.

7. Having given the radius of a circle, find the area and perimeter of a regular octagon inscribed in it, and

compare them with the area and perimeter of the circumscribing octagon.

8. Having given the contemporaneous altitudes of the Sun, and a known Star, on a given day, and also the angular distance between them; find the latitude of the place and the hour of the day.

9. An uniform rod is made to vibrate about a point, so that the time of its oscillation is a minimum; find the force exerted on the point of suspension in any given position.

10. Trace the curve whose equation is

$$x^4 y^4 - a^4 y^4 + b^8 = 0, \text{ and find its area.}$$

11. Integrate the following differentials:

$$\frac{dx \cdot \sqrt{a^2 + x^2}}{x}, \frac{\sin. x^5 \cdot dx}{\cos. x^3}$$

$$(a^2 y + x^3) \cdot dx + (b^3 + a^2 x) \cdot dy = 0.$$

12. If a body describe an equilateral hyperbola, round a centre of force, situated in the centre, and if θ be the angle described by the body from an apse in time t , prove that,

$$\sin. 2\theta = \frac{e^4 \sqrt{k} \cdot t - 1}{e^4 \sqrt{k} \cdot t + 1},$$

the force at distance 1 being represented by k .

TUESDAY EVENING.—Mr. KING.

1. FIND the least whole numbers which satisfy the equation

$$11x - 18y = 63.$$

2. Prove that $n \cdot \overline{n-1} \cdot \overline{n-2} \cdot \&c.....\overline{n-r}$, is divisible by $1 \cdot 2 \cdot 3 \cdot \&c.....\overline{r+1}$, n being a whole number.

3. Determine the locus of a point so situated within a plane triangle, that the sum of the squares of the straight lines drawn from it to the angular points is constant; if the curve has a centre, determine its position.

4. Determine when the sum of the zenith distances of two known stars in a given latitude, is a maximum.

5. One end of a beam is connected to a horizontal plane by a hinge, about which the beam is suffered to revolve in a vertical plane; the other end is attached to a weight by means of a string passing over a pulley in the same vertical plane; find the position of equilibrium.

6. A parabola and hyperbola have the same vertex, and the same axis; draw a tangent to the former which shall cut the latter in a given angle.

7. A cone containing a given quantity of fluid, has its axis inclined to the horizon at a given angle; find the time of emptying, through a small orifice in its vertex.

8. Having given six straight lines, of which each is less than the sum of any two, determine how many tetrahedrons can be formed, of which these straight lines are the edges.

9. Two rods, of given length, are erected perpendicular to a given plane; find the locus of an eye in that plane, to which the sum of their apparent magnitudes will always be the same.

10. If A , B , and C , be the angles of a spherical triangle, a , b , and c , the opposite sides, and δ the distance of a point on the surface of the sphere, equally distant from the angular points; prove that

$$\tan.^2 \delta = \frac{\tan.^2 \frac{a}{2} \cdot \tan.^2 \frac{c}{2} - 2 \tan. \frac{a}{2} \cdot \tan. \frac{c}{2} \cdot \cos. B}{\sin.^2 B}.$$

11. A semicircle, the plane of which is vertical and base horizontal, has an uniform chain of given length, placed in a given position upon its circumference; find the velocity of the chain at the end of a given time.

12. If $ay^2 + bxy + cx^2 + dy + ex + f = 0$, be the equation to a curve of the second order; prove that the angles which its principal diameters make with the axis of x , may be determined from the equation

$$\tan. 2\theta = -\frac{b}{a-c}.$$

13. It is required to graduate a horizontal dial, the style of which is in the meridian, and inclined to the horizon at a given angle, so that on a given day it shall shew the apparent time in a given latitude.

14. Find the centre of pressure of the sector of a circle, the axis of the sector being supposed to be vertical.

15. Find that point in the surface of a given paraboloid through which if two planes be drawn, one perpendicular and the other parallel to the axis, the sum of the areas of the sections shall be a maximum.

16. Apply the differential equations of motion to determine the density of the medium, so that a body may describe a given curve, about a given centre of force; and find the law of the density, when the curve is a circle and a force is situated in its circumference varying as $\frac{1}{D^n}$.

17. Two given weights are connected by a string passing through a hole in a horizontal plane; one of them is projected in any direction in the horizontal plane, the other descends vertically by the action of gravity; find the motion of the bodies, and the curve described on the plane.

18. If a body be projected in a medium, the resistance of which varies as the velocity, and be acted on by gravity,

and another be projected in vacuo at the same angle, and with the same velocity, and acted upon by the same constant force, and if t_1 and t_2 be the times of describing two arcs in the medium, and in vacuo, so related to each other that the tangents at their extremities shall cut the axis at the same angle; then $(e^{kt_1} - 1) = k t_2$; k being the resistance to velocity 1.

19. If a body describe an ellipse, uniformly, round two centres of force, situated in the foci; prove that the forces at any point of the ellipse are equal, and inversely proportional to the square of the corresponding conjugate diameter.

20. Find the locus of the vertices of all right-angled spherical triangles having the same hypotenuse; and from the equation obtained, prove that the locus is a circle when the radius of the sphere is infinite.

21. Three points move with equal velocities in three rectangular axes; one of them commences its motion from the origin, the other two from two given points equally distant from the origin; find the equation to the surface, to which the plane, passing through the contemporaneous positions of the points, shall always be a tangent.

22. Integrate the following differentials:

$$\frac{x^2 dx}{(a+x)(x^2+b^2)},$$

$$\frac{dx}{x^5 + 2x^3 + 3x},$$

$$x^2 y dx - y^3 dy = x^3 dy, \quad x^3 \cdot \frac{d^2 y}{dx^2} - x \cdot \frac{dy}{dx} + y = 0,$$

$$z - px - qy = 3a \cdot p^{\frac{1}{3}} \cdot q^{\frac{1}{3}},$$

$$\text{where } p = \left(\frac{dz}{dx}\right), \text{ and } q = \left(\frac{dz}{dy}\right).$$

23. Sum the following series:

$$\frac{1}{1 \cdot 3 \cdot 5} + \frac{2}{3 \cdot 5 \cdot 7} + \frac{3}{5 \cdot 7 \cdot 9} + \&c.$$

to n terms and to infinity.

$$\frac{1^2}{1^2 - k^2} \cdot \cos. \theta + \frac{2^2}{2^2 - k^2} \cdot \cos. 2 \theta + \frac{3^2}{3^2 - k^2} \cdot \cos. 3 \theta + \&c.$$

24. Integrate the following equation of differences:

$$u_{x+1} - a u_x = x^2.$$

The Capital has been raised by a subscription of Six Thousand shares of £100. each.

These shares are held exclusively by Persons whose names are, or have been, on the books or boards of any College or Hall at either of the Universities, unless acquired by bequest, &c.

The deposits have been invested in Government securities, as a precautionary capital.

Interest, at the rate of five per cent per annum, will be paid to the Shareholders on the amount advanced.

Every Shareholder, for the time being, is either to Assure on his own life, or to procure to be Assured, on that of some other person, whose name is, or has been, on the books or boards of any College or Hall at either of the Universities, £100. for every share which he holds.

Such Assurance to be replaced by another in case of death, or other determination of the Policy.

Two and a half per cent will be deducted from the interest on the deposit, during the time this condition shall not be complied with.

As it is intended that the capital advanced shall be repaid to the Shareholders with a bonus of one hundred per cent, one-tenth of the profits, when ascertained by a valuation of all existing risks, will, every five years, be applied to form a fund for that purpose.

The remaining nine-tenths of the profits to be divided between the Assured and the Shareholders, in the proportion of eight-tenths to the former, and one-tenth to the latter.

The profit, or bonus, appropriated to the Assured, to be given, either by a diminution of the rate of premium, or by an increase of the amount of the Policy, at the option of the party.

Assurances may be effected with this Society to any amount, not exceeding £5000. on one life, whether the

party be a Shareholder or not ; provided he be otherwise duly qualified.

The Society will be always ready to purchase, from the party in possession, any unexpired Policy.

Proposals for Assurances to be addressed to JOHN WRAY, Esq. Chairman of the Committee, at the Office of the Society, No 24, Suffolk Street, Pall Mall, East, London ; or to the Corresponding Directors, THE REV. J. W. HUGHES, Oxford, and H. GUNNING, Esq. Cambridge, from whom forms for proposals may be obtained.

*** Upon payment of these Premiums, the receipt of £.100 is secured upon the dropping of the Life within the time for which the Premium is paid, but not afterwards.*

The Rates of Premium of the University Life Society, are the same as those of the Equitable, with certain deductions not exceeding at any age five per cent.

TERMS AND CONDITIONS.

PERSONS wishing to effect an Assurance, must state the Name, Residence, and Profession of the Party on whose behalf the Assurance is proposed, and of the Party whose life is proposed to be Assured; the College at which the latter Party has been entered; the place and date of birth; the age next birth-day; whether Married or Single; whether he has resided abroad, and if so, where, and for what period; whether he has been employed in the military or naval service; whether he has had the small-pox, the cow-pox, or the gout; whether he has been, since his childhood, afflicted with rupture, fits, dropsy, asthma, or spitting of blood; whether, during the last seven years, he has been afflicted with any severe or constitutional disease or disorder; the sum proposed to be assured; and the term for which the ASSURANCE is required.

Reference must also be given to two respectable persons for information, as to his present and general state of health, one of whom must be (if possible) the medical person who has usually attended him.

A declaration, as to all the points contained in the above statement, will form the basis of the contract between the ASSURED and the SOCIETY; and should any untrue allegation be contained in such declaration, the Policy will become void, and all payments of premium made thereon will be forfeited.

The DIRECTORS have the power of fixing the premium in every case, where any extra risk may attend the life to be Assured.

Policies will not be considered to be in force beyond 30 days after the expiration of the year, unless the premium, then due, shall have been paid to the SOCIETY. But should proof be given, to the satisfaction of the DIRECTORS, that a party, whose life has been Assured, continues in good health, the Policy may be revived at any time, within six months, on the payment of a fine, to be fixed by the BOARD of DIRECTORS, not exceeding ten shillings per cent, on the sum Assured; or at any period, within 13 months, on the payment of such fine as the BOARD of DIRECTORS may think reasonable.

Policies will become void, if the parties whose lives have been Assured shall go beyond the limits of Europe, or shall die at sea, (unless in passing direct from one part of the United Kingdom to another, or in passing from any part of the United Kingdom in time of peace, to and from any part of the Continent situate between the Elbe and Brest, in steam or other decked vessels;) or being or becoming a military or naval man, shall be called into actual service; unless, in each case, permission shall have been granted by the DIRECTORS, which may be obtained on such parties attending personally, to give every requisite explanation, and paying a premium, adequate to the extra risk, to be settled by the DIRECTORS.

ASSURANCES made by persons on their own lives, will become void if they die at any time by their own act, whether in a state of lunacy or otherwise; or by

duelling, within a twelvemonth after the Assurance is effected; or by the hands of justice. But if any person who has effected an ASSURANCE on his own life, shall die by his own hands, and not felo-de-se, the DIRECTORS shall, if they think proper to make any payment, be at liberty to pay any sum according to their discretion, not exceeding what would have been payable in the event of natural death.

Policies may be assigned by a separate deed, without making any endorsement on the Policy, or giving any notice to the Office.

The time for payment of claims is within three calendar months, after proof of the death of the parties whose lives are the subject of the ASSURANCE.
